Item 7 of the Provisional Agenda: Examination of nominations of natural and cultural properties to the World Heritage List and the List of World Heritage in Danger

SUMMARY

The Bureau examines the nominations and makes its recommendations thereon to the Committee under the following four categories:

- a) properties which it recommends for inscription without reservation;
- b) properties which it does not recommend for inscription;
- c) properties that need to be referred back to the nominating State for further information or documentation;
- d) properties whose examination should be deferred on the ground that a more in-depth assessment or study is needed.

It is usual practice that the working document on nominations submits proposals for inscription of properties in the same alphabetical order (English) and employing the same name as ICOMOS or IUCN. In some cases the original names of certain properties have been modified, following the evaluation missions and discussions with the States Parties concerned. States Parties may, at any time, express their views on the change in name of properties.
