31 July - 13 August 2024

THE SITE - The cathedral and churches of Echmiatsin and the archaeological remains at Zvartnots graphically illustrate the evolution and development of the Armenian central-domed cross-hall type of church, which exerted a profound influence on architectural and artistic development in the region, and vividly depict both the spirituality and the innovatory artistic achievement of the Armenian Church from its foundation.

OBJECTIVES - The project has three main objectives: to conserve historical and cultural buildings and monuments; to attract more tourists to the site; to raise young volunteers' and other stakeholders' awareness of the site and their responsibility to preserve and promote it.

ACTIVITIES - As part of the awareness activities, the volunteers will participate in preparing presentations and promotional materials on the World Heritage site to be disseminated through traditional and social media. Under the supervision of the site manager, the volunteers will carry out cleaning and maintenance work in the cathedral, and will support the museum in editing, revising and translating the site's documentation to be used as promotional material.

PARTNERS - Alliance of European Voluntary Service, Organizations, Service for the Protection of Historical Environment and Cultural Museum Reservations (SNCO).
