Historic Centre of Macao, China

Cultural property inscribed on the  
World Heritage List in 2005

12/06/2019 – 21/06/2019

With its historic street, residential, religious and public Portuguese and Chinese buildings, the historic centre of Macao provides a unique testimony to the meeting of aesthetic, cultural, architectural and technological influences from East and West. It bears witness to one of the earliest and longest-lasting encounters between China and the West, based on the vibrancy of international trade.

## Project objectives:

Implemented for the fifth year in the framework of the WHV and supporting one of the most important cultural festivals, reflecting the fusion of different cultures that characterize the historic core zone, the project aims to promote a better understanding and preservation of Macao's Outstanding Universal Value as a city that favoured an important interchange of human values in the various fields of culture, sciences, technology, art and architecture over several centuries.

## Project activities:

The volunteers will design World Heritage promotional materials and run seminars, roadshows and site tours to promote and improve understanding, and enhance actions for heritage preservation in society, focussing on young people, tourists, local stakeholders and concerned authorities.

## Partners:
