

Billy & Daddy are going snorkeling in the Great Barrier Reef, QLD Australia.

Billy is having a great time looking at all the colourful fish & coral.

Billy sees some grey, sad coral. It

Billy shows the coral to his Daddy. Daddy doesn't know what it has in common

Billy & Daddy got a rangers number from a billboard back at shore.

Daddy calls the number and arranges to meet the ranger.

The ranger introduces himself as

Daddy asks Pat why the coral

Pat explains rising temperatures ~~is~~ is one of many reasons coral can become bleached.

Billy asks what causes the rising temperatures.

Pat explains 'global warming'.

Daddy asks what we can do to help

11

13.

Pat helps Daddy & Billy construct a plan.

14.

Billy & Daddy set off to put their plan in action.

15.

Flicking off the lights can help to reduce the effects of global warming.

16

so can walking instead of driving.

17

planting trees can help too!

18

Billy & Dadday are happy because they helped the coral.

19

Every little bit helps!
