Item 8D of the Provisional Agenda: Clarifications of property boundaries and sizes by States Parties in response to the Retrospective Inventory

Clarifications of property boundaries and sizes by States Parties in response to the Retrospective Inventory

SUMMARY

This document presents the results of the Retrospective Inventory of Nomination dossiers of European World Heritage properties inscribed in the period 1978-1998 (conducted in coordination with the European Periodic Reporting Exercise) and Arab World Heritage properties inscribed between 1978 and 2004 (in view of the launching of the second cycle of Periodic Reporting).

Forty States Parties have responded to the letters dispatched following the review of the individual dossiers in order to clarify the original intention of their Nominations (or to submit appropriate cartographic documentation) for 124 World Heritage properties.

A summary of other follow-up activities to the Periodic Report for the European Region is contained in document WHC-08/32COM/11C.

Draft Decision: 32 COM 8D, see Point IV
I. The Retrospective Inventory

1. The Retrospective Inventory, an in-depth examination of the Nomination dossiers available at the World Heritage Centre, ICOMOS and IUCN, was initiated in 2004, in parallel with the launching of the Periodic Reporting Exercise in Europe, involving European properties inscribed on the World Heritage List in the period 1978-1998. The same year, the Retrospective Inventory was endorsed by the World Heritage Committee at its 7th extraordinary session (Paris, 2004, see Decision 7 EXT.COM 7.1).

2. The objective of the Retrospective Inventory is the identification and collection of baseline data (such as boundaries, geographic coordinates, serial components, area of properties in hectares, statements of significance, etc.) for early inscribed World Heritage properties, data which had never been gathered in a systematic way before, in spite of their key role in different processes, such as reactive monitoring, modification of boundaries and the review of Periodic Reports for World Heritage properties. The reason lying behind this flaw was that documents and maps received as part of the Nomination file:
   a) had neither been registered nor inventoried until 2000;
   b) had been dispersed in different repositories (archives at the World Heritage Centre, ICOMOS, IUCN).

In this context, the identification of baseline data was already difficult when only one Nomination dossier had been received, but it was even more complicated when several versions of the Nomination file had been submitted. In case of uncertainty, no help could come from the States Parties' side, as in most cases there was no institutional memory at the local and national levels concerning the inscription process of World Heritage properties.

3. Therefore, the Retrospective Inventory was initiated: all documentation available at the archives of the World Heritage Centre, ICOMOS and IUCN was inventoried and analyzed, property by property. Baseline data were identified and made easily retrievable, through their insertion in Inventories and in the database of the World Heritage Centre. All maps were examined and compared to the text of the Nomination, the evaluation of the Advisory Bodies and the decision of the World Heritage Committee concerning the property, in order to identify which map was the authoritative one, displaying the delimitation of the World Heritage property as inscribed. This analysis allowed the detection of outstanding issues needing to be clarified (absence of delimitation, mistakes in the attribution of geographical coordinates, etc.). Such problems were subsequently presented to the States Parties concerned, whose cooperation was requested in order to clarify them. Letters were sent to Permanent Delegations, National Commissions and Focal Points identifying the maps and other geographic data on file and asking for the missing information. All satisfactory answers received were finally presented as “clarifications” to the World Heritage Committee.

4. This process (inventory – analysis – contact with the States Parties concerned – clarification noted by the World Heritage Committee) involved since 2004 more than 300 World Heritage properties in different Regions, following three phases:
   a) 2004-2005: Nomination files of European properties inscribed in the period 1978-1998 were reviewed and 41 letters were addressed to States Parties in the Region. 28 satisfactory clarifications were presented to the World Heritage Committee in 2006 (see Decision 30 COM 11A.2) and 15 in 2007 (see Decision 31 COM 11A.2). The World Heritage Committee requested that all outstanding issues in Europe should be clarified by 1st December 2007;
   b) 2006: Nomination files of Arab properties inscribed in the period 1978-2004 were reviewed and 13 letters were addressed to States Parties in the Region. The 10 satisfactory clarifications received are presented to the World Heritage Committee in this document;
c) 2007: Periodic Reporting submissions (maps, Section II, etc.) concerning European properties inscribed in the period 1978-1998 were reviewed and 35 letters were addressed to States Parties in the Region. 31 States Parties have responded, either in full or in part. The 71 satisfactory clarifications received are presented to the World Heritage Committee in this document. Therefore, the total of satisfactory clarifications received between 2005 and 2008 reaches the amount of 114 properties located in 37 States Parties;

II. Clarifications

1. This document presents “clarifications”, i.e. responses of the States Parties to the questions raised by the Retrospective Inventory. Two main problems were identified with regard to the geographic information submitted with the Nomination files of early inscribed World Heritage properties:
   a) a map was submitted, but no clear delimitation of the nominated area was displayed;
   b) a clear delimitation of the nominated area was displayed, but on a document which technically could not be defined as “a map” (for example, lacking a coordinate grid, or a scale, or a legend, etc.)

2. “Clarifications” submitted by States Parties in response to both types of issues normally take the form of maps and are considered satisfactory (and are therefore presented in this document) only if they:
   a) are consistent with the Nomination, the evaluation of the concerned Advisory Body(ies) and the decision of the World Heritage Committee at the time of inscription;
   b) meet technical requirements, i.e.:
      i) being topographic or cadastral maps at the largest available scale (the choice between a topographic or cadastral map depends on the size of the property);
      ii) displaying the delimitation of the World Heritage property as inscribed;
      iii) showing a clearly labeled coordinate grid (or coordinate references for at least four points on the map);
      iv) presenting a bar scale;
      v) displaying a legend in English or French clearly referring to the “boundaries of the World Heritage property” (and to the “buffer zone of the World Heritage property”, if applicable).

In order to avoid any future misunderstanding, it is important that the World Heritage Committee “takes note” of such clarifications. A “Clarification Document” will be issued each year until all pending issues have been resolved.

3. States Parties often submitted maps presenting the delimitation of World Heritage properties as they are understood today, rather than as defined at the time of inscription: such maps did not imply a “clarification”, but a “modification”. In fact, while a “boundary clarification” is a re-statement of the original intention of the State Party (consistent with the decision of the World Heritage Committee, the evaluation of the relevant Advisory Body(ies) and the nomination), a “boundary modification” is represented by any change (minor or significant) to the delimitation of a property as inscribed. Any boundary modification, even when simply reflecting changes in the national legislation, needs to be reviewed by the Advisory Bodies and approved by the World Heritage Committee, according to the procedure for boundary modifications (minor or significant) defined in paragraphs 163-165 of the Operational Guidelines for the Implementation of the World Heritage Convention. Among the 21 proposals for minor boundary modifications which are being presented to the World Heritage Committee in 2008, 18 have their origin in the reflection requested through the Retrospective Inventory.
It must be noted that in some cases both clarifications and proposals for minor boundary modifications for the same World Heritage property were submitted at the same time: in such cases, the clarification is presented in this document only if a map clearly displaying the delimitation of the property as inscribed was presented separately from the map showing the proposed change. Minor boundary modifications are presented in Document WHC-08/32.COM/8B.Add.

III. Clarifications in 2007-2008

1. At its 31st session (Christchurch, 2007), the World Heritage Committee requested States Parties in the Europe Region to submit all requested clarifications by 1st December 2007 (see Decision 31 COM 11A.2). Following this decision, as mentioned above, 35 letters were addressed to European States Parties asking for the missing information: 31 answers were received. At the same time, 3 answers were received to the letters sent to Arab States Parties in 2006. Of the total of 141 clarifications received for World Heritage properties in the European and Arab Regions in 2007, 81 are satisfactory and are therefore being presented for the World Heritage Committee’s consideration in this document.

2. Clarifications are presented (see Annex) by Region (Europe and Arab States), by State Party (in English alphabetical order) and by date of inscription of the property. For each World Heritage property, the following elements are provided:
   a) an identification table providing its name, its date of inscription, its criteria of inscription, its ID number, its area in hectares (and the area in hectares of its buffer zone, whenever applicable) and the date of receipt of the clarification;
   b) a “Technical Summary” providing some explanatory notes;
   c) if the property is serial, a small table listing the serial components and their sizes;
   d) a thumbnail record of the new map(s) of the property.

Note: this document is being presented in black and white, but its colour electronic version is available at the following Web address: http://whc.unesco.org/archive/2008.

IV. Draft Decision

Draft Decision 32 COM 8D

The World Heritage Committee,

1. Having examined Document WHC-08/32.COM/8D,

2. Recalling Decisions 30 COM 11A.2 and 31 COM 11A.2, adopted at its 30th (Vilnius, 2006) and 31st (Christchurch, 2007) sessions respectively,

3. Recalls that, as decided at its 31st session (Christchurch, 2007) by Decision 31 COM 11A.2, the World Heritage Centre and the Advisory Bodies will not be able to examine proposals for minor or significant modifications to boundaries of World Heritage properties whenever the delimitation of such properties as inscribed is unclear;

4. Congratulates States Parties in the Europe Region and the States Parties of Egypt, Morocco and Tunisia on the excellent work accomplished in the clarification of the delimitation of their World Heritage properties and thanks them for their efforts to improve the credibility of the World Heritage List,
5. Takes note of the clarifications of property boundaries and sizes provided by the following States Parties in the European and Arab Regions in response to the Retrospective Inventory, as presented in the Annex of Document WHC-08/32.COM/8D:

- Armenia: Monasteries of Haghpat and Sanahin;
- Austria: Historic Centre of the City of Salzburg; Palace and Gardens of Schönbrunn; Hallstatt-Dachstein-Salzkammergut Cultural Landscape;
- Belgium: Flemish Béguinages;
- Bulgaria: Boyana Church; Thracian Tomb of Kazanlak; Rila Monastery; Ancient City of Nessebar;
- Croatia: Old City of Dubrovnik; Historical Complex of Split with the Palace of Diocletian; Episcopal Complex of the Euphrasian Basilica in the Historic Centre of Poreč;
- Czech Republic: Historic Centre of Telč; Pilgrimage Church of St. John of Nepomuk at Zelená Hora; Lednice-Valtice Cultural Landscape; Gardens and Castle at Kroměříž;
- Denmark: Jelling Mounds, Runic Stones and Church; Roskilde Cathedral;
- Egypt: Memphis and its Necropolis – the Pyramid Fields from Giza to Dahshur; Ancient Thebes with its Necropolis; Nubian Monuments from Abu Simbel to Philae; Historic Cairo; Abu Mena; Saint Catherine Area;
- Estonia: Historic Centre (Old Town) of Tallinn;
- Germany: Würzburg Residence with the Court Gardens and Residence Square; Castles of Augustusburg and Falkenlust at Brühl; Palaces and Parks of Potsdam and Berlin; Town of Bamberg;
- Greece: Temple of Apollo Epicurius at Bassae; Mount Athos; Medieval City of Rhodes; Archaeological Site of Mystras; Delos;
- Hungary: Budapest, including the Banks of the Danube, the Buda Castle Quarter and Andrássy Avenue; Old Village of Hollókő and its Surroundings; Millenary Benedictine Abbey of Pannonhalma and its Natural Environment; Caves of Aggtelek Karst and Slovak Karst (presented jointly with Slovakia);
- Ireland: Archaeological Ensemble of the Bend of the Boyne; Skellig Michael;
- Italy: Historic Centre of San Gimignano; City of Vicenza and the Palladian Villas of the Veneto; Historic Centre of Siena; Ferrara, City of the Renaissance, and its Po Delta; The trulli of Alberobello; Early Christian Monuments of Ravenna; Historic Centre of the City of Pienza; Residences of the Royal House of Savoy; Botanical Garden (Orto Botanico), Padua; Portovenere, Cinque Terre, and the Islands (Palmaria, Tino and Tinetto); Costiera Amalfitana; Archaeological area of Agrigento; Su Nuraxi di Barumini; Archaeological Area and the Patriarchal Basilica of Aquileia;
- Latvia: Historic Centre of Riga;
- Luxembourg: City of Luxembourg: its Old Quarters and Fortifications;
- Morocco: Medina of Marrakesh; Ksar of Ait-Ben-Haddou; Archaeological Site of Volubilis;
- Poland: Cracow’s Historic Centre; Historic Centre of Warsaw; Old City of Zamość; Medieval Town of Toruń; Castle of the Teutonic Order in Malbork;
- Portugal: Monastery of Batalha; Cultural Landscape of Sintra; Prehistoric Rock-Art Sites in the Côa Valley;
- Romania: Danube Delta;
- Slovakia: Historic Town of Banská Štiavnica and the Technical Monuments in its Vicinity; Spišský Hrad and its Associated Cultural Monuments; Vlkolinec; Caves of Aggtelek Karst and Slovak Karst (presented jointly with Hungary);
- Spain: Garajonay National Park;
- Tunisia: Ichkeul National Park;
- Ukraine: Kiev: Saint-Sophia Cathedral and Related Monastic Buildings, Kiev-Pechersk Lavra;
- United Kingdom: Durham Castle and Cathedral; Ironbridge Gorge; Stonehenge, Avebury and Associated Sites; Castles and Town Walls of King Edward in
Gwynedd; Westminster Palace, Westminster Abbey and Saint Margaret’s Church; Canterbury Cathedral, St Augustine’s Abbey and St Martin’s Church; Maritime Greenwich;

6. **Requests** the European and Arab States Parties which have not yet answered the questions raised in 2005, 2006 and 2007 within the framework of the Retrospective Inventory to provide all requested clarifications and documentation as soon as possible and by **1 December 2008** at the latest.
ANNEX: Clarifications of property boundaries and sizes by States Parties

All maps presented in this document are consistent with the decision of the World Heritage Committee at the time of inscription, and/or the evaluation of the relevant Advisory Body and/or the Nomination.

Clarifications of property boundaries and sizes by States Parties in response to the Retrospective Inventory

WHC-08/32.COM//8D, p. 12
Property Castles of Augustusburg and Falkenlust at Brühl
Identification DE-288
Date of inscription 1984
Area of the inscribed property 89 ha
Date of receipt of the clarification 01/02/2008

Technical Summary:
The State Party has clarified the area in hectares of the inscribed property.

Property Palaces and Parks of Potsdam and Berlin
Identification DE-532ter
Dates of inscription 1990, 1992, 1999
Area of the inscribed property 2064 ha
Date of receipt of the clarification 20/12/2005

Technical Summary:
The State Party has provided a clear map of the site, displaying the boundaries of the inscribed property.

Property Town of Bamberg
Identification DE-624
Date of inscription 1993
Area of the inscribed property 142 ha
Area of the buffer zone 444 ha
Date of receipt of the clarification 01/02/2008

Technical Summary:
The State Party has clarified the area in hectares of the inscribed property and its buffer zone.

Property Temple of Apollo Epicurius at Bassae
Identification GR-392
Date of inscription 1986
Area of the inscribed property 20.46 ha
Area of the buffer zone 201.58 ha
Date of receipt of the clarification 07/12/2007

Technical Summary:
The State Party has provided a clear map of the site, displaying the boundaries of the inscribed property and its buffer zone. The area in hectares of the inscribed property and its buffer zone has also been indicated.

Property Mount Athos
Identification GR-454
Date of inscription 1988
Area of the inscribed property 33042.3 ha
Dates of receipt of the clarification 21/12/2005; 17/12/2007

Technical Summary:
The State Party has provided a clear map of the site, displaying the boundaries of the inscribed property. The area in hectares of the inscribed property has also been indicated.
Property Medieval City of Rhodes
Identification GR-493
Date of inscription 1988
Area of the inscribed property 65.85 ha
Date of receipt of the clarification 14/01/2008

Technical Summary:
The State Party has provided a clear map of the site, displaying the boundaries of the inscribed property. The area in hectares of the inscribed property has also been indicated.

Property Archaeological Site of Mystras
Identification GR-511
Date of inscription 1989
Area of the inscribed property 54.43 ha
Area of the buffer zone 1202.52 ha
Date of receipt of the clarification 14/01/2008

Technical Summary:
The State Party has provided a clear map of the site, displaying the boundaries of the inscribed property and its buffer zone. The area in hectares of the inscribed property and its buffer zone has also been indicated.

Property Delos
Identification GR-530
Date of inscription 1990
Area of the inscribed property 350.64 ha
Date of receipt of the clarification 14/01/2008

Technical Summary:
The State Party has provided a clear map of the site, displaying the boundaries of the inscribed property. The area in hectares of the inscribed property has also been indicated.

LATVIA

Property Historic Centre of Riga
Identification LV-852
Date of inscription 1997
Area of the inscribed property 438.3 ha
Area of the buffer zone 1574.2 ha
Date of receipt of the clarification 15/05/2007

Technical Summary:
The State Party has provided a clear map of the site, displaying the boundaries of the inscribed property and its buffer zone. The area in hectares of the inscribed property and its buffer zone has also been indicated.
Technical Summary:
The State Party had presented, at the time of submission of the Nomination, a map clearly showing the boundaries of the nominated property, as well as of its buffer zone. However, several new maps, submitted as an annex to the Periodic Reporting Section II questionnaire, displayed different boundaries. In May 2007, the State Party clarified that the 1997 boundaries are the correct ones; and that they are reflected in the map attached to the Law on the Preservation and Protection of Riga’s Historical Centre dated 11 June 2003 (as well as in the map attached to the Regulations on Preservation and Protection of Historic Centre of Riga, dated 8 March 2004), presented below.
