

The great barrier reef, bottle nosed dolphin and fish swimming around

Hot scorching sun, lots of pollution from factories and sewers into ocean

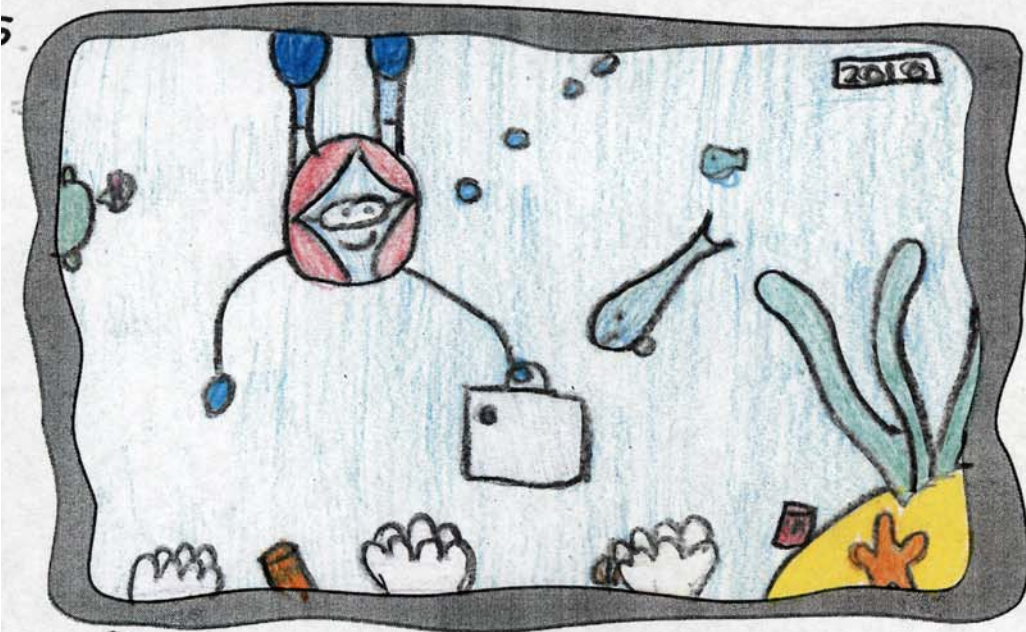

turtle eggs are hatching more females than males because of temperature

coral bleaches, fish disappear, no male turtle

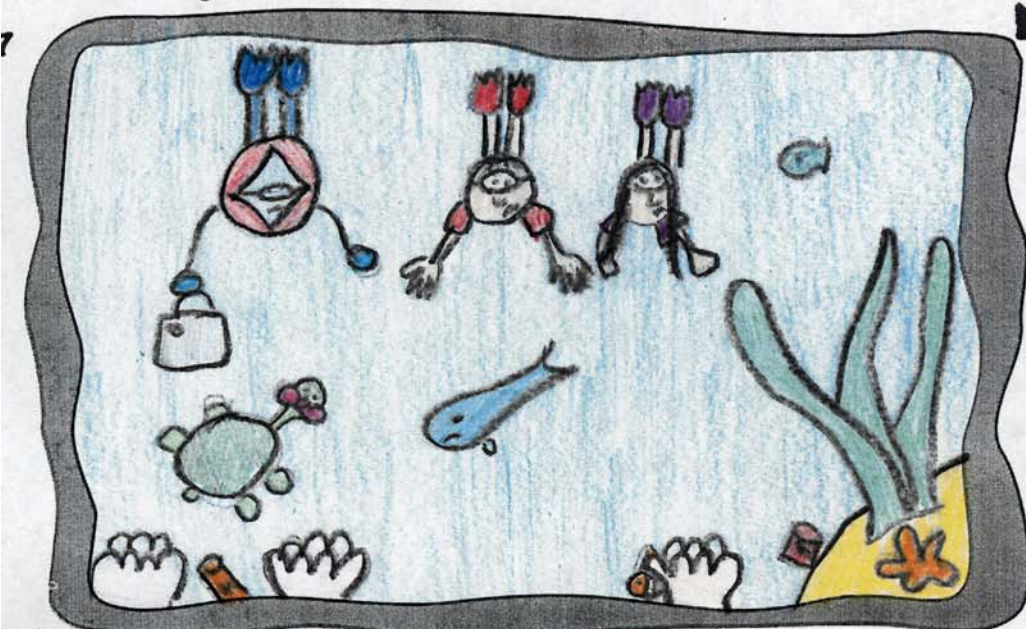

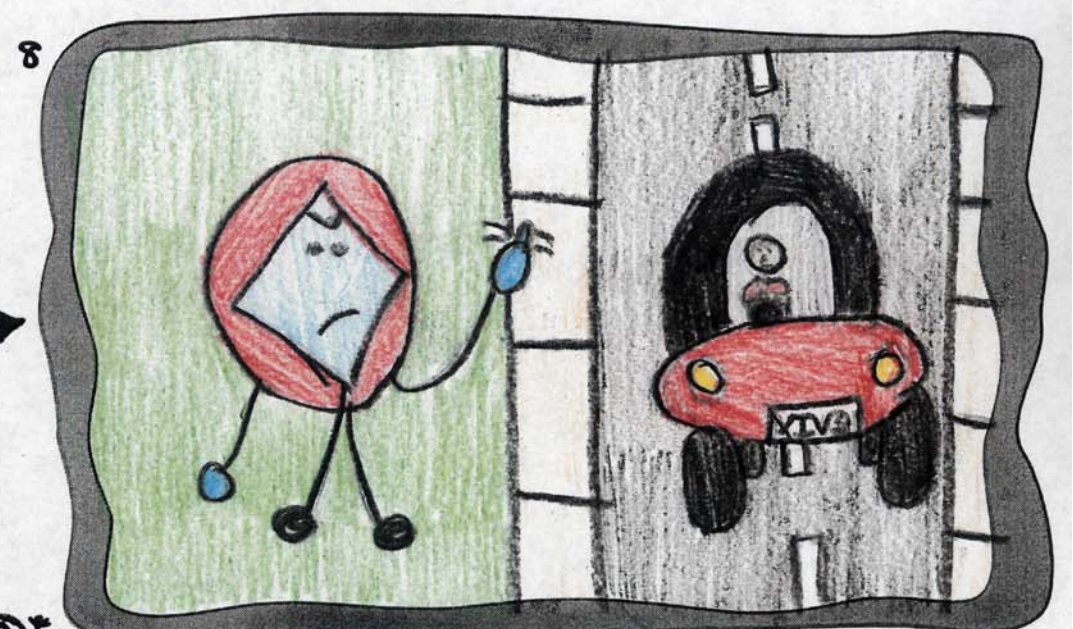

Patrimonito comes and notices changes in temperature and population.

Patrimonito tells the people what has happened.

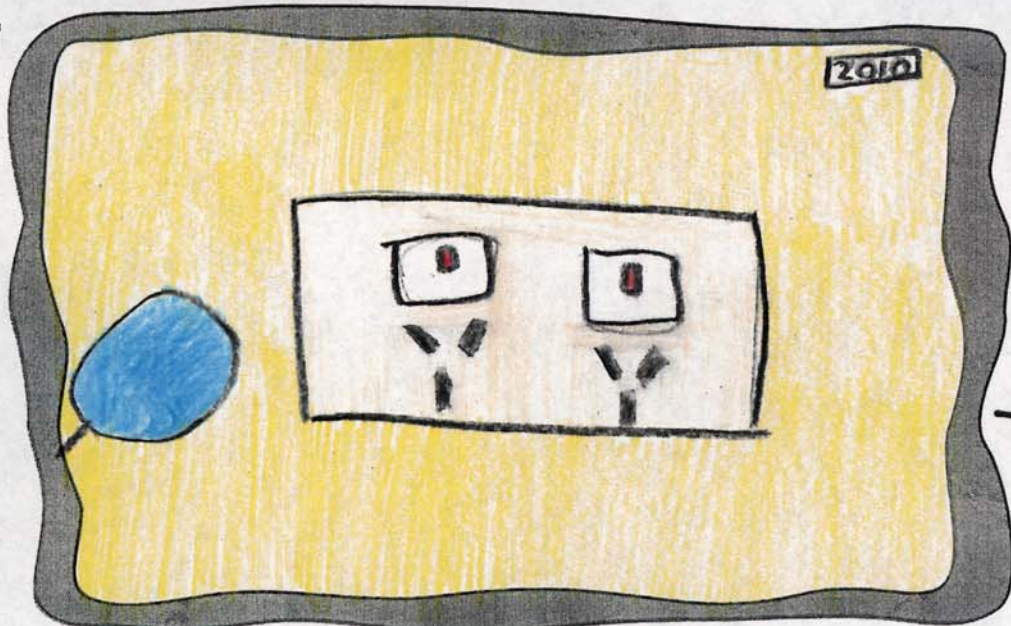

Patrimonito shows the impact it has had on the environment.

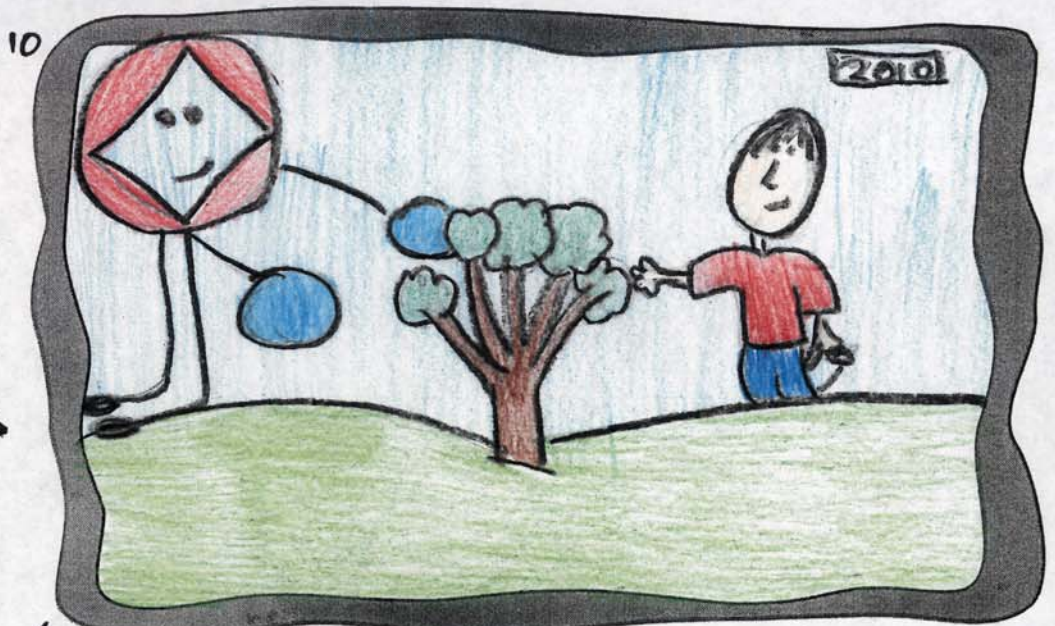

Patrimonito tells them to walk, not drive.

Patrimonito turns off powerpoints.

Plants trees.

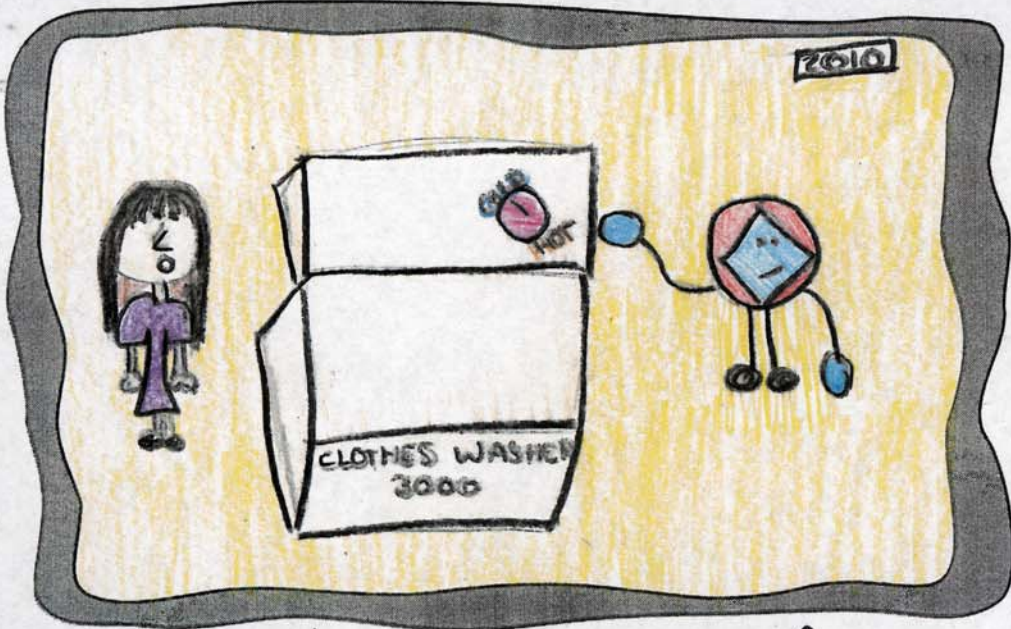

Patrimonito shows them how to put rubbish in the bin.

People use cars less and walk more.

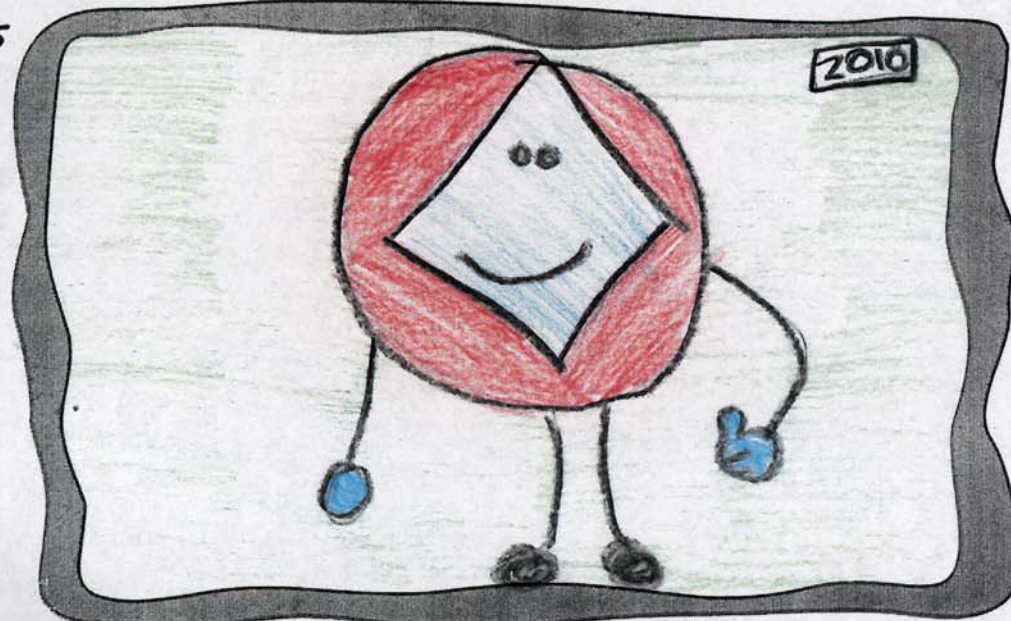

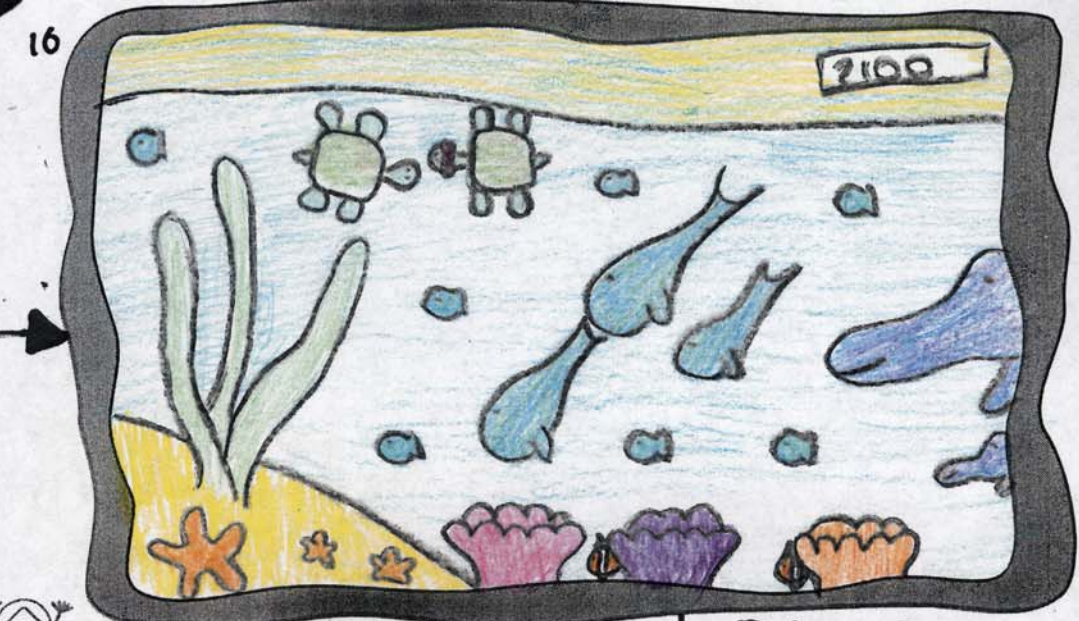

Uses cold water instead of hot when washing clothes.

People do right thing.

Patrimonite is happy. He leaves.

Clock goes forward. Fish start reappearing
