Item 5 of the Provisional Agenda: Technical co-operation requests

The Bureau at its fourth session (Paris, 19 to 22 May 1980) examined the technical co-operation requests received from States Parties and formulated the following recommendations to the Committee thereon:

I. TECHNICAL CO-OPERATION PROJECTS RECOMMENDED

1. Nepal - Sagarmatha National Park

(request no. 120.1)

The Bureau recommends that technical co-operation amounting to a maximum of \$75,000 be granted to Nepal for conservation measures in Sagarmatha National Park.

2. Tunisia - Baths of Antonius at Carthage

(request no. 37.1 and addendum)

The Bureau recommends that the Committee grant technical co-operation to Tunisia in connection with the preservation of the Baths of Antonius at Carthage. However, two components in the proposed budget (publication of archaeological reports and the supply of a lorry which could be made available locally) did not meet with its approval. As requested by the Bureau, a revised budget, prepared by the Tunisian authorities, is submitted to the Committee for its consideration.

3. Zaire - Virunga National Park (request no. 63.1)

Garamba National Park (request no. 136.1)

Kahuzi-Biega National Park (request no. 137.1)

The Bureau recommended that technical co-operation be made available under the World Heritage Fund as part of an overall plan to improve the protection and the management of the large mammal populations in the above-mentioned three national parks. The funding recommended is as follows:

Virunga National Park	\$43,660
Garamba National Park	\$19,120
Kahuzi-Biega National Park	\$15,120
