1. Patrmontio flies over Australia in his helicopter towards the Great Barrier Reef.

2. Pat lands in the Great Barrier Reef and gets out to explore.

3. Pat explores the beach and takes in the unique beauty of the Great Barrier Reef.

4. Pat finds a spot to get ready for the exploration of the Great Barrier Reef.
1. He dives into the sea only to discover all of the bleached coral that is dying from the sun’s heat waves.

2. Angrily, he races back to his helicopter and decides to do something about it.

3. Pat gets angry and confused. He doesn’t understand how this could have happened.

4. Pat travels back in time as the clock hands go backwards.
9. He travels back until the year 1981.

10. Pat decides to change a few things. So, he replaces lightbulbs with energy-efficient lightbulbs.

11. He switches off lights that aren't in use.

12. He educates young students on the importance of the Great Barrier Reef and why it matters.
(3) Pat tells people to ride their bikes or walk rather than drive.

(4) Pat convinces people to switch to wind energy or solar energy to help stop global warming.

(5) When he has convinced himself that the people will continue in what he has started he

(6) He then travels forward in time till the year...
17) 2050.

18) Pat sets out again to see if he had changed the impact of climate change and where it would of gone.

19) He discovers that the coral is colourful still and everything is.

20) Pat is happy with his work and only hopes that it will stay that.
