SUMMARY

This document presents the list of state of conservation reports which the World Heritage Centre and the Advisory Bodies propose to be discussed by the World Heritage Committee, as well as those requested by World Heritage Committee members as indicated in Document WHC-13/37.COM/INF.7.

The document also includes the list of the reactive monitoring missions requested for adoption by the World Heritage Committee at its 37th session (Phnom Penh, 2013).
I. Background

According to Paragraph 190 of the *Operational Guidelines*, the World Heritage Committee "shall review annually the state of conservation of properties on the List of World Heritage in Danger. This review shall include such monitoring procedures and expert missions as might be determined necessary by the Committee".

However, at its 35th session (UNESCO, 2011), the World Heritage Committee adopted Decision **35 COM 12B** para.10 and decided to apply a minimum two-year cycle for the discussion of the properties inscribed on the List of World Heritage in Danger, except for cases of utmost urgency.

Decision **27 COM 7B.106.3** requested “…that the reports are categorized as follows:

- a) Reports with recommended decisions which, in the judgment of the World Heritage Centre in consultation with the Advisory Bodies, require discussion by the World Heritage Committee,
- b) Reports which, in the judgment of the World Heritage Centre in consultation with the Advisory Bodies, can be noted without discussion"

As indicated in Document WHC-13/37.COM/INF.7, World Heritage Committee members requested to discuss some state of conservation reports which were initially submitted for adoption without discussion. These additional reports are highlighted in grey in the list below.

The properties for discussion during the 37th session of the World Heritage Committee are presented below in the order according to which the reports will be discussed.

II. Agenda Item 7A - State of conservation of the properties inscribed on the List of World Heritage in Danger
