The World Heritage Committee,
1. Having examined Document WHC/19/43.COM/7B,
2. Recalling Decision 42 COM 7B.12, adopted at its 42nd session (Manama, 2018),
3. Acknowledges the ongoing commitment of the State Party and of national and international organizations towards the recovery of the property, through the implementation of the Recovery Master Plan (RMP), as well as through repair and conservation works already undertaken;

4. Reiterates its requests that the State Party integrate the RMP within an overall socio-economic revitalization programme for urban communities, encourage residents and local business to engage in the recovery process, and ensure that it delivers wide-ranging social and economic benefits;

5. Notes again the scale and scope of the 2015 earthquake disaster, as described in the reports of the 2015 and 2017 joint World Heritage Centre/ICOMOS/ICCROM Reactive Monitoring missions to the property, and expresses concern at the serious deterioration of the property's architectural and town-planning coherence;

6. Encourages the State Party to seek further technical support from the World Heritage Centre and the Advisory Bodies in order to coordinate and guide the recovery of the property, based on documentation, research, analyses and the use of appropriate traditional methods and materials;

7. Considers that the potential and ascertained threats to the Outstanding Universal Value (OUV) of the property are so considerable that the recovery process needs to be further improved, and therefore also encourages again the State Party to initiate, with technical support from the World Heritage Centre and the Advisory Bodies, an
International Scientific Steering Coordination Mechanism tasked with assisting with the development of structures and resources to guide the recovery of the property and its OUV, while balancing social and economic community needs;

8. Requests that the State Party invite a joint World Heritage Centre/ICOMOS/ICCROM Reactive Monitoring mission to assess the state of conservation of the property, to review progress with the implementation of the recommendations of the October 2015 and March 2017 missions, to assist with the development of a strategy for the implementation of the six-year RMP, and to provide guidance on its review;

9. Also requests the State Party to implement fully the recommendations of the ICOMOS Technical Review of the Patan Durbar Square Monument Zone sewer project;

10. Also requests the state party to implement fully its already declared Six Year Plan and complete its all rehabilitation works within 2021 and reports to the world heritage committee. should have that inscribing the property on the List of World Heritage in Danger will ensure that measures can be taken to focus recovery on projects that sustain the attributes of OUV, particularly the distinctive building structures and materials, in order to avoid reconstruction and conservation that is problematic and damages the property’s authenticity;

11. Decides therefore, in conformity with Paragraph 179 of the Operational Guidelines, to inscribe Kathmandu Valley (Nepal) on the List of World Heritage in Danger;

12. Further requests the State Party to prepare, in consultation with the World Heritage Centre and the Advisory Bodies, a proposal for the Desired state of conservation for the removal of the property from the List of World Heritage in Danger (DSOCR) and a set of corrective measures along with a timeframe for their implementation, for adoption by the Committee at its 44th session in 2020;

13. Calls upon the international community to continue supporting the State Party’s recovery work through financial, technical or expert assistance, including support for local communities and their housing and social needs;

14. Finally requests the State Party to submit to the World Heritage Centre, by 1 February 2020, an updated report on the state of conservation of the property and the implementation of the above, for examination by the World Heritage Committee at its 44th session in 2020.
