UNITED NATIONS EDUCATIONAL, SCIENTIFIC AND CULTURAL
ORGANIZATION

CONVENTION CONCERNING THE PROTECTION OF THE WORLD CULTURAL
AND NATURAL HERITAGE

WORLD HERITAGE COMMITTEE

Twenty-fourth session
Cairns, Australia
27 November – 2 December 2000

Item 10 of the Provisional Agenda: Information on Tentative Lists and Examination of nominations of cultural and natural properties to the List of World Heritage in Danger and the World Heritage List

SUMMARY

This document contains recommendations made by the Bureau at its twenty-fourth session (26 June-1 July 2000)* regarding the nominations of properties for inscription on the World Heritage List and records information submitted by States Parties subsequent to that meeting. Annex I contains a list of all properties on the Tentative Lists of States Parties, submitted in compliance with paragraphs 7 and 8 of the *Operational Guidelines*.

Decision required : In accordance with paragraphs 92 and 93 of the *Operational Guidelines*, the Committee is requested to examine the inscription of properties in, and the deletion of properties from, the List of World Heritage in Danger.

In accordance with paragraph 65 of the *Operational Guidelines*, the Committee is requested to examine the nominations for inscription on the World Heritage List on the basis of the Bureau's recommendations as well as additional information submitted by States Parties and evaluated by the Advisory Bodies. The Bureau takes its decisions in the following three categories:

- (a) properties which it inscribes on the World Heritage List;
- (b) properties which it decides not to inscribe on the List;
- (c) properties whose consideration is deferred.

* At its twenty-fourth session, the Bureau agreed that during the next extraordinary session of the Bureau there will be no presentation or discussion on nominations which have been deferred or referred back. Nominations would be sent directly to the World Heritage Committee for consideration (WHC-2000/CONF.204/2.) This was confirmed by the Special Session of the Bureau (Budapest, 2-4 October 2000).

(1) Information on Tentative Lists

In accordance with paragraphs 7 and 8 of the *Operational Guidelines*, which require that States Parties submit a tentative list of cultural properties, the Secretariat has verified that all the nominations submitted for examination in 2000 are listed on the tentative lists of the States concerned.

The tentative lists of all States Parties can be found in Annex I of this document.

(2) Examination of nominations of cultural and natural properties to the List of World Heritage in Danger

During its twenty-fourth session, the Bureau did not recommend that the Committee inscribe any properties on the List of World Heritage in Danger.

(3) Changes to names of properties inscribed on the World Heritage List

At the request of Canada, the Committee is asked to approve changes to the names of the following properties included on the World Heritage List:

Existing Name	Name change requested
Anthony Island / Île Anthony	SGaang Gwaii (Anthony Island) / SGaang Gwaii (Île Anthony) *
Parcs des Rocheuses canadiennes	Parcs des montagnes Rocheuses canadiennes **
Parc provincial des Dinosaur	Parc provincial Dinosaur ***
Parc national du Gros Morne	Parc national du Gros-Morne ***
Head-Smashed-In Buffalo Jump Complex / Secteur du précipice à bisons "Head-Smashed-In Buffalo Jump Complex"	Head-Smashed-In Buffalo Jump / Le précipice à bisons Head-Smashed-In *** and ***
L'Anse aux Meadows National Historic Park / Parc national historique de l'Anse aux Meadows	L'Anse aux Meadows National Historic Site / Lieu historique national de L'Anse aux Meadows ***
Lunenburg Old Town / Vieille ville de Lunenburg	Old Town Lunenburg / Le Vieux Lunenburg ***
Quebec (Historic area)	Historic District of Québec ***
Parc national de Wood Buffalo	Parc national Wood Buffalo ***

Changes requested to names of transboundary sites by Canada and the United States of America:

Tatshenshini-Alsek/Kluane National Park/Wrangell-St. Elias National Park and Reserve and Glacier Bay National Park	Kluane/Wrangell-St. Elias/Glacier Bay/Tatshenshini- Alsek ****
Tatshenshini-Alsek, Parc national de Kluane, Parc national et Réserve de Wrangell-St-Elias, et Parc national de la baie des Glaciers	Kluane/Wrangell-St. Elias/Glacier Bay/Tatshenshini Alsek ****
Glacier Waterton Parc international de la paix	Parc international de la paix Waterton-Glacier **

* Change to the native name

** Translation error at the time of inscription

*** Official name in Canada

**** Components listed in their order of inscription, suppressing administrative status

Following discussions at the twenty-third session of the World Heritage Committee in Marrakesh, the German authorities have requested the following name change:

Existing Name	Name change requested
Roman Monuments, Cathedral and Liebfrauen-Church in Trier	Roman Monuments, Cathedral St. Peter and Liebfrauen Church in Trier

(4) Examination of nominations of cultural, natural, and mixed properties to the World Heritage List

Concerning natural heritage, via letter of 23 August 2000, Brazil has requested that examination of **Fernando de Noronha Marine National Park** be postponed. Italy, by letter of 19 June 2000, has withdrawn the nomination of **National Park of Abruzzo**. By letter of 4 October 2000, the authorities of the Russian Federation withdrew the nomination of the **Lena River Delta**.

Concerning cultural heritage, by letter dated 25 September 2000, Croatia has requested that examination of the

nomination for **Ancient Pula with the Amphitheatre** be postponed.

On the recommendation of the Committee's Task Force on the Implementation of the Convention, and of the Bureau at its twenty-fourth session, a single summary table records the recommendation of the Bureau for inscription (**I**), referral (**R**), deferral (**D**), and rejection (**N**). If no opinion is available due to a delayed mission, or for other reasons, the column is left blank. The last column contains the recommendation of the Advisory Body ("AB") to the Committee concerning sites that were referred back to the State Party by the Bureau.

**Summary Table of Recommendations
by the 24th Session of the Bureau of the World Heritage Committee, 26 June – 1 July 2000
and Subsequent Recommendations of the Advisory Body for Referred sites**

Id No.	Proposed World Heritage Property	State Party	Rec. of Bureau	Rec. of AB

Extensions				
777 Bis	The Monasteries of Haghpata and Sanahin	Armenia	I	
707 Bis	The Potala Palace and the Jokhang Temple Monastery	China	I	
813 Bis	Classical Gardens of Suzhou	China	I	

I* : Advisory Body recommends inscription, provided that the supplementary information requested is found adequate.

The above list shows that the 24th session of the Bureau recommended that the Committee inscribe **46 properties**, and that it referred back an additional **21 properties** for additional information. The Committee may wish to consider inscribing 18 of these referred sites. This would

be a potential addition to the World Heritage List of **64 properties**, in addition to 5 extensions to properties already on the List. In 1999, the Committee inscribed 48 properties, which was at that time a record number.

A. NATURAL PROPERTIES

A.1 Properties which the Bureau recommended for inscription on the World Heritage List

Property	Ischigualasto Provincial Park/ Talampaya National Park
Id. N°	966
State Party	Argentina
Criteria	N (i)

The Bureau recommended the Committee to inscribe Ischigualasto Provincial Park and Talampaya National Park on the World Heritage List under natural *criterion (i)*.

The site contains a complete sequence of fossiliferous continental sediments representing the entire Triassic Period (45 million years) of geological history. No other place in the world has a fossil record comparable to that of Ischigualasto-Talampaya which reveals the evolution of vertebrate life and the nature of palaeoenvironments in the Triassic Period.

The Bureau suggested that the State Party, along with the relevant Provincial authorities, proceeds as soon as possible with the establishment of a single co-operative

management regime, including completion of an integrated management plan and provision of adequate human and financial resources to implement effective management.

Information concerning the management of the site was received by the World Heritage Centre on 19 September 2000 and transmitted to IUCN for its consideration.

Property	Noel Kempff Mercado National Park
Id. N°	967
State Party	Bolivia
Criteria	N (ii) (iv)

The Bureau recommended to the Committee that the Noel Kempff Mercado National Park be inscribed on the World Heritage List under natural *criteria (ii) and (iv)*. The site contains an array of habitat types including evergreen rainforests, palm forests, cerrado, swamps, savannahs, gallery forests, and semi-deciduous dry forests. The cerrado habitats found on the Huanchaca Meseta have been isolated for millions of years providing an ideal living laboratory for the study of the evolution of these ecosystems. The site also contains a high diversity of plant and animal species including viable populations of many globally threatened large vertebrates.

The Bureau recommended that the State Party consider exploring opportunities for transboundary co-operation with Brazil to enhance management and protection of this area.

Property	Jaú National Park
Id. N°	998
State Party	Brazil
Criteria	N (ii) (iv)

The Bureau recommended to the Committee that Jaú National Park be inscribed on the World Heritage List under natural *criteria (ii) and (iv)*. The site protects a large and representative sample of the Amazon Central Plain Forest including the entire hydrological basin of the Jaú River. The site is important for biodiversity, protecting a large portion of the biodiversity associated with the Blackwater River system – one of the three types of lymnological systems associated with the Amazon basin. The site has a sufficient size to allow the maintenance of significant on-going ecological and biological processes, such as blow downs, changes in the river flood dynamics and natural burns, thus providing unique opportunities to study their effect on biodiversity in natural ecosystems.

The Bureau encouraged the State Party: to support the implementation of the project for a biological corridor (including JNP and Mamirauá and Amanã State Sustainable Development Reserves); to acknowledge the efforts of Vitória Amazônica Foundation for the protection and management of this site, and to provide additional technical, human and financial resources to consolidate the management of JNP.

Property	Pantanal Conservation Complex
Id. N°	999
State Party	Brazil
Criteria	N (ii), (iii), (iv)

The Bureau recommended to the Committee that the Pantanal Conservation Complex be inscribed on the World Heritage List under natural *criteria (ii), (iii) and (iv)*. The site is representative of the Greater Pantanal region. It demonstrates the on-going ecological and biological processes that occur in the Pantanal. The association of the Amolar Mountains with the dominant freshwater wetland ecosystems confers to the site a uniquely important ecological gradient as well as a dramatic landscape. The site plays a key role in the dispersion of nutrients to the entire basin and is the most important reserve for maintaining fish stocks in the Pantanal. The area preserves habitats representative of the Pantanal that contain a number of globally threatened species. The area is a refuge for fauna as it is the only area of the Pantanal that remains partially inundated during the dry season.

The Bureau noted the support of the Interamerican Development Bank (IDB) and The Ecotrópica Foundation for the conservation of the Pantanal Conservation Complex and encouraged the State Party to provide technical and financial support to finalise and implement the integrated management plan and enhance the management capacity of this area.

Property	Isole Eolie (Aeolian Islands)
Id. N°	908
State Party	Italy
Criteria	N (i)

The Bureau recalled that at its last session it had not recommended that this property be inscribed under cultural criteria and had referred the nomination under natural criteria back to the State Party to allow it to provide additional information.

In the light of the additional information provided and IUCN's favourable assessment of it, the Bureau recommended to the Committee that the Aeolian Islands be inscribed on the World Heritage List under natural *criterion (i)*. The volcanic landforms of the site represent classic features in the continuing study of volcanology worldwide. With their scientific study from at least the 18th Century, the islands have provided two of the types of eruptions (Vulcanian and Strombolian) to volcanology and geology textbooks and so have featured prominently in the education of all geoscientists for over 200 years. They continue to provide a rich field for volcanological studies of on-going geological processes in the development of landforms.

The Bureau noted that the State Party has adequately responded to the issues raised at its twenty-third session. The Bureau commended the State Party for further strengthening the nomination by simplifying the boundaries of the nominated area and creating a clear surrounding buffer zone. The Bureau also commended the

State Party for establishing a co-ordinated management structure and initiating a separate management plan for the nominated area. The Bureau encouraged the State Party to expedite the completion of the separate management plan and the process of legalizing the nominated area boundaries.

Additional information concerning the nomination was received by the World Heritage Centre 5 September 2000 and transmitted to IUCN for its consideration.

Property	Kinabalu Park
Id. N°	1012
State Party	Malaysia
Criteria	N(ii), (iv)

The Bureau recommended to the Committee that Kinabalu Park be inscribed on the World Heritage list under natural *criteria (ii) and (iv)*. The site has a diverse biota and high endemism. The altitudinal and climatic gradient from tropical forest to alpine conditions combine with precipitous topography, diverse geology and frequent climate oscillations to provide conditions ideal for the development of new species. The Park contains high biodiversity with representatives from more than half the families of all flowering plants. The majority of Borneo's mammals, birds, amphibians and invertebrates (many threatened and vulnerable) occur in the Park.

The Bureau encouraged the State Party to minimise impacts on the Park, as described by the IUCN evaluation, by carefully regulating activities in proximity to its borders.

Information concerning protective legislation and the boundaries of the park was received by the World Heritage Centre 20 September 2000 and transmitted to IUCN for its consideration.

Property	Central Suriname Nature Reserve
Id. N°	1017
State Party	Suriname
Criteria	N (ii), (iv)

The Bureau recommended to the Committee that the Central Suriname Nature Reserve be inscribed on the World Heritage List under natural *criteria (ii) and (iv)*. The site encompasses significant vertical relief, topography and soil conditions that have resulted in a variety of ecosystems. This ecosystem variation allows organisms within these ecosystems to move in response to disturbance, adapt to change, and maintain gene flow between populations. The site's size, undisturbed state (in general a rare condition in Amazonian forest parks) and protection of the entire Coppename watershed will allow long-term functioning of the ecosystem. The site contains a high diversity of plant and animal species, many of which are endemic to the Guyana Shield and are globally threatened. This site would be the first Suriname site on the World Heritage List.

The Delegate of Zimbabwe noted that currently the area is not inhabited and asked whether IUCN had any view on the long term perspectives for such a region. IUCN informed the Bureau that the site is a pristine area, however there are potential threats from gold mining.

The Bureau encouraged the completion of the management plan for the Reserve and commended the State Party and its partners for establishing the US\$ 18 Million trust fund to support protection of the site, which could serve as a model for other sites.

A.2 Properties which the Bureau referred back to the State Parties for additional information

Property	Greater Blue Mountains Area
Id. N°	917
State Party	Australia
Criteria	

The Bureau recalled that at its twenty-third session (July 1999), it had recommended deferral for the natural part of this mixed nomination and invited the Australian authorities to consider the possibility of a serial nomination to cover the full range of values of eucalyptus ecosystems. It had also noted that although nationally important, it is not considered on its own to be a significant representation of eucalyptus-dominated vegetation on a global scale. The Bureau at the time did not recommend inscription according to cultural values.

IUCN informed the Bureau that a thorough evaluation of the additional material presented by Australia took place and that the main feature of the nomination is the eucalyptus vegetation. The additional material did not address the question of a serial nomination to cover the full range of values of eucalyptus ecosystems. The Delegate of Australia informed the Bureau that out of 700 Eucalypt species, 696 are represented in Australia and that 91 are present at the site, which covers 1 million ha.

The Bureau debated extensively on the need to recognize eucalyptus ecosystems on a global scale, on serial nominations and on the links between universality and representativity.

The Chairperson informed the Bureau that he had received a letter dated 30 June 2000 with new information from the State Party which would commence a process for the identification, evaluation and potential listing under new national heritage legislation of a series of areas representing the eucalyptus theme.

IUCN welcomed the willingness of the State Party to consider a serial listing under context of the State Party's new legislation and asked for more specific details concerning the new information the State Party has committed itself to provide on the make up of such a serial listing.

The Bureau decided to refer the nomination to the twenty-fourth extraordinary session of the World Heritage Bureau. Additional information concerning the nomination was

received by the World Heritage Centre 15 September 2000 and transmitted to IUCN for its consideration.

Property	Gunung Mulu National Park
Id. N°	1013
State Party	Malaysia
Criteria	

The Bureau noted that Gunung Mulu National Park is considered by IUCN to meet natural *criteria (i), (ii), (iii) and (iv)*. However, it decided that the nomination be referred back to the State Party for clarification of the following issues: (a) Progress with the gazetting process to incorporate the three extensions referred to in the nomination; (b) action to strengthen management capacity in the Park; (c) recognition of the need to minimise impacts of logging activities around the Park and the effect of clear-felling on cave swiftlet and bat populations; and (d) assurance that the new management plan addresses issues relating to local peoples' use of and benefits from the Park as well as the new contractual arrangements for management of the Park. The Bureau furthermore drew the attention of the State Party to the important buffer and corridor function of the adjacent protected forests in the Labi Hills in Brunei and noted that this country had not yet signed the Convention.

Additional information concerning the issues raised by the Bureau was received by the World Heritage Centre 20 September 2000 and transmitted to IUCN for its consideration.

Property	The Cape Floristic Region - Phase 1: Cape Peninsula Protected Natural Environment
Id. N°	1007
State Party	South Africa
Criteria	

The Bureau noted that Phase 1 of the Cape Floristic Region (CFR) is considered to meet natural *criteria (ii) and (iv)*. The Cape Floristic Region is of outstanding value for representing ongoing ecological and biological processes associated with the evolution of the unique Fynbos biome. The Bureau decided however, that the nomination be referred back to the State Party with the request that they expedite the work to ensure that the core area of the Cape Peninsula Protected Natural Environment is under one effective and consolidated management regime. The Bureau also encouraged the State Party to complete the preparatory work associated with Phase 2 of the CFR nomination and to submit this when the boundaries of the complementary areas within the CFR are finalised. It was noted that the area is also a UNESCO Biosphere Reserve.

The Observer of South Africa informed the Bureau that his Government concurs with the suggestions made and that the requirements concerning the consolidated management of the site will hopefully be met before the twenty-fourth extraordinary session.

At the time of preparation of this document, no further information had been received by the World Heritage Centre.

Property	The High Coast
Id. N°	898
State Party	Sweden
Criteria	

The Bureau noted that the nomination was deferred by the twenty-third extraordinary session of the Bureau (November 1999). Better documentation of the values of the marine portion of the area to provide a more complete comparative analysis including, the relation to the proposed Quark World Heritage nomination and integrity issues, was requested. IUCN suggested that the Swedish High Coast be considered in 2001 and that further information be provided in relation to the potential for a transboundary nomination between Sweden and Finland.

The Delegate of Finland pointed out that the nomination needs to be considered on its own, as the Quark area requires consideration at the national level by both Finland and Sweden. After an extensive discussion, the Bureau decided that - as the technical information had been provided by the State Party - the site be considered by the twenty-fourth extraordinary session of the Bureau.

Additional information was provided by the Swedish authorities via letter dated 27 September 2000 concerning a proposal for the management programme and management committee for the High Coast. This material was transmitted to IUCN for review.

A.3 Renomination of a property inscribed on the World Heritage List to include an additional criterion

Property	Ha Long Bay
Id. N°	672 bis
State Party	Viet Nam
Criteria	N (i)(iii)

The Bureau recommended to the Committee that Ha Long Bay be inscribed on the World Heritage List under natural *criterion (i)* in addition to the site's existing 1994 listing under *criterion (iii)*. The site is the most extensive and best known example of marine invaded tower karst and one of the most important areas of fengcong and fenglin karst in the world. The size of the area provides sufficient integrity for these large scale geomorphic processes to operate unhindered.

The Bureau commended the Ha Long Bay Management Department on the improvement in management of the renominated area. The Bureau encouraged the State Party to expedite a programme to increase visitor understanding of cave and karst geomorphological processes and to improve staff capacity in these areas.

A.4 Extension of natural properties inscribed on the World Heritage List recommended by the Bureau

Property	Plitvice Lakes National Park
Id. N°	98 bis
State Party	Croatia
Criteria	

The Bureau recommended the Committee to approve the extension of Plitvice Lakes National Park site by the nominated area of 10,020 ha as this would contribute to the integrity of the site. The Bureau encouraged the State Party to prepare a new management plan for the enlarged site.

Property	Caves of the Aggtelek Karst and Slovak Karst (Extension to include the Dobšinská Ice Cave (Slovakia))
Id. N°	N725-858 bis
State Party	Hungary / Slovakia
Criteria	

The Bureau recommended to the Committee that Dobšinská Ice Cave be incorporated as part of the Caves of the Aggtelek Karst and Slovak Karst World Heritage site. Although this ice cave is a relatively small (6km²) and specialised feature, it does add variety to the existing site. It would not merit inscription on its own but its features relate to and complement the Caves of Aggtelek Karst and Slovak Karst. The Bureau encouraged both State Parties to regulate activities in the adjacent watershed which may affect the integrity of the Caves of the Aggtelek Karst and Slovak Karst World Heritage site.

Additional information concerning the protection of the site was provided by both State Parties in letters received 11 and 14 September 2000 and transmitted to IUCN for its consideration.

A.5 Property which the Bureau did not recommend for inscription on the World Heritage List

Property	Kopacki rit
Id. N°	964
State Party	Croatia
Criteria	

IUCN informed the Bureau that Kopacki rit is an important site at the European scale and very significant within the Danube Basin as a whole. Nonetheless it does not meet the criteria set by the World Heritage Convention. Moreover, a number of important integrity questions remain unresolved.

The Delegate of Hungary informed the Bureau that the site borders a protected area in his country, which may be considered for nomination and suggested to defer the present nomination to allow transboundary consultations.

After a debate during which the comparative analysis undertaken was highlighted, the Bureau decided not to recommend the inscription of this site. The Bureau, however, commended the State Party for conservation work undertaken in recent years.

B. MIXED PROPERTIES

B.1 Property which the Bureau recommended for inscription on the World Heritage List

Property	Drakensberg Park alternatively known as oKhahlamba Park
Id. N°	985
State Party	South Africa
Criteria	N(iii)(iv) C (i)(iii)

The Bureau recommended to the Committee that the Drakensberg Park, alternatively known as the oKhahlamba Park, be inscribed on the World Heritage List under *natural criteria (iii) and (iv)*. The site has exceptional natural beauty with soaring basaltic buttresses, incisive dramatic cutbacks and golden sandstone ramparts. Rolling high altitude grasslands, the pristine steep-sided river valleys and rocky gorges also contribute to the beauty of the site. The site's diversity of habitats protects a high level of endemic and globally threatened species, especially of birds and plants.

The Bureau encouraged the State Party to consider the following: the overall integrated Master Plan for the site be completed as quickly as possible and that it give priority to the management of fire and invasive species as well as visitor management; the stated intention to work towards establishing additional conservation areas to give continuity to the site along the escarpment be pursued; efforts to establish the Drakensberg-Maloti Transfrontier Protected Area be strengthened, and consideration be given to a transboundary extension to the World Heritage site, should Lesotho become a State Party to the World Heritage Convention; and that efforts to establish a Special Case Area Plan covering the Drakensberg and adjoining areas be continued.

The Bureau recommended that this property be inscribed on the World Heritage List on the basis of *cultural criteria (i) and (iii)*:

Criterion (i): The rock art of the Drakensberg is the largest and most concentrated group of rock paintings in Africa South of the Sahara and is outstanding both in quality and diversity of subject.

Criterion (iii): The San people lived in the mountainous Drakensberg area for more than four millennia, leaving behind them a corpus of outstanding rock art which throws much light on their way of life and their beliefs.

B.2 Properties which the Bureau referred back to the State Parties for additional information

Property	Mount Qincheng and the Dujiangyan Irrigation System China
Id. N°	1001
State Party	China
Criteria	

The Bureau noted that Mt Qincheng is considered to meet *natural criteria (ii) and (iv)*. However, it decided that the nomination be referred back to the State Party for clarification of the following matters relating to the integrity of the site: the management regime in the buffer zone; the completion of the Overall Plan for the management of Longxi-Hongkou Nature Reserve, and a commitment made to its early implementation; the inclusion within the plan of arrangements to deal with long term funding, the development of adequate trained staff, satisfactory controls over tourism development and activities, and programmes for monitoring, research, education and public awareness. The Bureau encouraged the State Party to consider: (a) the merits of enlarging the site to include other Giant Panda areas, such as Wolong Nature Reserve physically linked to the site; and (b) initiating a wider review of the potential which exists in China for other natural World Heritage sites with consideration for a workshop focusing on sites of biodiversity value.

Concerning cultural values, the Bureau recommended that this property be inscribed on the World Heritage List on the basis of *cultural criteria (ii),(iv), and (vi)*:

Criterion (ii): The Dujiangyan Irrigation System, begun in the 2nd century BC, is a major landmark in the development of water management and technology, and is still discharging its functions perfectly.

Criterion (iv): The immense advances in science and technology achieved in ancient China are graphically illustrated by the Dujiangyan Irrigation System.

Criterion (vi): The Temples of Mount Qincheng are closely associated with the foundation of Taoism, one of the most influential religions of Asia over a long period of history.

Additional information concerning the nomination was received by the World Heritage Centre on 22 September 2000 and transmitted to IUCN and ICOMOS for their consideration.

Property	Curonian Spit
Id. N°	994
State Party	Lithuania/Russian Federation
Criteria	

IUCN informed the Bureau that the Curonian Spit is an important site at the European scale and very significant within the Baltic Region as a whole. However, it was not considered to meet the criteria for inscription on the World Heritage List as a natural property. The Bureau decided not to recommend inscription under natural criteria. Concerning the site as a possible cultural landscape, IUCN informed the Bureau that the integrity of the site's natural values needs to be addressed, particularly in the areas of improved transfrontier co-operation, as well as better planning for increased tourism and securing sustainable resources. The Bureau commended the States Parties for the co-operation they have achieved to date in improving the conservation of the site.

The Bureau decided that the Curonian Spit be referred back to allow the States Parties to take active steps towards collaborative management mechanisms and to harmonize the management plans. The site could fulfil *cultural criterion (v)* as an outstanding example of a landscape of sand dunes that is under constant threat from natural forces. After disastrous human interventions that menaced its survival, the Spit was reclaimed through massive protection and stabilization works, begun in the 19th century, still continue to the present day.

The Observer of Lithuania pointed out that the necessary documents would be provided in time and noted the excellent co-operation between the two States Parties. She informed the Bureau that the site is a fragile ecosystem and was damaged by the storm last year. She stated that, if inscribed, this would be the first cultural landscape site from her country.

At the time of the preparation of this document, no further information concerning the nomination had been received by the World Heritage Centre.

B.3 Properties to be Examined by the Extraordinary Bureau

Property	Shey Phoksundo National Park
Id. N°	992
State Party	Nepal
Criteria	

See Report of the 24th extraordinary session of the Bureau, **WHC-2000/CONF.204/4**.

C. CULTURAL HERITAGE

C.1 Properties which the Bureau recommended for inscription on the World Heritage List

Property	Jesuit Block and Estancias of Córdoba
Id. N°	995
State Party	Argentina
Criteria	C (ii) (iv)

The Bureau recommended to the Committee that the property be inscribed on the World Heritage List on the basis of *criteria (ii) and (iv)*:

Criterion (ii): The Jesuit buildings and ensembles of Córdoba and the estancias are exceptional examples of the fusion of European and indigenous values and cultures during a seminal period in South America.

Criterion (iv): The religious, social, and economic experiment carried out in South America for over 150 years by the Society of Jesus produced a unique form of material expression, which is illustrated by the Jesuit buildings and ensembles of Córdoba and the estancias.

Property	The Monastery of Geghard and the Upper Azat Valley
Id. N°	960
State Party	Armenia
Criteria	C (ii)

The Bureau recommended to the Committee that this property be inscribed on the World Heritage List on the basis of *criterion (ii)*:

Criterion (ii): The Monastery of Geghard, with its remarkable rock-cut churches and tombs, is an exceptionally well preserved and complete example of medieval Armenian monastic architecture and decorative art, with many innovative features which had a profound influence on subsequent developments in the region.

Property	The Wachau Cultural Landscape (the Wachau Region including the Abbeys of Melk and Göttweig and the Historic Centre of Krems)
Id. N°	970
State Party	Austria
Criteria	C (ii) (iv)

The Bureau recommended to the Committee that this property be inscribed on the World Heritage List on the basis of *criteria (ii) and (iv)*:

Criterion (ii): The Wachau is an outstanding example of a riverine landscape bordered by mountains in which material evidence of its long historical

evolution has survived to a remarkable degree.

Criterion (iv): The architecture, the human settlements, and the agricultural use of the land in the Wachau vividly illustrate a basically medieval landscape that has evolved organically and harmoniously over time.

Furthermore, the Bureau recommended that the State Party establish a Coordinating Commission for the management of this site. The Observer of Austria informed the Bureau that the Coordinating Commission has been established and that a written report will be sent to the Secretariat.

Property	The Walled City of Baku with the Shirvanshah's Palace and Maiden Tower
Id. N°	958
State Party	Azerbaijan
Criteria	C (iv)

The Bureau recommended to the Committee that the site be inscribed on the World Heritage List, subject to the State Party giving assurances of the further development of the conservation management and monitoring structures for the City before 1 October 2000. The State Party's response should be examined by the Bureau at its twenty-fourth extraordinary session. The Bureau should then be able to recommend inscription on the basis of *criterion (iv)*:

Criterion (iv): The Walled City of Baku represents an outstanding and rare example of a historic urban ensemble and architecture with influence from Zoroastrian, Sassanian, Arabic, Persian, Shirvani, Ottoman, and Russian cultures.

On 26 September 2000, the World Heritage Centre received a letter from the Azerbaijani authorities containing an "Obligation for maintenance, promotion and carrying of the Icheri Sheher State Historic Architectural Preserve". The information was transmitted to ICOMOS for its consideration.

Property	The Mir Castle Complex
Id. N°	625
State Party	Belarus
Criteria	C (ii) (iv)

The Bureau recommended to the Committee that this property be inscribed on the World Heritage List on the basis of *criteria (ii) and (iv)*.

Criterion (ii): Mir Castle is an exceptional example of a central European castle, reflecting in its design and layout successive cultural influences (Gothic,

Renaissance and Baroque) that blend harmoniously to create an impressive monument to the history of this region.

Criterion (iv): The region in which Mir Castle stands has a long history of political and cultural confrontation and coalescence, which is graphically reflected in the form and appearance of the ensemble.

Property	Historic Centre of Brugge
Id. N°	996
State Party	Belgium
Criteria	C (ii) (iv) (vi)

The Bureau recommended to the Committee that the site be inscribed on the World Heritage List on the basis of *criteria (ii), (iv), and (vi)*:

Criterion (ii): The Historic Town of Brugge is testimony, over a long period, of a considerable exchange of influences on the development of architecture, particularly in brick Gothic, as well as favouring innovative artistic influences in the development of medieval painting, being the birthplace of the school of the Flemish Primitives.

Criterion (iv): The Historic Town of Brugge is an outstanding example of an architectural ensemble, illustrating significant stages in the commercial and cultural fields in medieval Europe, of which the public, social, and religious institutions are a living testimony.

Criterion (vi): The Town of Brugge has been the birthplace of the Flemish Primitives and a centre of patronage and development of painting in the Middle Ages with artists such as Jan van Eyck and Hans Memling.

Property	The Major Town Houses of the Architect Victor Horta
Id. N°	1005
State Party	Belgium
Criteria	C (i) (ii) (iv)

The Bureau recommended to the Committee that this property be inscribed on the World Heritage List on the basis of *criteria (i), (ii) and (iv)*:

Criterion (i): The "Town Houses" of Victor Horta in Brussels are works of human creative genius, representing the highest expression of the influential *Art Nouveau* style in art and architecture.

Criterion (ii): The appearance of *Art Nouveau* in the closing years of the 19th century marked a decisive stage in the evolution of architecture, making possible subsequent developments, and the "Town Houses" of Victor Horta in Brussels bear exceptional witness to its radical new approach.

Criterion (iv): The "Town Houses" of Victor Horta

are outstanding examples of *Art Nouveau* architecture, brilliantly illustrating the transition from the 19th to the 20th century in art, thought, and society.

Property	Archaeological Site of the Neolithic Flint Mines at Spiennes, Mons
Id. N°	1006
State Party	Belgium
Criteria	C (i) (iii) (iv)

The Bureau recommended to the Committee that this property be inscribed on the World Heritage List on the basis of *criteria (i), (iii) and (iv)*:

Criterion (i): The Neolithic flint mines at Spiennes provide exceptional testimony to early human inventiveness and application.

Criterion (iii): The arrival of the Neolithic cultures marked a major milestone in human cultural and technological development, which is vividly illustrated by the vast complex of ancient flint mines at Spiennes.

Criterion (iv): The flint mines at Spiennes are outstanding examples of the Neolithic mining of flint, which marked a seminal stage of human technological and cultural progress.

Property	Notre-Dame Cathedral in Tournai
Id. N°	1009
State Party	Belgium
Criteria	C (ii) (iv)

The Bureau recommended to the Committee that this property be inscribed on the World Heritage List on the basis of *criteria (ii) and (iv)*:

Criterion (ii): The Cathedral of Notre-Dame in Tournai bears witness to a considerable exchange of influence between the architecture of the Ile de France, the Rhineland, and Normandy during the short period at the beginning of the 12th century that preceded the flowering of Gothic architecture.

Criterion (iv): In its imposing dimensions, the Cathedral of Notre-Dame in Tournai is an outstanding example of the great edifices of the school of the north of the Seine, precursors of the vastness of the Gothic cathedrals.

Property	Tiwanaku: Spiritual and Political Centre of the Tiwanaku Culture
Id. N°	567rev
State Party	Bolivia
Criteria	C (iii) (iv)

The Bureau recommended to the Committee that this property be inscribed on the World Heritage List on the basis of *criteria (iii) and (iv)*:

Criterion (iii): The ruins of Tiwanaku bear striking witness to the power of the empire that played a leading role in the development of the Andean Prehispanic civilisation.

Criterion (iv): The buildings of Tiwanaku are exceptional examples of the ceremonial and public architecture and art of one of the most important manifestations of the civilisations of the Andean region.

The Bureau requested the State Party to submit a progress report on the implementation of the Master Plan to the Bureau at its twenty-fifth session in June 2001. The State Party requested that the name of the property be changed to “*Tiwanaku: Spiritual and Political Centre of the Tiwanaku Culture*”.

Property	Churches of Chiloé
Id. N°	971
State Party	Chile
Criteria	C (ii) (iii)

The Bureau recommended to the Committee that this property be inscribed on the World Heritage List on the basis of *criteria (ii) and (iii)*:

Criterion (ii): The Churches of Chiloé are outstanding examples of the successful fusion of European and indigenous cultural traditions to produce a unique form of wooden architecture.

Criterion (iii): The *mestizo* culture resulting from Jesuit missionary activities in the 17th and 18th centuries has survived intact in the Chiloé archipelago, and achieves its highest expression in the outstanding wooden churches.

Property	Ancient Villages in Southern Anhui - Xidi and Hongcun
Id. N°	1002
State Party	China
Criteria	C (iii) (iv) (v)

The Bureau recommended to the Committee that this property be inscribed on the World Heritage List on the basis of *criteria (iii), (iv), and (v)*:

Criterion (iii): The villages of Xidi and Hongcun are graphic illustrations of a type of human settlement created during a feudal period and based on a prosperous trading economy.

Criterion (iv): In their buildings and their street patterns, the two villages of southern Anhui reflect the socio-economic structure of a long-lived settled period of Chinese history.

Criterion (v): The traditional non-urban settlements of China, which have to a very large extent disappeared during the past century, are exceptionally well preserved in the villages of Xidi and Hongcun.

ICOMOS recommended that the State Party consider the nomination of other well-protected vernacular villages in China, emphasizing the importance of such architectural ensembles.

Property	Longmen Grottoes
Id. N°	1003
State Party	China
Criteria	C (i) (ii) (iii)

The Bureau recommended to the Committee that this property be inscribed on the World Heritage List on the basis of *criteria (i), (ii), and (iii)*:

Criterion (i): The sculptures of the Longmen Grottoes are an outstanding manifestation of human artistic creativity.

Criterion (ii): The Longmen Grottoes illustrate the perfection of a long-established art form that was to play a highly significant role in the cultural evolution of this region of Asia.

Criterion (iii): The high cultural level and sophisticated society of Tang Dynasty China is encapsulated in the exceptional stone carvings of the Longmen Grottoes.

Property	Imperial Tombs of the Ming and Qing Dynasties
Id. N°	1004
State Party	China
Criteria	C (i) (ii) (iii) (iv) and (vi)

The Bureau recommended to the Committee that this property be inscribed on the World Heritage List on the basis of *criteria (i), (ii), (iii), (iv) and (vi)*:

Criterion (i): The harmonious integration of remarkable architectural groups in a natural environment chosen to meet the criteria of geomancy (*Fengshui*) makes the Ming and Qing Imperial Tombs masterpieces of human creative genius.

Criteria (ii), (iii) and (iv): The imperial mausolea are outstanding testimony to a cultural and architectural

tradition that for over five hundred years dominated this part of the world; by reason of their integration into the natural environment, they make up a unique ensemble of cultural landscapes.

Criterion (vi): The Ming and Qing Tombs are dazzling illustrations of the beliefs, worldview, and geomantic theories of *Fengshui* prevalent in feudal China. They have served as burial edifices for illustrious personages and as the theatre for major events that have marked the history of China.

ICOMOS recommended a possible extension to cover other well-protected tombs of the Ming Dynasty in China.

Property	Archaeological Landscape of the First Coffee Plantations in the Southeast of Cuba
Id. N°	1008
State Party	Cuba
Criteria	C (iii) (iv)

The Bureau recommended to the Committee the inscription of the property on the basis of *criteria (iii) and (iv)*:

Criterion (iii): The remains of the 19th- and early 20th-century coffee plantations in eastern Cuba are unique and eloquent testimony to a form of agricultural exploitation of virgin forest, the traces of which have disappeared elsewhere in the world.

Criterion (iv): The production of coffee in eastern Cuba during the 19th and early 20th centuries resulted in the creation of a unique cultural landscape, illustrating a significant stage in the development of this form of agriculture.

In a letter to the World Heritage Centre received 27 June 2000, the State Party agreed with the recommendation of ICOMOS that the name of the property be changed to “*Archaeological Landscape of the First Coffee Plantations in the Southeast of Cuba*”.

Property	The Holy Trinity Column in Olomouc
Id. N°	859 Rev
State Party	Czech Republic
Criteria	C (i) (iv)

The Bureau recommended to the Committee that this property be inscribed on the World Heritage List on the basis of *criteria (i) and (iv)*:

Criterion (i): The Olomouc Holy Trinity Column is one of the most exceptional examples of the apogee of central European Baroque artistic expression.

Criterion (iv): The Holy Trinity Column constituted a unique material demonstration of religious faith in central Europe during the Baroque period, and the Olomouc example represents its most outstanding expression.

Furthermore, the Bureau recommended that the name of the site be changed to “*The Holy Trinity Column in Olomouc*”. In a letter received by the World Heritage Centre 11 September 2000, the Czech authorities accepted this recommended change.

Property	Kronborg Castle
Id. N°	696 Rev
State Party	Denmark
Criteria	C (iv)

The Bureau recommended to the Committee that this property be inscribed on the World Heritage List on the basis of *criteria (iv)*:

Criterion (iv): Kronborg Castle is an outstanding example of the Renaissance castle, and one that played a highly significant role in the history of this region of northern Europe.

Property	Gartenreich Dessau-Wörlitz (The Garden Kingdom of Dessau-Wörlitz, cultural landscape of Dessau-Wörlitz)
Id. N°	534 Rev
State Party	Germany
Criteria	C (ii) (iv)

The Bureau recommended to the Committee that this property be inscribed on the World Heritage List on the basis of *criteria (ii) and (iv)*:

Criterion (ii): The Garden Kingdom of Dessau-Wörlitz is an outstanding example of the application of the philosophical principles of the Age of the Enlightenment to the design of a landscape that integrates art, education, and economy in a harmonious whole.

Criterion (iv): The 18th century was a seminal period for landscape design, of which the Garden Kingdom of Dessau-Wörlitz is an exceptional and wide-ranging illustration.

Furthermore, the Bureau requested the State Party to confirm that the 107 road will be re-routed within three years from inscription and that an environmental study of the motorway will be carried out with the minimum delay.

On 27 September 2000, the World Heritage Centre received a letter from the authorities in Sachsen-Anhalt pledging that the necessary steps would be undertaken. The information was transmitted to ICOMOS for its consideration.

Property	Monastic Island of Reichenau in Lake Constance (Klosterinsel Reichenau im Bodensee)
Id. N°	974
State Party	Germany
Criteria	C (iii) (iv) (vi)

The Bureau recommended to the Committee that this property be inscribed on the World Heritage List on the basis of *criteria (iii), (iv) and (vi)*:

Criterion (iii): The remains of the Reichenau foundation bear outstanding witness to the religious and cultural role of a great Benedictine monastery in the early Middle Ages.

Criterion (iv): The Churches on the island of Reichenau retain remarkable elements of several stages of construction and thus offer outstanding examples of monastic architecture in Central Europe from the 9th to the 11th century.

Criterion (vi): The Monastery of Reichenau was a highly significant artistic centre of great significance to the history of art in Europe in the 10th and 11th centuries, as is superbly illustrated by its monumental wall paintings and its illuminations.

Property	City of Verona
Id. N°	797 Rev
State Party	Italy
Criteria	C (ii) (iv)

The Bureau recommended to the Committee that this property be inscribed on the World Heritage List on the basis of *criteria (ii) and (iv)*:

Criterion (ii): In its urban structure and its architecture, Verona is an outstanding example of a town that has developed progressively and uninterruptedly over two thousand years, incorporating artistic elements of the highest quality from each succeeding period.

Criterion (iv): Verona represents in an exceptional way the concept of the fortified town at several seminal stages of European history.

Property	Assisi, the Basilica of San Francesco and other Franciscan sites
Id. N°	990
State Party	Italy
Criteria	C (i) (ii) (iii) (iv) (vi)

The Bureau recommended to the Committee that the site be inscribed on the World Heritage List on the basis of *criteria (i), (ii), (iii), (iv) and (vi)*:

Criterion (i): Assisi represents an ensemble of masterpieces of human creative genius such as the

Basilica of San Francesco, which have made deep fundamental reference for art history in Europe and in the world.

Criterion (ii): The interchange of artistic and spiritual message of the Franciscan Order has significantly contributed to developments in art and architecture in the world.

Criterion (iii): Assisi represents a unique example of continuity of a city-sanctuary within its environmental setting from its Umbrian-Roman and medieval origins to the present, represented in the cultural landscape, the religious ensembles, systems of communication, and traditional land-use.

Criterion (iv): The Basilica of San Francesco is an outstanding example of a type of architectural ensemble that has significantly influenced the development of art and architecture.

Criterion (vi): Being the birthplace of the Franciscan Order, Assisi has from the Middle Ages been closely associated with the cult and diffusion of the Franciscan movement in the world, focusing on the universal message of peace and tolerance even to other religions or beliefs.

Furthermore the Bureau recommended that the name of the nominated property be changed to "*Assisi, the Basilica of San Francesco and other Franciscan sites*".

Property	Gusuku Sites and Related Properties of the Kingdom of Ryukyu
Id. N°	972
State Party	Japan
Criteria	C (ii) (iii) and (vi)

The Bureau recommended to the Committee that this property be inscribed on the World Heritage List on the basis of *criteria (ii), (iii), and (vi)*:

Criterion (ii): For several centuries the Ryukyu Islands served as a centre of economic and cultural interchange between south-east Asia, China, Korea, and Japan, and this is vividly demonstrated by the surviving monuments.

Criterion (iii): The culture of the Ryukyuan Kingdom evolved and flourished in a special political and economic environment, which gave its culture a unique quality.

Criterion (vi): The Ryukyu sacred sites constitute an exceptional example of an indigenous form of nature and ancestor worship that has survived intact into the modern age alongside other established world religions.

Property	Rietveld Schröderhuis (Rietveld Schröder House)
Id. N°	965
State Party	Netherlands
Criteria	C (i) (ii) (vi)

The Bureau recommended to the Committee that this property be inscribed on the World Heritage List on the basis of *criteria (i), (ii) and (vi)*:

Criterion (i): The Rietveld Schröderhuis in Utrecht is an icon of the modern movement in architecture and an outstanding expression of human creative genius in its purity of ideas and concepts as developed by the *De Stijl* movement.

Criterion (ii): With its radical approach to design and the use of space, the Rietveld Schröderhuis occupies a seminal position in the development of architecture in the modern age.

Criterion (vi): The Rietveld Schröderhuis is a manifesto of the ideas and concepts of the *De Stijl*, one of the most influential movements in the Modern Movement in art and architecture.

Property	Historical Centre of the City of Arequipa
Id. N°	1016
State Party	Peru
Criteria	C (i) (iv)

The Bureau recommended to the Committee that the site be inscribed on the World Heritage List on the basis of *criteria (i) and (iv)*:

Criterion (i): The ornamented architecture in the Historic Centre of Arequipa represents a masterpiece of the creative integration of European and native characteristics, crucial for the cultural expression of the entire region.

Criterion (iv): The Historic Centre of Arequipa is an outstanding example of a colonial settlement, challenged by the natural conditions, the indigenous influences, the process of conquest and evangelisation, as well as the spectacular nature of its setting.

Property	Kyongju Historic Areas
Id. N°	976
State Party	Republic of Korea
Criteria	C (ii) and (iii)

The Bureau recommended to the Committee that this property be inscribed on the World Heritage List on the basis of *criteria (ii) and (iii)*:

Criterion (ii): The Kyongju Historic Areas contain a number of sites and monuments of exceptional

significance in the development of Buddhist and secular architecture in Korea.

Criterion (iii): The Korean peninsula was ruled for nearly a thousand years by the Shilla Dynasty, and the sites and monuments in and around Kyongju (including the Holy Mountain of Namsan) bear outstanding testimony to its cultural achievements.

Property	Koch'ang, Hwasun, and Kanghwa Dolmen Sites
Id. N°	977
State Party	Republic of Korea
Criteria	C (iii)

The Bureau recommended to the Committee that this property be inscribed on the World Heritage List on the basis of *criteria (iii)*:

Criterion (iii): The global prehistoric technological and social phenomenon that resulted in the appearance in the 2nd and 3rd millennia BCE of funerary and ritual monuments constructed of large stones (the "Megalithic Culture") is nowhere more vividly illustrated than in the dolmen cemeteries of Koch'ang, Hwasun, and Kangwha.

Property	Historic and Architectural Complex of the Kazan Kremlin
Id. N°	980
State Party	Russian Federation
Criteria	C (ii) (iii) (iv)

The Bureau recommended that this property be inscribed on the World Heritage List on the basis of *criteria (ii), (iii) and (iv)*:

Criterion (ii): The Kazan Kremlin complex represents exceptional testimony of historical continuity and cultural diversity over a long period of time, resulting in an important interchange of values generated by the different cultures.

Criterion (iii): The historic citadel represents an exceptional testimony of the Khanate period and is the only surviving Tatar fortress with traces of the original town-planning conception.

Criterion (iv): The site and its key monuments represent an outstanding example of a synthesis of Tatar and Russian influences in architecture, integrating different cultures (Bulgar, Golden Horde, Tatar, Italian, and Russian), as well as showing the impact of Islam and Christianity.

Property	The Ensemble of Ferrapontov Monastery
Id. N°	982
State Party	Russian Federation
Criteria	C (i) (iv)

The Bureau recommended to the Committee that this property be inscribed on the World Heritage List on the basis of *criteria (i) and (iv)*:

Criterion (i): The wall paintings of Dionisy in the Cathedral of the Nativity of the Virgin at Ferrapontov Monastery are the highest expression of Russian mural art in the 15th-16th centuries.

Criterion (iv): The complex of Ferrapontov Monastery is the purest and most complete example of an Orthodox monastic community from the 15th-17th centuries, a crucial period in the cultural and spiritual development of Russia.

Property	Bardejov Town Conservation Reserve
Id. N°	973
State Party	Slovakia
Criteria	C (iii) (iv)

The Bureau recommended to the Committee that this property be inscribed on the World Heritage List on the basis of *criteria (iii) and (iv)*:

Criterion (iii): The fortified town of Bardejov provides exceptionally well preserved evidence of the economic and social structure of trading towns in medieval Central Europe.

Criterion (iv): The plan, buildings, and fortifications of Bardejov illustrate the urban complex that developed in Central Europe in the Middle Ages at major points along the great trade routes of the period.

The State Party agreed to the recommendation of ICOMOS that the nomination be expanded to include the Jewish Quarter of Bardejov. This additional information was received on 18 September 2000 and passed to ICOMOS for its evaluation.

Property	The Archaeological Ensemble of Tàrraco
Id. N°	875 Rev
State Party	Spain
Criteria	C (ii) (iii)

The Bureau recommended to the Committee that this property be inscribed on the World Heritage List on the basis of *criteria (ii) and (iii)*:

Criterion (ii): The Roman remains of Tàrraco are of exceptional importance in the development of Roman urban planning and design and served as the model for provincial capitals elsewhere in the Roman world.

Criterion (iii): Tàrraco provides eloquent and unparalleled testimony to a significant stage in the history of the Mediterranean lands in antiquity.

Property	The Roman Walls of Lugo
Id. N°	987
State Party	Spain
Criteria	C (iv)

The Bureau recommended to the Committee that this property be inscribed on the World Heritage List on the basis of *criteria (iv)*:

Criterion (iv): The Roman walls of Lugo are the finest surviving example of late Roman military fortifications.

Property	The Palmeral of Elche: A Cultural Landscape Inherited from Al-Andalus
Id. N°	930
State Party	Spain
Criteria	C (ii) (v)

The Bureau recommended to the Committee that this property be inscribed on the World Heritage List on the basis of *criteria (ii) and (v)*:

Criterion (ii): The Palmeral (palm groves) of Elche represent a remarkable example of the transference of a characteristic landscape from one culture and continent to another, in this case from North Africa to Europe.

Criterion (v): The palm grove or garden is a typical feature of the North African landscape which was brought to Europe during the Islamic occupation of much of the Iberian peninsula and has survived to the present day. The ancient irrigation system, which is still functioning, is of special interest.

Property	Södra Ölands Odlingslandskap (The Agricultural Landscape of Southern Öland)
Id. N°	968
State Party	Sweden
Criteria	C (iv) (v)

The Bureau recommended to the Committee that this property be inscribed on the World Heritage List on the basis of *criteria (iv) and (v)*:

Criterion (iv): The landscape of Southern Öland takes its contemporary form from its long cultural history, adapting to the physical constraints of the geology and topography

Criterion (v): Södra Öland is an outstanding example of human settlement, making the optimum use of diverse landscape types on a single island.

Property	Three Castles, Defensive Wall and Ramparts of the Market-town of Bellinzone
Id. N°	884
State Party	Switzerland
Criteria	

Upon the proposal of the Chairperson, at its twenty-fourth session, the Bureau recommended the Committee to inscribe the site on the World Heritage List. It requested ICOMOS to indicate the criteria for inscription to the twenty-fourth extraordinary session of the Bureau.

ICOMOS, in its re-evaluation of the site, has proposed that the site be inscribed on the World Heritage List on the basis of *criteria (iv)*:

Criterion (iv): The fortified ensemble of Bellinzone is an outstanding example of a late medieval defensive structure guarding a key strategic Alpine pass.

Property	The Blaenavon Industrial Landscape
Id. N°	984
State Party	United Kingdom
Criteria	C (iii) (iv)

The Bureau recommended to the Committee that this property be inscribed on the World Heritage List on the basis of *criteria (iii) and (iv)*:

Criterion (iii): The Blaenavon landscape constitutes an exceptional illustration in material form of the social and economic structure of 19th century industry.

Criterion (iv): The components of the Blaenavon Industrial Landscape together make up an outstanding and remarkably complete example of a 19th century industrial landscape.

Property	The Stone Town of Zanzibar
Id. N°	173 Rev
State Party	United Republic of Tanzania
Criteria	C (ii) (iii) and (vi)

The Bureau recommended to the Committee that this site be inscribed on the World Heritage List on the basis of *criteria (ii), (iii) and (vi)*:

Criterion (ii): The Stone Town of Zanzibar is an outstanding material manifestation of cultural fusion and harmonization.

Criterion (iii): For many centuries there was intense seaborne trading activity between Asia and Africa, and this is illustrated in an exceptional manner by the architecture and urban structure of the Stone Town.

Criterion (vi): Zanzibar has great symbolic importance in the suppression of slavery, since it was one of the main slave-trading ports in East Africa and also the base from which its opponents such as David Livingstone conducted their campaign.

It was underlined that the site, a symbol of Swahili civilisation and traditions, had the appropriate legal protection. However, it is currently threatened by mass tourism.

C.2 Properties which the Bureau referred back to the State Parties for additional information

Property	The Cathedral and Churches of Echmiatsin and the Archaeological Site of Zvartnots
Id. N°	1011
State Party	Armenia
Criteria	

The Bureau decided that the nomination be referred back to the State Party, asking for reconsideration of the project of the open-air Sanctuary. In the event of this information being supplied before 1 October 2000 and found acceptable, the Bureau recommended to the Committee that the property should be inscribed on the World Heritage List on the basis of *criteria (ii) and (iii)*:

Criterion (ii): The developments in ecclesiastical architecture represented in an outstanding manner by the churches at Echmiatsin and the archaeological site of Zvartnots had a profound influence on church design over a wide region.

Criterion (iii): The churches at Echmiatsin and the archaeological site of Zvartnots vividly depict both the spirituality and the innovatory artistic achievement of the Armenian Church from its foundation.

Furthermore, the Bureau recommended that the name of the nominated property should be changed to “*The Cathedral and Churches of Echmiatsin and the Archaeological Site of Zvartnots.*”

On 26 September 2000, the World Heritage Centre received a letter from the Armenian authorities indicating that the proposed sanctuary would be constructed outside of the territory of the Mother Church. The letter was transmitted to ICOMOS for its consideration.

Property	The Old City of Mostar
Id. N°	946
State Party	Bosnia and Herzegovina
Criteria	

In the light of new information provided on the implementation of the management plan of the site, the Bureau decided that the nomination be referred back and asked ICOMOS to undertake a second mission to the nominated property and to prepare a recommendation for

the twenty-fourth extraordinary session of the Bureau.

Property	Cathedral of St James in Šibenik
Id. N°	963
State Party	Croatia
Criteria	

The Bureau decided that the nomination be referred back to the State Party requesting a detailed plan of the perimeter of the buffer zone. In the event that the requested information is provided by 1 October 2000 and found to be satisfactory, the Bureau could recommend to the Committee that this property be inscribed on the World Heritage List on the basis of *criteria (i), (ii) and (iv)*:

Criterion (i): The structural characteristics of the Cathedral of St James in Šibenik make it a unique and outstanding building in which Gothic and Renaissance forms have been successfully blended.

Criterion (ii): The Cathedral of St James is the fruitful outcome of considerable interchanges of influences between the three culturally different regions of Northern Italy, Dalmatia, and Tuscany in the 15th and 16th centuries. These interchanges created the conditions for unique and outstanding solutions to the technical and structural problems of constructing the cathedral vaulting and dome.

Criterion (iv): The Cathedral of St James in Šibenik is a unique testimony to the transition from the Gothic to the Renaissance period in church architecture.

On 20 September 2000, the World Heritage Centre received a letter from the Croatian authorities containing a plan of the buffer zone. The information was transmitted to ICOMOS for its consideration.

Property	The Loire Valley between Maine and Sully-sur-Loire
Id. N°	933
State Party	France
Criteria	

The Committee at its twenty-third session decided to defer the examination of this nomination to the twenty-fourth session of the Bureau. In response, the French authorities submitted complementary documentation on this nomination that was examined by the Bureau at its twenty-fourth session.

Following a closed session of the Bureau, the Chairperson informed the plenary that the Bureau and the advisory bodies had agreed to request the State Party to exclude the nuclear power plant from the nominated area and therefore to submit a proposal with revised boundaries, in order to exclude the nuclear power plant, and to limit its visual or other impact on the area proposed for inscription. This revision should be submitted by 1 October 2000. The Chairperson concluded by stating that all participants had reiterated that they were convinced of the outstanding

universal value of the site and that it was necessary to come to a satisfactory solution for its inscription on the World Heritage List.

A revised boundary map and additional information was received by the World Heritage Centre from the State Party on 20 September 2000 and transmitted to ICOMOS for its consideration.

Property	Sopianae Palaeochristian Cemetery Site, Pécs
Id. N°	853 Rev
State Party	Hungary
Criteria	

The Bureau decided that the nomination be referred back to enable ICOMOS to evaluate the revised nomination and to present a recommendation to the twenty-fourth extraordinary session of the Bureau. At the request of the State Party, this site, formerly **Cultural stratification in the Historic Centre of the City of Pécs**, was changed to *Sopianae Palaeochristian Cemetery Site, Pécs*.

Property	Ruins of León Viejo
Id. N°	613 rev
State Party	Nicaragua
Criteria	

ICOMOS informed the Bureau that it had recently received additional documentation that should be formally examined. The advisory body was confident, however, that this documentation answered all outstanding questions. The Bureau decided to refer the examination of this nomination to enable ICOMOS to prepare a revised recommendation to be presented to the twenty-fourth extraordinary session of the Bureau. Based on this revised recommendation, the Bureau could recommend to the Committee that this property be inscribed on the World Heritage List on the basis of *criteria (iii) and (iv)*:

Criterion (iii): The ruined town of León Viejo provides exceptional testimony to the material culture of one of the earliest Spanish colonial settlements.

Criterion (iv): The form and nature of early Spanish settlement in the New World, adapting European architectural and planning concepts to the material potential of another region, are uniquely preserved in the archaeological site of León Viejo.

The State Party underlined that all the required actions are currently being addressed.

Property	Cultural Ensemble of Shisr, Khor Rori, al-Balid Archaeological Sites and the Wadi Dawkha Frankincense Park in the Dhofar Region
Id. N°	1010
State Party	Oman
Criteria	

The Bureau decided that this nomination be referred back to the State Party, requesting the preparation and presentation of a management plan. In the event that the plan is prepared by 1 October 2000 and found to be in conformity with the requirement of the Operational Guidelines, ICOMOS recommended that the property be inscribed on the World Heritage List on the basis of *criteria (iii) and (iv)*.

Criterion (iii): The group of archaeological sites in Oman represent the production and distribution of Frankincense, one of the most important luxury articles of trade in the Old World in antiquity.

Criterion (iv): The Oasis of Shisr and the entrepôts of Khor Rori and Al-Balid are outstanding examples of medieval fortified settlements in the Persian Gulf region.

In a letter to the Centre received 27 September 2000, the Omani authorities requested two additional weeks in order to present the information requested. At the time of preparation of this document, no further information had been received.

Property	The Bolgar Historical and Architectural Complex
Id. N°	981
State Party	Russian Federation
Criteria	

The Bureau decided that this nomination be referred back to the State Party, requesting more detailed information about the reconstruction of the Great Minaret, confirmation that the industrial project has been definitively abandoned, and a more detailed comparative analysis. In the event that the requested information is provided by 1 October 2000 and found to be satisfactory, the Bureau recommended that this site be inscribed on the World Heritage List on the basis of *criterion (iii)*:

Criterion (iii): Bolgar represents unique testimony to the history and culture of the Tatars and to the empires that they founded, in particular the empire of the Golden Horde.

At the time of the preparation of this document, no further information had been received by the World Heritage Centre.

Property	Island of Saint-Louis
Id. N°	956
State Party	Senegal
Criteria	

The Bureau recommended that this nomination be referred back to the State Party in order to provide, before 15 September 2000, guarantees for the establishment of on-site conservation structures with appropriate expertise and resources for its long-term conservation.

The Bureau recommended to enlarge the nominated area, so as to include the whole island of Saint-Louis.

Criterion (ii): The historic town of Saint Louis exhibits an important exchange of values and influences on the development of education and culture, architecture, craftsmanship, and services in a large part of West Africa.

Criterion (iv): The Island of Saint-Louis, a former capital of West Africa, is an outstanding example of a colonial city, characterized by its particular natural setting, and it illustrates the development of colonial government in this region.

In a letter received by the World Heritage Centre 13 September 2000, the Senegalese authorities announced several new steps to safeguard the conservation area, including an enlargement of the nominated area to include the entire island of Saint Louis. This information has been transmitted to ICOMOS for its consideration.

Property	The Catalan Romanesque Cultural Landscape of the Vall de Boí
Id. N°	988
State Party	Spain
Criteria	

The Bureau decided that the nomination be referred back to enable ICOMOS to evaluate the revised nomination and to present a recommendation to the twenty-fourth extraordinary session of the Bureau. By letter received 20 June 2000, the State Party requested that the site, formerly **The Catalan Romanesque Cultural Landscape of the Vall de Boí**, be changed to *the Catalan Romanesque Complex of the Vall de Boí*.

Property	Archaeological Site of the Sierra de Atapuerca, in the Municipalities of Atapuerca and Ibeas de Juarros (Burgos)
Id. N°	989
State Party	Spain
Criteria	

The Bureau decided that this nomination be referred back to the State Party, requesting the definition of a suitable buffer zone and the preparation of a tourism development plan. In the event that this information is provided before 1

October 2000 and found to be satisfactory, the Bureau recommended that this property be inscribed on the World Heritage List on the basis of *criteria (iii) and (v)*:

Criterion (iii): The earliest and most abundant evidence of humankind in Europe is to be found in the caves of the Sierra de Atapuerca.

Criterion (v): The fossil remains in the Sierra de Atapuerca constitute an exceptional reserve of information about the physical nature and the way of life of the earliest human communities in Europe.

New information on protection measures for the site was received from the State Party on 29 September 2000 and transmitted to ICOMOS for its consideration.

Property	The Historic Town of St George and Related Fortifications, Bermuda
Id. N°	983
State Party	United Kingdom
Criteria	

ICOMOS reported that a draft management plan had been received and that it conformed to the overall requirements of the Operational Guidelines. The Bureau decided that this nomination be referred back to the State Party. In the event that the final management plan is provided by 1 October 2000 and evaluated positively by ICOMOS, the Bureau recommended that the property be inscribed on the World Heritage List on the basis of *criteria (iv) and (vi)*:

Criterion (iv): The Historic Town of St George with its related Fortifications is an outstanding example of a continuously occupied, fortified, colonial town dating from the early 17th century and the oldest English town in the New World.

Criterion (vi): St George represents the beginning of the English colonisation of the New World, a step in the European settlement of North America that has resulted in developments of outstanding universal significance.

The Bureau recommended that the name of the nominated property be revised to “*The Historic Town of St George and Related Fortifications, Bermuda.*”

On 4 September 2000, the State Party submitted the final management plan simultaneously to the Centre and to ICOMOS for its consideration.

Property	Historic Centre of Shakhrisayabz
Id. N°	885
State Party	Uzbekistan
Criteria	

The Bureau, at its twenty-third session in June 1999, decided that the nomination should be referred. The State Party was requested to furnish precise details of the area proposed for inscription, the limits of the buffer zone and the regulations governing its use, and further material

relating to the merits of Shakhrisayabz in comparison with other central Asian cities.

At its extraordinary session in Marrakesh, the Bureau recommended the approval by the Committee of international assistance to support the national effort to improve the nomination of the Historic Centre of Shakhrisayabz.

The Secretariat informed the Bureau in July 2000 that following a training assistance request approved by the Committee, a series of missions by expert trainers had been programmed, the first of which took place in April 2000. A representative of the State Party, the expert trainer who undertook the mission in April and the Secretariat met in Paris in July to review the first draft revision of the nomination file and new maps. The final revised version of the nomination file and the new maps, which took into account the expert advice, were submitted to the Secretariat on 1 September 2000 and transmitted to ICOMOS.

The Centre and ICOMOS decided that the mission of the ICOMOS-endorsed expert, initially foreseen in July-August to finalize the nomination file, would be postponed to October 2000, to review, instead, measures to implement the management plan of Shakhrisayabz.

Property	Ciudad Universitaria de Caracas
Id. N°	986
State Party	Venezuela
Criteria	

The Bureau decided to refer this nomination to give ICOMOS the time necessary to evaluate the additional documentation already received and, if needed, to request further information. In the event that satisfactory information on the open questions of management co-ordination and the Botanical Garden is received, the Bureau would recommend that this property be inscribed on the World Heritage List on the basis of *criteria (i) and (iv)*:

Criterion (i): The Ciudad Universitaria de Caracas is a masterpiece of modern city planning, architecture and art, created by the Venezuelan architect, Carlos Raúl Villanueva and a group of distinguished avant-garde artists.

Criterion (iv): The Ciudad Universitaria de Caracas is an outstanding example of the coherent realization of the urban, architectural, and artistic ideals of the early 20th century. It constitutes an ingenious interpretation of the concepts and spaces of colonial traditions and an example of an open and ventilated solution, appropriate for its tropical environment.

On 14 September 2000, the World Heritage Centre received information concerning management issues and the Botanical Garden of the University. The documentation was transmitted to ICOMOS for evaluation.

C.3 Extension of cultural properties inscribed on the World Heritage List

Property	The Monasteries of Haghpat and Sanahin
Id. N°	777 Bis
State Party	Armenia
Criteria	C(ii) (iv)

The twenty-fourth session of the Bureau recommended that the Committee approve the extension of the inscribed property.

Property	The Potala Palace and the Jokhang Temple Monastery
Id. N°	707 Bis
State Party	China
Criteria	C (i) (iv) (vi)

The twenty-fourth session of the Bureau recommended to the Committee the extension of the inscribed property of the Potala Palace to include the Jokhang Temple Monastery.

Property	The Classical Gardens of Suzhou
Id. N°	813 Bis
State Party	China
Criteria	C (i) (ii) (iii) (iv) (v)

The twenty-fourth session of the Bureau recommended to the Committee the extension of the inscribed property of the Classical Gardens of Suzhou to include the *Canglang Pavilion*, the *Lion Forest Garden*, the *Garden of Cultivation*, the *Couple's Garden Retreat*, and the *Retreat and Reflection Garden*.

C.4 Cultural Properties which the Bureau did not recommend for inscription on the World Heritage List

Property	The Abava Valley
Id. N°	Latvia
State Party	997
Criteria	

The twenty-fourth session of the Bureau noted that the site is not of outstanding universal value and therefore it did not recommend that this property for inscription on the World Heritage List.

World Heritage Tentative Lists

SUMMARY

At its seventeenth session in Cartagena, December 1993, the Committee expressed its concern on the small number of tentative lists that meet the requirements as stipulated in the Operational Guidelines, paragraphs 7 and 8, and confirmed the importance of these lists for planning purposes, comparative analyses of nominations and for facilitating the undertaking of the global and thematic studies. These lists constitute also an inventory of the properties situated within the territory of each State Party, and which it considers suitable for inclusion on the World Heritage List. The Committee also confirmed that the tentative lists are **mandatory** for cultural properties which the State Party intends to nominate for inscription on the World Heritage List during the coming five to ten years.

Therefore, the Committee invited the States Parties, which had not yet done so, to submit tentative lists in accordance with the Operational Guidelines, with the understanding that "preparatory assistance should be provided if necessary and requested by the State Party concerned". The Committee also decided that "as of 1 October 1995, only nominations of *cultural properties that are included in tentative lists which meet all requirements as stipulated in the Operational Guidelines would be processed.*"

Out of 160 countries which have ratified the Convention, 112 States parties have submitted Tentative Lists in accordance with the criteria specified in the Operational Guidelines.

Individual Tentative Lists received by the World Heritage Centre from these State Parties are attached, in English alphabetical order.
