Project Details:

Features
Digital Cultural eXperience developed a web and mobile application named “World Heritage Sites in Tunisia” to promote the cultural World Heritage sites of the country (7 cultural sites, of the 8 total World Heritage sites inscribed), among young people using new technologies. The application features an interactive map and 360° pictures, which allow the users to take a virtual tour across Tunisia to discover the richness and diversity of its cultural heritage. It also has engaging audioguides providing introductions to the sites. The application is accessible globally, in three languages: English, French and Arabic.
