5: N 36° 11' 28" – E 44° 00’ 33"

OVERALL AREAS
Tell (base): 155,930 sq m, 15.59 ha
Citadel (top): 108,575 sq m, 10.85 ha
Numbering system

A new base map has been prepared in the framework of the Conservation and Rehabilitation Master Plan (CRMP), for the purposes of overall site conservation planning.

The new base map has then been used as a base for the contour map and the other thematic base maps which illustrate the CRMP reports. This map is adopted also as a base map for the Management Plan.

Consistently with the new updated map and with the survey and inventory of 320 graded buildings of the Citadel, a new sequence of numbers has therefore been established by the CRMP and further developed by the HECER:

- **Big numbers in block**: building blocks
- **Small numbers in block**: 320 graded buildings and public/religious structures
- **Small numbers in red and tagged with a S**: ungraded structures and plots
