21 members of the Committee.

The States Parties to the Convention, which are not members of the Committee, may attend
the sessions of the Committee and its Bureau as Observers.

Non States Parties to the Convention who are Member States of UNESCO or of the United
Nations may also be permitted by the Committee, upon written request, to attend the sessions
of the Committee and its Bureau as Observers.

of Cultural Property (ICCROM), the International Council on Monuments and Sites (ICOMOS),
and the International Union for Conservation of Nature (IUCN) will attend the sessions of the
Committee in an advisory capacity.

missions to UNESCO and non-profit-making institutions having activities in the fields covered
by the Convention, according to criteria defined by the World Heritage Committee, may be
authorized by the Committee to participate in the sessions of the Committee as Observers.

The meeting will be held on the Zoom platform which can accommodate up to 1,000 active
participants. Active participants are potential speakers who may request the floor during the
debates and intervene in the name of the State Party / organization they represent, using
camera/audio. Each State Party member of the Committee is guaranteed five (5) active

connections. The Advisory Bodies to the World Heritage Committee will be guaranteed five
(5) active connections. All other Observers, as defined in Rules 6,7 and 8 of the Committee’s
RoP, will receive one active (1) connection upon request and within the above-mentioned

While the number of registered delegates per State Party / organization can be much higher
than the number of active connections (no limitation per se), only the active participants will
be allowed to access the Zoom platform at the same time. Therefore, it is up to each delegation
to organize itself in order to access the meeting to ensure the full participation of its speaking
members. In case more than the authorized number of active delegates from your country /
organization connect to the online platform at the same time, the Secretariat will need to contact you to identify the speakers to be allowed in the meeting. Hence, you are strongly encouraged to designate a contact person to whom the Secretariat may refer to in such case.

7.2 REGISTRATION

All those wishing to attend the extended 44th session of the Committee, whether as a delegate of a Delegation member of the Committee or as an Observer, are strongly advised to register no later than 1 July 2021. 10 PROTOCOLS FOR THE CONDUCT OF THE ONLINE MEETING

The World Heritage Committee at its 15th extraordinary session (online, 2021) has adopted the methods of work for the extended 44th session (Decision 15 EXT.COM 3), which can be found in Annex 4 of document WHC/21/15.EXTCOM/3 and which have been taken into account in the sections below:

10.1 ACCESSIBILITY OF THE ONLINE PLATFORM

In conformity with Decision 209 EX/30 of the Executive Board and the relevant general recommendations adopted, Statutory Meetings of the World Heritage Convention should be accessible to all States Parties when they are conducted via online platforms, regardless where they connect from. As a result, UNESCO has been granted authorization to use the Zoom platform for official meetings in all Member States. Regulatory restrictions have been lifted to allow participants to access UNESCO Zoom events from anywhere in the world (see also sections 7.1 and 7.2 above).

10.2 QUORUM

In accordance with Rule 17 of the RoP, the quorum for a meeting consists of a majority of the Committee Members. The quorum will be determined at the beginning of each daily session by verifying the online presence of representatives of Members of the Committee accredited as per section 5.2 above. In the event the quorum is lost, for example due to connectivity issues being experienced by a number of representatives, the meeting could be suspended until such time as a quorum has been re-established.

10.3 TECHNICAL GUIDELINES FOR ORAL INTERVENTIONS DURING THE ONLINE MEETING

Participants should follow a number of practices in the course of the meeting in order to ensure the smooth conduct of business. They should connect in advance, 15 to 30 minutes before the
scheduled start time of each daily session since the Secretariat of the Committee would grant access to the meeting after checking the identity of participants. Participants should also connect from a quiet location in order to avoid background noise. They should preferably use a headset with a microphone, to avoid any problems with the audio function of their device and improve sound quality. All participants who are not taking the floor should mute their microphones and turn off their video at all times. To respect the time allowed for each daily session and to ensure a quality interpretation, speakers are encouraged to be succinct and speak at a moderate pace. As a matter of fact, the Chairperson may limit the time allowed to each speaker if necessary (Rule 22.2 of the RoP). In this regard, a timer will be displayed during each intervention for indication purposes. All technical information on connecting to and attending the online meetings is detailed in the technical note which can be found at https://whc.unesco.org/en/sessions/44COM.

10.4 REQUESTING THE FLOOR
The working languages of the Committee are, pursuant to Rule 44.1 of the RoP, English and French. Simultaneous interpretation will be provided in English and French, as well as in Chinese and Spanish. Members of the Committee may take the floor in one of these languages.

Participants who have an active connection are able to request the floor by pressing the ‘raise hand’ button, which will display a yellow hand beside the participant’s name. This button can be found at the bottom of the list of participants on the right hand of the screen.

Once the yellow hand is raised, the participant will be added to the list of speakers. When the Chairperson calls on a participant to take the floor, they should unmute their microphone using the microphone button in the bottom left corner. The Secretariat may assist in unmuting the participant if need be. Ideally, as long as the internet connection allows, participants should also use their video. After the participant has finished their intervention, they should put their microphone on mute again to avoid background noise.

The list of speakers will be regularly drawn up and communicated via the chat box by the Secretariat. According to Rule 22.1 of the Committee’s RoP, speakers will be called in the order in which they have signified their wish to speak via the ‘raise hand’ button or via the chat box in case of difficulties. The floor will be given to speakers according to Rules 22 of the Rules of Procedure.

10.5 CHAT BOX AND PROCEDURAL MOTIONS
The chat box is located at the bottom right hand corner of your screen. It can be used to signal a technical problem to the Secretariat, either publicly or via private messages. Most importantly, it can also be used by Committee members wishing to signal procedural motions (Rules 28 to 33), such as a point of order. In this case, the participants should raise their hand to indicate they wish to speak and type ‘point of order’ in the chat box. The Secretariat will then immediately draw the attention of the Chairperson to the fact that such a motion has been raised to enable him to take action as prescribed under the RoP.

The chat box should not be used for submitting amendments (see point 10.8 below).
10.6 ORDER OF INTERVENTIONS
While every active participant can request the floor by virtually ‘raising the hand’, this does not exclude a certain order of speeches, in conformity with the corresponding RoP. The persons who may address the Committee include, in addition to representatives of the Members of the Committee, members of the Secretariat and of the Advisory Bodies, all participants referred to in section 5.2 and in Rules 7 and 8 of the Committee’s RoP.

As it is the case for in presentia sessions, during the debates of the Committee, the order of speech will follow Rule 22.

For the item on “Nominations”, after decisions for inscription made by the Committee, the submitting State(s) concerned may be invited by the Chairperson to give a speech. Regardless of the format of the intervention, submitting States will be allotted a total of two minutes. In the case of transboundary / transnational nominations, the duration of interventions (speech by one or more States Parties) shall also not exceed two minutes in total; the coordinating State for the nomination is asked to coordinate in advance the order and format of interventions that will be made. Due to the reduced duration of the session and the necessity to allocate a fair amount of time to all files, the cooperation of submitting States in respecting this time requirement would be appreciated.

10.7 SCHEDULE OF EXAMINATION OF ITEMS
The examination of the agenda items related to State of Conservation and Nominations will be conducted by region to accommodate the different time zones and to facilitate the active participation of all stakeholders. In addition to the general timetable of the session, a provisional schedule for those agenda items will be made available in due course on the dedicated webpage of the session.

10.8 AMENDMENTS
Considering that the extended 44th session will have an extended Agenda, the RoP will have to be strictly respected in order to ensure a timely and smooth processing of all Agenda items. Therefore, amendments to draft decisions shall be submitted by Committee members by email to wh-rapporteur@unesco.org, using the appropriate form available in English and French on the web page of the meeting at https://whc.unesco.org/en/sessions/44COM.

The chat box should not be used for submitting amendments, hence amendments submitted into the chat box will not be considered.

While Committee members are entitled to submit an amendment at any moment until the decision is made, oral amendments made during the examination of the item concerned should remain as far as possible as proposed changes to the wording of the draft decision. The submission of substantial proposals of amendment should be made at least 24 hours before the discussion of the agenda item concerned, in accordance with Rule 23.3 of the RoP. This would greatly facilitate the organization of the online debates and an informed decision-making process.
The Secretariat will upload written of the submitted proposed amendments on the web page of the meeting at https://whc.unesco.org/en/sessions/44COM and will inform Committee members accordingly in a timely manner.

10.9 TEXT NEGOTIATIONS
Since negotiation of a text during an online session could be time consuming and complicated due to technological constraints, members of the Committee are strongly encouraged to convene informal meetings and negotiations as appropriate on draft decisions and amendments, as far as possible before the session of the Committee or not during the plenary sessions.

10.10 ADOPTION WITHOUT DEBATE
Given the limited time available for consideration of agenda items at a fully online session, the Committee has adopted at its 15th extraordinary session a Provisional Timetable with a number of items proposed for adoption without debate. The items concerned are listed in the Provisional Timetable presented in document WHC/21/44.COM/3B. It is to be understood that for these items, the Committee will only be asked to examine the related Draft Decisions.

Furthermore, introduction of these agenda items by the Secretariat will only take place if requested by the Chairperson and will be as concise as possible and limited to providing clarification and/or additional information.

10.11 WORKING GROUPS
During its sessions, the Committee can establish consultative or subsidiary bodies, as it deems necessary for the performance of its functions (Rules 20 and 21). The practice for several Committee sessions has been to constitute on the first day of the session the established consultative body on the Budget (item 14) and a consultative body on the Operational Guidelines (item 12).

Therefore, once constituted, meetings of these groups will be held in the format of separate online events. The usual practice has been for meetings of such groups to take place at a different timeframe than the plenary session. Their organization will be facilitated by the World Heritage Centre, which will provide a schedule and specific access links to the members of the groups for each of their meetings.

10.12 VOTING
The practice of the Committee is to take its decisions by consensus. Nonetheless, should a vote be necessary, all relevant information and details regarding voting are detailed below. These arrangements have been approved by correspondence by the Committee on 21 May 2021, as per Decision 15 EXT COM.3.

According to the Rules of Procedure of the Committee, each State member of the Committee shall have one vote in the Committee (Rule 35).

Voting in the Committee shall normally be by show of hands (Rule 40.1). Voting may also be by roll call if there is any doubt as to the result of a show of hands (Rule 40.2) or at the request of at least two members of the Committee (Rule 40.3). Roll-call voting if necessary will be conducted in presentia in the UNESCO Headquarters with the participation of the
representatives of the Member States to assure full transparency and compliance with the rigorous provisions of the Rules of Procedure.

The Rules also provide for the possibility of voting by secret ballot, whenever requested by at least two States members of the Committee, or if the President so decides (Rules 41-42). The technical means currently available to the Secretariat do not, however, allow for the organization of an online secret ballot.

Therefore, Committee members could consider the possibility of abstaining from requesting a secret ballot or deciding to suspend Rules 41 and 42 for the duration of the extended 44th session, in accordance with the procedure for suspending the application of the Rules of Procedure provided for in Rule 52 of the Rules of Procedure.

In accordance with Decision 15 EXT COM.3, the Secretariat developed the following practical arrangements for voting, should it become necessary to hold a secret ballot.

**Conduct of the secret ballot**

- Once a secret ballot has been requested by at least two States members of the Committee or decided by the Chairperson, and in order not to disrupt the plenary meetings and the continuation of the examination of subsequent agenda items, it is proposed that the ballot be held on the morning of the day following the request or decision to hold the secret ballot so that the results can be announced immediately at the resumed plenary meeting.

- Since the logistical arrangements for the extended 44th session will be made from UNESCO Headquarters, the Member States of the Committee will have to ensure that their representatives in Paris are available to come to UNESCO Headquarters to vote according to a schedule drawn up by the Secretariat following the English alphabetical order of the Member States of the Committee.

- A room with a ballot box and a polling booth will be provided by the Secretariat.

- Each member of the Committee will be given an envelope and a ballot paper on arrival in the voting room.

- Two tellers from among the Delegations of Committee members who can be physically present will be appointed by the Chairperson with the assistance of the Secretariat.

- The two tellers, together with members of the Secretariat, shall be present during the voting and counting of the ballots.

- The conduct of the vote will be in accordance with Rule 42 of the Rules of Procedure and, as is customary, in the presence of a representative of the Office of International Standards and Legal Affairs.

**Identification of representatives**

- Member States of the Committee, in the context of the designation of their representatives, may wish to designate at least one representative based in Paris in order to participate in the secret ballot.
The information related to these representatives must reach the Secretariat electronically before 12 July 2021 at the following address: n.valanchon@unesco.org

At the time of voting, the representative of the State member of the Committee will be asked to present a photo ID and to sign a voting list.

10.13 PUBLIC AND PRIVATE MEETINGS
As mentioned in section 8 above, the livestream will ensure that all participants as well as the general public can follow the debates of the World Heritage Committee. According to Rule 18 of the RoP, meetings of the Committee are held in public, unless the Committee decides otherwise. Public access via a broadcast has been the practice for all Committee sessions since 2012. Nonetheless, the Committee may also decide to hold private meetings (Rule 19). In this case, the Committee will ensure the confidentiality of such meetings by organizing online private meetings accessible only to participants authorized to attend.

11 WORLD HERITAGE YOUNG PROFESSIONALS FORUM
As an integral part of the extended 44th session of the World Heritage Committee, and in the framework of the UNESCO World Heritage Education Programme, the World Heritage Young Professionals Forum 2021 will be held online under the theme of ‘World Heritage and sustainable livelihoods’, from 5 July to 9 July 2021.

The overall aim of the Forum is to highlight the key opportunities and challenges of heritage management in the twenty-first century. The Forum will highlight the importance of heritage for societies and livelihoods, and explore its great potential to contribute towards social, economic, and environmental goals, ensuring sustainable livelihoods across various dimensions. Accompanied by local and international experts, and through a variety of presentations, roundtables, virtual visits etc., participants will gain in-depth knowledge of the processes and working practices of the 1972 World Heritage Convention Concerning the Protection of the World Cultural and Natural Heritage. At the end of the Forum, the young professionals will present outcomes of their work to the extended 44th session of the World Heritage Committee.

Detailed information and call for participation for the World Heritage Young Professionals Forum 2021 are available on the dedicated web page: https://www.44whcfuzhou2021.cn/en/youth.html

12 WORLD HERITAGE SITE MANAGERS FORUM
Considering that the World Heritage List includes over 1,000 properties and a global territory of over 276 million hectares under its protection, increased understanding of the World Heritage decision-making processes among Site Managers has become crucial in order to achieve more effective protection of the Outstanding Universal Value (OUV) of World Heritage properties. It will allow the Convention to fulfill its potential as a tool and catalyst for World Heritage protection and heritage protection in general. At the same time, future improvements to the World Heritage decision-making procedures must build on and respond to greater engagement of those dealing with World Heritage on a day-to-day basis. Stronger bridges
should be built between the procedural core of the World Heritage system and its outer segments – those in the field whose ongoing work to safeguard OUV constitutes the real expression of the Convention. In this context, the Host Country will continue the worthy initiative of the “World Heritage Site Managers Forum”, to unite representatives from World Heritage properties with those at the heart of World Heritage procedures.

The Site Managers Forum will be held online from 7 to 13 July 2021.

13.2 Fuzhou City

Fuzhou, as the capital city of Fujian Province, locates on the southeast coast of China. Fuzhou is a city with beautiful mountains, clear waters, beautiful ecological endowments, a long history, and a gathering of talents, for which it is known as a Land of Blessings.

Fuzhou has been endowed with a good ecological environment and rich natural resources. The optimal temperature and warm and humid weather in Fuzhou have led to the wide plantation of banyan trees which are evergreen with lush branches and leaves all year round. Legend has it that the prefect named Zhang Boyu advocated "organizing each household to plant banyan trees" during the Northern Song Dynasty, which made it possible that "Fuzhou city is full of green shades, and no umbrella is necessary in the summer", for which Fuzhou was named "the city of banyans". According to historical records, during the Five Dynasties Period, Wang Shenzhi the King of the Min Kingdom expanded the scope of the Fuzhou City, and enclosed the beautiful sceneries of the Yushan Hill, Wushan Hill and Pingshan Hill in the city to form a unique pattern of "hills in the city and the city surrounded by mountains", for which Fuzhou is also known as the "Three Hills (Sanshan)". Minjiang River, the largest river in Fujian Province and the mother river of Fuzhou City, runs through the city like a green belt. This is why the title of "Three Hills and One River" has become the main symbol of the city. Today, Fuzhou is one of the cities with the best air quality and the greenest environment in China. It is also the most representative city of hot springs in China, and the urban districts contain extremely rich hot spring resources for tourism development. "Ecological and Green" has become a gorgeous name card of Fuzhou City.

Fuzhou City has a long history and profound cultural heritage. It has a history of more than 2,200 years as a city and is a National Famous Historical and Cultural City with 25 major monuments protected at the national level. The Three Lanes and Seven Alleys Culture, Tanshi Mountain Culture, Shipbuilding Culture and Shoushan Stone Culture are the four cultural name cards of Fuzhou's history and culture. In particular, the Three Lanes and Seven Alleys has been awarded the honorary title of "China's Top Ten Famous Historical and Cultural Streets" where more than 200 ancient buildings are preserved here, covering a total area of 45 hectares and divided into three lanes, seven alleys and a central axis street with rigorous layout and ingenious craftsmanship, for which it is known as a rare "Ming and Qing architecture museum". This city was the place of birth for a number of historical figures such as Lin Zexu, Shen Baozhen, Yan Fu, Lin Juemin, Bing Xin, to name a few. The Tanshi Mountain Cultural Relics, with a history of more than 5,500 years, are the most well-preserved prehistoric ancient human cultural site in China with the largest number of material objects as evidence and have the unique and distinctive features of marine civilization. Mawei Shipbuilding site was founded in 1866 and is the cradle of modern Chinese navy. Shoushan Stone is known as one of the highly collectable "Four Major National Stones" in China. Shoushan stone carvings, bodiless lacquerware, and cork paintings are known as the "Three Wonders of Fuzhou". The ten item of State-level Intangible Cultural Heritage such as Min Opera, the art of storytelling, and Chichang Opera also have a long history. The rich and colorful traditional skills embody the nostalgia of Fuzhou and convey the memories of Fuzhou.
Fuzhou City boasts of rich tourism resources, a developed economy and a high degree of openness. Fuzhou is an excellent tourist city in China and has 52 scenic spots of Grade 3A and above. Fuzhou's natural resources and human resources complement each other and have created four major tourism brands of "Rich Mindu Culture Tour, Therapeutic Hot Spring Tour, Refreshing Landscape Tour, and Beautiful Coastline Tour", which have attracted many tourists from home and abroad. Fuzhou is also the well-known hometown of overseas Chinese with more than 4 million overseas folks from Fuzhou distributed in more than 160 countries and regions in the world. It is one of the first Chinese coastal port cities to open to the outside world, the gateway to the Maritime Silk Road, and one of the three areas of China (Fujian) Pilot Free Trade Zone.
