Capacity building for the effective management of World Heritage properties :

- strengthen the knowledge, abilities, skills and behavior of people with direct responsibilities for heritage conservation and management
- improve institutional structures and processes through empowering decision-makers and policy-makers
- introduce a dynamic relationship between heritage and its ۲ context and, in turn, greater reciprocal benefits by a more inclusive approach

Key issues training and capacity building

- Information based on input received by the concerned **States Parties: Questionnaire**
- Information obtained in interviews with professionals and representatives from institutions
- Information from desk research

CCROM

36th session of the World Heritage Committee, Saint Petersburg, Russian Federation, 24 June – 6 July 201

Some findings

- More specialised staff needed
- Reinforcement of capacity-building the current staff
- Updating/improving most of the existing training
- Special attention for natural World Heritage sites required, especially in relation to security issues

.

Stakeholder needs

- Improve cooperation between national and site level
- Ensure information / training reaches site managers
- Importance of involving all stakeholders as early as possible and on a continuous basis
- Emphasis on international exchange of knowledge and experiences
- Importance of cooperation with other States Parties

36th session of the World Heritage Committee, Saint Petersburg, Russian Federation, 24 June – 6 July 201

Observations

- Exchange of experiences and best practices
- Training should be a combination of theory and in situ field practice
- The meetings should be interactive and not too many participants
- **Ensuring continuity**
