CONVENTION CONCERNING THE PROTECTION OF THE WORLD CULTURAL AND NATURAL HERITAGE

World Heritage Committee Thirty first Session

Christchurch, New Zealand 23 June – 2 July 2007

Item 21 of the Provisional Agenda: Other business

21A. Cost-benefit analysis of the current summary record and audio recording

SUMMARY

This document presents the results of a cost-benefit analysis of the current written Summary Record and an audio recording of the World Heritage Committee's proceedings, as requested by Decision **30 COM 13** (Vilnius, 2006).

Draft Decision: 31 COM 21A, see Point II

I. BACKGROUND

- As a result of concerns about the efficiency, cost and transparency of the current Summary Record of its debates, by Decision **30 COM 13** adopted at its 30th session (Vilnius, 2006), the World Heritage Committee requested the World Heritage Centre to undertake a cost benefit analysis of the production of the written Summary Record and an audio verbatim recording for discussion at its 31st session.
- 2. In preparing the cost-benefit analysis, the following assumptions were applied:
 - a) the audio recording would be made available as an audio CD/DVD in English and French (and any other languages for which interpretation was provided at the session, as the interpreters are recorded), indexed (Annex 1), and easy to search and use;
 - b) it would also be accompanied by a short written summary of no more than 50 pages, in order that users without easy access to computers would not be disadvantaged by a switch to audio recordings. This short summary would enable the reader to track the principal points of debate leading to the Committee's Decision. Such a model is already used by other international organizations such as the International Whaling Commission.
- 3. The cost-benefit analysis, which used the actual costs of producing the Summary Record of the 28th session of the Committee (Suzhou, 2004) as the baseline, is presented in Options A and B in Table I.
- 4. The cost-benefit analysis shows that a switch to an audio verbatim recording would result in financial savings in terms of paper consumption, printing, translation and postage.
- 5. There would also be beneficial opportunity costs related to efficiency because the current written record typically takes one year to finalize, whereas the audio recording could be issued at the same time as the Decisions report, i.e. within one month of the closure of the session (Rule 46 of the *Rules of Procedure*). Another benefit, although not financially quantifiable, is that an audio verbatim recording provides a perfectly accurate record of what is said. This should be of high value to users and in particular to States Parties.

Option A : Written record: 28th session of the World Heritage Committee (Suzhou, 2004)

Option B: Audio recording CD/DVD: 28th session of the World Heritage Committee (Suzhou, 2004)

II. DRAFT DECISION

Draft Decision: 31 COM 21A

The World Heritage Committee,

- 1. Having examined Document WHC-07/31.COM/21A,
- 2. <u>Recalling</u> Decision 30 COM 13, adopted at its 30th session (Vilnius, 2006),
- 3. <u>Takes note</u> of the cost-benefit analysis presented therein;
- 4. <u>Requests</u> the World Heritage Centre to produce an audio verbatim recording of the proceedings of its sessions, which should be complemented by a short written summary, as of its 32nd session in 2008.
