## Río Plátano Biosphere Reserve

## 1. World Heritage Property Data

### 1.1 - Name of World Heritage property

Río Plátano Biosphere Reserve

#### 1.2 - World Heritage property details

#### 1.3 - Geographic information table

| Name  | Coordinates      | Property (ha) | Buffer zone (ha) | Total (ha) | Inscription year |
|---|------------------|---------------|------------------|------------|------------------|
| Río Plátano Biosphere Reserve               | 15.744 / -84.675 | 350000        | 150000           | 500000     | 1982             |
| Total (ha)                                  |                  | 350000        | 150000           | 500000     |                  |
| I.4 - Map(s)                                |                  |               |                  |            |                  |
| Title                                       |                  |               |                  | Date       | Link to source   |

#### Comment

we understand that the site map 196 that exists in the archives of UNESCO is a kind of sketch, for this reason it is necessary to upload an updated map with all its well-defined limits and overlapping with the other territories, macrozones, municiwe understand that the site map 196 that exists in the ARCHIVES of UNESCO is a kind of sketch, for this reason it is necessary to upload an updated map with all its well-defined limits and overlapping with the other territories and departments.

#### 1.5 - Web and Social Media data of the property (if applicable)

## 1. Natural site datasheet from WCMC

#### Comment

at present and by internal policies of the national institute of conservation and forest development, site 196 do not have a website Officially, we only have an official email which is: rioplatanoicf@gmail.com, you can also connect with the official site of the national institute of conservation and forest development where you have certain official information of the site, the address is: https://icf.gob.hn/

#### 2. Other Conventions/Programmes under which the World Heritage property is protected (if applicable)

## 2.1 - Records indicate that your World Heritage property (in whole or in part) is designated and/or protected under the Conventions/programmes shown in the prefilled table below. Please check and amend as necessary.

|       |   | The World Heritage property (in whole or in part) <u>is</u><br>designated and/or protected under this<br>convention/programme | The World Heritage property (in whole or in part) <u>is not</u><br>designated and/or protected under this<br>convention/programme |
|-------|---|---|---|
| 2.1.1 | International Register of Cultural Property<br>under Special Protection<br>(1954 Hague Convention for the Protection of<br>Cultural Property in the Event of Armed Conflict)          |   | ×   |
| 2.1.2 | List of Cultural Property under Enhanced<br>Protection<br>(Second Protocol to the 1954 Hague Convention<br>for the Protection of Cultural Property in the Event<br>of Armed Conflict) |   | ×   |
| 2.1.3 | The List of Wetlands of International<br>Importance (The Ramsar List)<br>(Convention on Wetlands of International<br>Importance (Ramsar Convention))                                  |   | ×   |
| 2.1.4 | World Network of Biosphere Reserves<br>Man and the Biosphere (MAB) Programme  | ×   |   |
| 2.1.5 | Global Geoparks Network<br>UNESCO Global Geoparks   |   | ×   |

#### 2.2 - Please provide comments on 2.1 if necessary

site 196 is currently on the list of heritages in danger, so all the international support needed to protect and preserve its exceptional universal values is needed.

2.3 - Do your national authorities intend to request the granting of Enhanced Protection (if relevant) under the Second Protocol to the 1954 Hague Convention for the Protection of Cultural Property in the Event of Armed Conflict for the World Heritage property in the next three years?

No

2.4 - Do your national authorities intend to designate whole or part of the World Heritage property for inclusion in the List of Wetlands of International Importance (The Ramsar List), if relevant, in the next three years? Yes

2.5 - Do your national authorities intend to designate whole or part of the World Heritage property as a Man and Biosphere Reserve (if relevant) in the next three years?

No

2.6 - Do your national authorities intend to apply for whole or part of World Heritage property to be designated as a UNESCO Global Geopark (if relevant) in the next three years?

Not applicable

2.7 - Please indicate the level of cooperation at property level between designations under different Conventions/Programmes

| 2.7.1 | 1954 Hague Convention for the Protection of Cultural Property in the Event of Armed Conflict                        |   |
|-------|---|---|
| 2.7.1 | There is <b>no contact</b> with the Focal Point(s) of this designation/programme.                                   | × |
| 2.7.2 | The World Heritage Site Manager occasionally communicates with the Focal Point(s) of this designation/programme.    |   |
| 2.7.3 | The World Heritage Site Manager regularly communicates with the Focal Point(s) of this designation/programme.       |   |

| 2.7.4 | The World Heritage Site Manager also manages this designation/programme.  |   |

#### 2.8 - Please add any further comments on cooperation with the other designation(s)/programme(s)

the administrator of site 196 is the National Institute of Forest Conservation (ICF) through the Rio Plátano biosphere region, however none of the above entities are part of the focal point for UNESCO.

## 2.9 - Are you aware of any elements associated with the World Heritage property that have been inscribed on the Representative List of the Intangible Cultural Heritage?

No

## 2.10 - Please list any elements associated with the World Heritage property inscribed under the Convention for the Safeguarding of the Intangible Cultural Heritage of which you are aware

at present we do not have any proposed immaterial traits, however the Pesh and Miskitu language may in the future be proposed as such.

## 2.11 - Are you aware of any documentary heritage listed under the Memory of the World Programme associated with the World Heritage property?

No

2.12 - Please list any documentary heritage associated with the World Heritage property listed under the Memory of the World Programme of which you aware.

#### 3. Statement of Outstanding Universal Value

#### 3.1 - Statement of Outstanding Universal Value for the property as adopted by the World Heritage Committee

#### Statement of Outstanding Universal Value Brief Synthesis

Located in the Mosquitia region of Northeastern Honduras, Río Plátano Biosphere Reserve is the largest protected area in the country with 350,000 hectares. The property protects the entire watershed of the Río Plátano all the way from the headwaters in the mountains to the river mouth on the Caribbean Coast. Adding to its importance, the property is an integral part of a significantly larger conservation complex encompassing Tawahka Asangni Biosphere Reserve and Patuca National Park, among other protected areas. Taken as a whole, the conservation complex in Northeastern Honduras is contiguous with Bosawas Biosphere Reserve in neighbouring Nicaragua, jointly constituting the largest contiguous forest area in Latin America north of the Amazon. Besides the remarkable dense rainforests in the mountains, there is a highly diverse array of distinct ecosystems in the coastal lowlands, including wetlands, savannah and coastal lagoons. Recognised as a nature conservation gem, the property also harbours notable archaeological and cultural values, with numerous Pre-Columbian sites and petroglyphs, as well as the living cultures of the various local and indigenous communities. Indigenous peoples and peoples of African descent in and around Río Plátano include the Pech, Tawahka, Miskito and Garífuna, living alongside the Mestizo (Ladino) population.

The property boasts an extraordinary diversity of ecosystems and species. For example, 586 species of vascular plants have been reported in the low lands of the reserve. The over 721 species of vertebrates comprise more than half of all mammals known to occur in Honduras and include the critically endangered Mexican Spider Monkey, the endangered Central American Tapir, the vulnerable Giant Anteater and West Indian Manatee, as well as the near-threatened Jaguar and White-lipped Peccary. The endangered Great Green Macaw, the vulnerable Great Curassow and the near-threatened Guiana Crested Eagle and harpy eagle stand out among the impressive 411 documented species of birds. Taken together, reptiles and amphibians total about 108 species, with several species of poisonous snakes and 4 species marine turtles (Loggerhead, Leatherback, green turtle and hawksbill turtle) . Freshwater fish include the economically important migratory Bobo Mullet or Cuyamel.

*Criterion (vii):* The natural beauty of Río Plátano Biosphere Reserve is a function of the variety of the terrain and landscape types and features. Within its boundaries, the property harbours densely forested mountains reaching 1,418 m.a.s.l. at Punta Piedra, transitioning into savannahs, patches of pine forest and vast wetlands towards the coastal plains of the Caribbean Sea. Along the coast, there are spectacular lagoons, namely Laguna Brus and Laguna Ibans, both full of wildlife, boasting major bird colonies and serving as nurseries for fish and many other forms of aquatic life. Another characteristic element of the landscape are the many rivers and creeks, namely the eponymous Río Plátano and the Sico, Sikre Kipahni, Uhra and Tilasunta Rivers.

*Criterion (viii):* The property comprises two main geomorphological areas. These are the steep mountain range harbouring the headwaters of Río Plátano and the flat to undulating coastal plains. The latter is composed of terraces of recent marine sediments and partly underlain by a belt of infertile deeply weathered Pleistocene quartz sandy gravels. The Río Plátano meanders for some 45 kilometres through the lowlands forming ox-bow lakes, backwater swamps and natural levees. At about 100 m.a.s.l inland the foothills begin abruptly. The rugged granite mountains, which rise to Punta Piedra at 1,418 m.a.s.l. have many steep ridges, remarkable rock formations such as Pico Dama, a 150 metre pinnacle, and many waterfalls, one reaching 150 metres in height. Two thirds of the Plátano River run through a rugged part of the mountains with long stretches of white water. In one cataract in a deep forested gorge the river disappears under massive boulders. The mountains are part of the Cordillera Central, which corresponds to what was the Honduras Intercontinental Depression, during the Cretaceous period.

*Criterion (ix):* As one of a quickly decreasing number of major river basins the Plátano River, the heart of the property, continues to flow freely from its mountainous headwaters to the Sea. Along the altitudinal range the property connects a huge variety of very different ecosystems and habitats. The ecological linkages between these ecosystems and corresponding processes continue to be largely intact at the landscape level. Starting from the Caribbean Sea, there are estuarine and marine systems, sandy beaches, coastal lagoons of varying salinity, mangrove swamps, and pine savannah. Along the many rivers and creeks, there are broadleaf gallery forest traversing the savannahs and serving as natural corridors. The bulk of the property, however, are dense tropical rainforests covering the mountain ranges inland with smaller areas of rare elfin forest on the highest ridges.

*Criterion (x):* As a globally important stronghold of biodiversity Río Plátano harbours at least 586 species of vascular plants in its diverse habitats and there may still be species new to science in remote parts of the property. Across virtually all taxonomic groups, Río Plátano Biosphere Reserve is home to impressive proportions of the fauna of the entire country, in many cases well over half of the number of species occurring. The over 721 species of vertebrates include more than half of all mammals known in Honduras, such as the critically endangered Mexican Spider Monkey, the endangered Central American Tapir, the vulnerable Giant Anteater and the West Indian Manatee, as well as the near-threatened Jaguar and White-lipped Peccary. Other charismatic species are Puma, Ocelot, Jaguarundi and Margay, Neotropical Otter, White-throated Capuchin Monkey and Mantled Howler Monkey. The endangered Great Green Macaw, the vulnerable Great Curassow and Scarlet Macaw and the near-threatened Guiana Crested Eagle and harpy eagle stand out among the impressive 411 documented species of birds, along with Jabiru, King Vulture and the majestic Harpy Eagle. The 108 species of reptiles and amphibians comprise several rare poisonous snakes and 4 species marine turtles (Loggerhead, Leatherback, green turtle and hawksbill turtle)

#### Integrity

The Reserve contains a rich variety of ecosystems (28 terrestrial ecosystems and 5 coastal marine), habitats and species of global conservation importance. The

Plátano River is a major landscape feature and corridor connecting all the landscape elements from the rugged mountains to the coastal plains. Granting a conservation status to the entire watershed from the headwaters to the river mouth is an ideal set-up from a conservation perspective.

#### Protection and Management requirements

Due to its archaeological importance parts of the Río Plátano basin became subject to protection efforts long before the nature conservation values were formally recognised. In 1960, Ciudad Blanca Archaeological Reserve was created, later re-classified asan Archaeological National Park in 1969, which Río Plátano formally remains to this day. In terms of nature conservation, Río Plátano Biosphere Reserve was originally designated in 1980 by Decree and substantially extended in 1997 by a further Decree. Likewise in 1980, the area was internationally recognized as a biosphere reserve, prior to the inscription on the World Heritage List in 1982. The legal umbrella for all formally protected areas in Honduras is the national General Environmental Law, which establishes the national protected areas system. Further regulations are specified in a corresponding by-law. More recently, the Forest, Protected Areas and Wildlife Law came into force, jointly with the establishment of a new governmental authority for the management and conservation of forests, nature and wildlife. The legal framework supports co-management agreements and involvement of civil society at all levels.

A major management instrument is zonation to distinguish areas requiring strict protection and areas of controlled use of natural resources.

Despite the strong legal protection, Río Plátano Biosphere Reserve has long been suffering from human pressure threatening its integrity. Forests continue to be logged and converted to pasture, agricultural encroachment and illegal resource extraction are widespread. While systematic law enforcement is needed, there is a consensus that addressing the complex environmental challenges requires integrated development strategies, policies and measures for the entire region across sectors and disciplines and involving local communities. The property is located in a remote region of rural poverty, where a balance between conservation and development is needed. Regulation of land tenure and access to resources and effective co-management and sharing of power in decision-making are seen as promising instruments to this effect.

Indigenous peoples in the Mosquitia continue to have a close relationship with their natural environment, as expressed in myths and beliefs but also knowledge and practices. While not a guarantee for sustainable resource use, this can make a valuable contribution to conservation. Ambitious plans for hydroelectric development on nearby rivers may also entail risks for the conservation values and local livelihoods, therefore requiring careful analysis. Future management of Río Plátano Biosphere Reserve should also promote an enhanced understanding and protection of the many archaeological sites hidden in the dense forests.

## 3.2 - Please list the key attributes of Outstanding Universal Value of your property and give an assessment of their condition. As a guideline, it is suggested to focus on approximately five key attributes (no more than 15 overall).

|        | Brief identification of attribute | Preserved | Compromised | Seriously compromised | Lost |
|--------|-----------------------------------|-----------|-------------|-----------------------|------|
| 3.2.1  | landscape                         |           | ×           |                       |      |
| 3.2.2  | biodiversity                      |           | ×           |                       |      |
| 3.2.3  | broadleaf forest                  |           |             | ×                     |      |
| 3.2.4  | water quality                     |           | ×           |                       |      |
| 3.2.5  | size of jaguar populations        |           |             | ×                     |      |
| 3.2.6  | size of tapir populations         |           |             | ×                     |      |
| 3.2.7  | sea turtle population size        |           |             | ×                     |      |
| 3.2.8  |                                   |           |             |                       |      |
| 3.2.9  |                                   |           |             |                       |      |
| 3.2.10 |                                   |           |             |                       |      |
| 3.2.11 |                                   |           |             |                       |      |
| 3.2.12 |                                   |           |             |                       |      |
| 3.2.13 |                                   |           |             |                       |      |
| 3.2.14 |                                   |           |             |                       |      |
| 3.2.15 |                                   |           |             |                       |      |

#### 3.3 - Comments, conclusions and/or recommendations related to Statement of Outstanding Universal Value

at present almost all universal excpecional values are in danger, mainly due to mestizo human activities such as: extensive cattle ranching, deforestation, fires, mahogany mandera trafficking, macaw and parrot trafficking, illegal land grabbing and the so-called narco-livestock, all this can be evidenced in the periodic reports that the state party sends to UNESCO, technical reports of threats, scientific publications for example the rapid ecological evaluation of the white city site (Larsen, T.H 2019).

#### 4. Factors Affecting the Property

### 4.1. Buildings and Development

#### 4.1.1 - Housing

## 4.1.6 - Please comment as necessary on how the factors selected as relevant in 4.1 are affecting the property either negatively or positively

what we have seen in the last decade is an increase in housing inside and outside the heritage site, this due to the invasions of forest lands by non-indigenous people, mainly in the area of Dulce Nombre de Culmí, (Olancho), Brus Laguna and Wampusirpi (Gracias a Dios).

### 4.2. Transportation Infrastructure

#### 4.2.1 - Ground transport infrastructure

- Previous answer Cycle 2 (13/03/2012):
  - Not relevant

| X Relevant  | 1         | Not relevant |                |         |                     |          |            |  |

## 4.5.11 - Please comment as necessary on how the factors selected as relevant in 4.5 are affecting the property either negatively or positively

at present and for several years we have been seeing an increase in the hunting of Tapirus bairdii, Tayassu pecari and Joturus pichardi and other species, this for commercial purposes, this hunt added to the deforestation caused by the ganderia extenisva is leading to the extinction of these 3 species, on the other hand the extensive livestock is increasing dramatically throughout the reserve and outside and inside the heritage site.

## 4.6. Physical resource extraction

#### 4.6.1 - Mining

#### 4.8.6 - Impacts of tourism/Visitation/Recreation

Relevant

× Not relevant

## 4.8.7 - Please comment as necessary on how the factors selected as relevant in 4.8 are affecting the property either negatively or positively

in general we have seen substantial changes in the structural composition of the Pesh and Miskitus indigenous communities, since many non-indigenous foreign people are arriving in the territories, and on the other hand also several indigenous compatriots seek the American dream, all this has transformed the local communities.

## 4.12.7 - Please comment as necessary on how the factors selected as relevant in 4.12 are affecting the property either negatively or positively

some invasive, native and introduced species have been gaining ground in the reserve and property, this due to the sudden changes in forest cover and the increase in water temperature, some species that could be being favored by these factors are Oreochromis niloticus, Elaeis guineensis and Canis latrans.

| Relevant | Not relevant |
|----------|--------------|
|----------|--------------|

## 4.13.9 - Please comment as necessary on how the factors selected as relevant in 4.13 are affecting the property either negatively or positively

Although it is currently not yet available the necessary and suitable personnel for the management of the property, in recent years we have had a substantial increase in the number of park rangers increasing from 3 to 40 park rangers in the last 4 years, this with the support of several local organizations and WCS.

#### 4.14. Other factor(s)

#### 4.14.1 - Other factor(s)

Another factor that may be positively helping the management of the property is the issue of white city, since a strong campaign was carried out around that important archaeological site.

| 4.18.1.5 | Sea turtle population size    |           |             | ×                     |      |

#### 5. Protection and Management of the Property

#### 5.1. Boundaries and Buffer Zones

#### 5.1.1 - Are the boundaries of the World Heritage property adequate to maintain the property's Outstanding Universal Value? The boundaries are inadequate, which makes it difficult to maintain the property's Outstanding Universal Value

#### 5.1.2 - Are the boundaries of the World Heritage property known and recognised?

The boundaries are known by the management authority but are not known by local communities/landowners

#### 5.1.3 - Are the buffer zone(s) of the World Heritage property adequate to maintain the property's Outstanding Universal Value? Inadeguacies in the buffer zones make it difficult to maintain the property's Outstanding Universal Value

#### 5.1.4 - Are the boundaries of the buffer zones known and recognised?

The buffer zones of the World Heritage property are known and recognised by the management authority but are not known by local communities/landowners

#### 5.1.5 - Comments, conclusions and/or recommendations related to boundaries and buffer zones of the World Heritage property

at present and after several analyses carried out by the state party and representatives of UNESCO it is considered to make a major modification of the limits of the heritage, this obviously includes modifying both the core zone and the buffer zone of the property, another interesting fact is that many communities do not know the limits of the property.

#### 5.2. Protective Measures

#### 5.2.1 - Protective designation (legal, regulatory, contractual, planning, institutional and/or traditional).

On 13 November 1969, by DecreeN°. 79, the National Congress declared the area falling between 84O30' and 850301 W. longitude and between 15°10' and 15O50' N. latitude a National Archaeological Park and reserved it for archaeological purposes.

On 20 July 1980, by Decree-Law No. 977, the Government of Honduras created in the basin of the River Platano, and surrounded by a buffer zone, the "Rio Platano" biosphere reserve, the first biosphere reserve in Honduras.

Source: Nomination File

# 5.2.2 - Please list any legislation and other measures (regulatory -including spatial planning- contractual, institutional or traditional) not included in 5.2.1 and indicate the category

# 5.2.3 - Is the legal framework (i.e. legislation and/or regulation including spatial planning) adequate for maintaining the Outstanding Universal Value including conditions of Integrity and/or Authenticity of the property?

The legal framework for maintaining of the Outstanding Universal Value including conditions of Authenticity and/or Integrity of the World Heritage property provides an adequate basis for effective management and protection

# 5.2.4 - Is the legal framework (i.e. legislation and/or regulation) adequate in the buffer zone for maintaining the Outstanding Universal Value including conditions of Integrity and/or Authenticity of the property?

An adequate legal framework in the buffer zone for maintaining the Outstanding Universal Value including conditions of Authenticity and/or Integrity of the World Heritage property exists but there are some deficiencies in implementation

# 5.2.5 - Is the legal framework (i.e. legislation and/or regulation) in the broader setting of the World Heritage property adequate for maintaining the Outstanding Universal Value including conditions of Integrity and/or Authenticity of the property?

An adequate legal framework exists for the broader setting of the World Heritage property, but there are some deficiencies in implementation which undermine the maintenance of the Outstanding Universal Value including conditions of Authenticity and/or Integrity of the property

#### 5.2.6 - Can the legal framework (i.e. legislation and/or regulation) be enforced?

There are major deficiencies in capacity/resources to enforce legislation and/or regulation in the World Heritage property

#### 5.2.7 - Please provide a short summary of how the legislation, including spatial planning and other regulation, works in practice

as the site is overlapping with a protected area, the first tool used is the management plan of Río Plátano in this are the permitted and non-permitted activities within the protected area and therefore within heritage, the forest law is also used in which environmental crimes are already typified, with these legal and technical tools, the protection of the area and the good is sought.

# 5.2.8 - Comments, conclusions and/or recommendations about the information related to the measures taken to protect the World Heritage property

property is on the list of sites in danger, this responds to many factors in particular the limited capacity of the State party to solve or stop threats, and this has led to an increase in illicit activities that put at risk the integrity of exceptional universal values, for this reason, in order to effectively protect the property, we believe that the laws already existing in the country should simply be applied and that inter-institutional checkpoints should be established to regulate illegal activities within the

#### 5.3. Management System/Management Plan

5.3.1 - Please check the box which most closely match the character of the governance and management system of the property Public management system at national level

### If 'Other', please specify

#### 5.3.2 - Management System: Please indicate which of the various management tools listed below are used to help protect the property.

| A statutory Management Plan or zoning plan for the property.  |
|---|
| Traditional ways of management recognised by local communities and other specific groups  |
| Governance mechanisms that foster and respect traditional practices, knowledge and uses of the property   |
| Agreed 'Memorandums of Understanding' between different managing institutions, groups or others, including documents agreed with local communities for management |
| A management plan   |
| An annual work plan or business plan  |

#### 5.3.3 - Please give a brief description of the management system currently in place at your property

to manage the protected area and therefore the property, the state party and the communities have several mechanisms, the general management plan, conservation plan, forest management plans, comprehensive plans, life plans and indigenous protocols among others

#### 5.3.4 - Management Documents

| Title   | Status | Available | Date | Link to source |
|---|--------|-----------|------|----------------|
| Plan operativo "reserva de la biosfera Rio Platano", junio 1987 a mayo 1989               | N/A    | Available | 1987 |                |
| Plan de Accion. Octubre 1987 - Mayo 1988. Reserva Biosfera de Rio Platano. Plan Operativo | N/A    | Available | 1987 |                |
| Plan Operativo. "Reserva de la biosfera Rio Platano" Junio 1987 a Mayo 1989.              | N/A    | Available | 1987 |                |

#### Comment

general management plan 2013-2025, conservation plan 2012, research and moniotreo plan 2014, operational plan 2022, life plans (BAKINASTA, DIUNAT, BARAUDA and Las Marías Pesh).

# 5.3.5 - Has any use been made of the 2011 Recommendation on the Historic Urban Landscape in developing policies and best practices for the protection of this property?

No use has been made of the 2011 Recommendation on the Historic Urban Landscape

5.3.6 - If the Historic Urban Landscape Recommendation has been used at this property, please describe briefly what has been done.

# 5.3.7 - Has any use been made of the Policy Document on the Impacts of Climate Change on World Heritage Properties at the property?

No use has been made of the World Heritage Policy for Climate Change

5.3.8 - If the Climate Change policy has been used, please briefly describe what has been done along with any research on the impacts of Climate Change on the property:

5.3.9 - Has any use been made of the Strategy for Reducing Risks from Disasters at World Heritage Properties at the property ? No use has been made of the Strategy for Reducing Risks from Disasters at World Heritage Properties

5.3.10 - If the Strategy for Reducing Risks from Disasters at World Heritage Properties has been used, please briefly describe what has been done

5.3.11 - Rate the coordination between the various levels of administration (i.e. national/federal; regional/provincial/state; local/municipal etc.) involved in the management of the World Heritage property There is little coordination between the range of administrative bodies involved in the management of the property

5.3.12 - Is the management system/plan adequate to maintain the property's Outstanding Universal Value? No management system/plan is currently in place to maintain the property's Outstanding Universal Value

#### 5.3.13 - Is the management system being implemented?

The management system is being only partially implemented

5.3.14 - Is there an annual work/action plan and is it being implemented?

An annual work/action plan exists and many of its activities are being implemented

5.3.15 - Does the management system include formal mechanisms and procedures that ensure participation and contribution of the following groups, living within or near the World Heritage property and/or buffer zone in management decisions that maintain the Outstanding Universal Value of the property?

|          |   | Not<br>applicable | No mechanisms for<br>participation | Some participation | Direct participation | Transformative participation in all relevant decision processes |
|----------|---|-------------------|------------------------------------|--------------------|----------------------|---|
| 5.3.15.1 | Local communities                                       |                   |                                    |                    | ×                    |   |
| 5.3.15.2 | Local authorities                                       |                   |                                    |                    | ×                    |   |
| 5.3.15.3 | Landowners in the property and the buffer zone          |                   |                                    | ×                  |                      |   |
| 5.3.15.4 | Indigenous peoples                                      |                   |                                    |                    | ×                    |   |
| 5.3.15.5 | Women   |                   |                                    | ×                  |                      |   |
| 5.3.15.6 | Other specific groups                                   |                   |                                    |                    | ×                    |   |
|          | If you selected, 'Other specific groups' please specify | Garifuna comm     | unities                            |                    |                      |   |

5.3.16 - Please rate the cooperation/relationship between the World Heritage property managers/coordinators/staff and the following groups

|           |   | Not applicable | Non-existent | Poor | Fair | Good |
|-----------|---|----------------|--------------|------|------|------|
| 5.3.16.1  | Local communities                                       |                |              |      |      | ×    |
| 5.3.16.2  | Local/Municipal authorities                             |                |              |      |      | ×    |
| 5.3.16.3  | Indigenous peoples                                      |                |              |      |      | ×    |
| 5.3.16.4  | Landowners  |                |              |      | ×    |      |
| 5.3.16.5  | Women   |                |              |      |      | ×    |
| 5.3.16.6  | Youth/Children  |                |              |      |      | ×    |
| 5.3.16.7  | Researchers   |                |              |      |      | ×    |
| 5.3.16.8  | Local Visitors/Tourists                                 |                |              | ×    |      |      |
| 5.3.16.9  | National/International tourists                         |                |              | ×    |      |      |
| 5.3.16.10 | Tourism Industry  |                | ×            |      |      |      |
| 5.3.16.11 | Local businesses and industries                         |                | ×            |      |      |      |
| 5.3.16.12 | NGOs  |                |              |      |      | ×    |
| 5.3.16.13 | Other specific groups                                   | ×              |              |      |      |      |
|           | If you selected 'Other specific groups', please specify |                |              |      |      |      |

5.3.17 - Please rate the extent to which the management system of your property contributes towards achieving the objectives of the World Heritage Committee's Policy for the Integration of a Sustainable Development Perspective into the Processes of the *World Heritage Convention* 

|          |  | Not<br>applicable | No<br>contribution | Limited | Significant | Full<br>achievement |
|----------|--|-------------------|--------------------|---------|-------------|---------------------|
| 5.3.17.1 | The management system of the property contributes to gender equality   |                   |                    |         | ×           |                     |
| 5.3.17.2 | The management system of the property provides ecosystem services/benefits to the local community (e.g. fresh air, water, food, medicinal plants)  |                   |                    |         | ×           |                     |
| 5.3.17.3 | The management system of the property contributes to social inclusion and equity, improving opportunities for all, irrespective of age, sex, disability, ethnicity, origin, religion or economic or other status |                   |                    |         | ×           |                     |
| 5.3.17.4 | The management system of the property integrates a human rights-based approach   |                   |                    |         | ×           |                     |
| 5.3.17.5 | The management system of the property contributes to fostering inclusive local economic development, and to enhancing livelihood   |                   |                    |         | ×           |                     |
| 5.3.17.6 | The management system of the property contributes to conflict prevention, including respect for<br>cultural diversity within and around the World Heritage property  |                   |                    |         | ×           |                     |

#### 5.3.18 - Please provide further details on the ratings of the management system given in the table above

5.3.19 - Comments, conclusions and/or recommendations related to the management system/plan

#### 6. Financial and Human Resources

#### 6.1. Funding

# 6.1.1 - If your funding sources do not exactly fit those shown, put the relevant amounts against the funding type that most closely represents your situation, and use the comment box below to provide more details.

|          |  | Project costs | Running costs |
|----------|--|---------------|---------------|
| 6.1.1.1  | Multilateral funding (GEF, World Bank, etc.)   | 0 %           | 0 %           |
| 6.1.1.2  | Bilateral international funding  | 80 %          | 80 %          |
| 6.1.1.3  | World Heritage Fund (International Assistance)   | 0 %           | 0 %           |
| 6.1.1.4  | Contribution from other conventions and programmes   | 0 %           | 0 %           |
| 6.1.1.5  | International donations (NGOs, foundations, etc.)  | 0 %           | 0 %           |
| 6.1.1.6  | Governmental (national/federal)  | 20 %          | 20 %          |
| 6.1.1.7  | Governmental (regional/provincial/state)   | 0 %           | 0 %           |
| 6.1.1.8  | Governmental (local/municipal)   | 0 %           | 0 %           |
| 6.1.1.9  | In-country donations (NGOs, foundations, etc.)   | 0 %           | 0 %           |
| 6.1.1.10 | Individual visitor charges (e.g. entry, toilets, parking, camping fees, etc.)              | 0 %           | 0 %           |
| 6.1.1.11 | Commercial activities (e.g. merchandising and catering, filming permit, concessions, etc.) | 0 %           | 0 %           |
| 6.1.1.12 | Other  | 0 %           | 0 %           |
|          |  | Total 100 %   | Total 100 %   |

#### 6.1.2 - Please comment here on any other aspects of funding sources not covered in the table above

At present we have the support of the European Union through the Integrated Management Project of the Río Plátano Biosphere (MI BIOSPHERE) for an amount of 5,196,500 dollars, this project is the one that injects the highest percentage of money in the protected area, however it does not all the money is invested in the protection of the site, annually the reserve could receive around 1290,288.00 dollars of which 80% corresponds to the support of the european union

#### 6.1.3 - Is the current budget sufficient to manage the World Heritage property effectively?

There is no budget for the effective management of the World Heritage property despite an identified need

#### 6.1.4 - Are the existing sources of funding secure and likely to remain so?

The existing sources of funding are not secure

#### 6.1.5 - Comments, conclusion, and/or recommendations related to finance and infrastructure

while it is true that there is some funding for the management of the protected area, for the management of the heritage site we do not have established a budget for the management of the heritage site.

# 6.1.6 - Estimate the distribution of men and women involved in the management, conservation, interpretation of the World Heritage properties and the extent to which they are drawn from local communities.

|         |       | From local communities % | From elsewhere % |
|---------|-------|--------------------------|------------------|
| 6.1.6.1 | Men   | 70 %                     | 70 %             |
| 6.1.6.2 | Women | 30 %                     | 30 %             |
|         |       | Total 100 %              | Total 100 %      |

#### 6.1.7 - Are available human resources adequate to manage the World Heritage property?

Human resources are **inadequate** for management needs

# 6.1.8 - Considering the management needs of the World Heritage property, please rate the availability of professionals in the following disciplines

| Conservation                          | Poor           |
|---------------------------------------|----------------|
| Environmental sustainability          | Not applicable |
| Community participation and inclusion | Poor           |
| Risk preparedness                     | Not applicable |
| Capacity development and education    | Poor           |
| Administration                        | Not available  |

| Research and monitoring                                | Poor           |
|--|----------------|
| Awareness raising and public information/communication | Not available  |
| Marketing and promotion                                | Not available  |
| Interpretation   | Not applicable |
| Visitor management/tourism                             | Not applicable |
| Enforcement (custodians, police)                       | Not available  |

# 6.1.9 - Please rate the availability of training opportunities for the management of the World Heritage property in the following disciplines

| Conservation   | Not available  |
|--|----------------|
| Environmental sustainability                           | Not applicable |
| Community participation and inclusion                  | Poor           |
| Risk preparedness                                      | Not applicable |
| Capacity development and education                     | Not available  |
| Administration   | Not available  |
| Research and monitoring                                | Poor           |
| Awareness raising and public information/communication | Not available  |
| Marketing and promotion                                | Not available  |
| Interpretation   | Not applicable |
| Visitor management/tourism                             | Not applicable |
| Enforcement (custodians, police)                       | Not available  |

### 6.1.10 - Has any use been made of the World Heritage Strategy for Capacity Building at the property?

No use has been made of the World Heritage Strategy for Capacity Building

#### 6.1.11 - If the World Heritage Strategy for Capacity Building has been used, please briefly describe what has been done.

# 6.1.12 - Are there site-specific capacity building plans or programmes that develop local expertise and that contribute to the transfer of skills for the conservation and management of the World Heritage property?

There is no site-based capacity building plan or programme in place; management is implemented by external staff and skills are not transferred

#### 6.1.13 - Comments, conclusions and/or recommendations related to human resources, expertise and training

#### 7. Scientific Studies and Research Projects

# 7.1 - Is there adequate knowledge (scientific or traditional) about the values and attributes of the World Heritage property to support planning, management and decision-making to ensure that Outstanding Universal Value is maintained? Knowledge about the values and attributes of the World Heritage property is **acceptable** for most key areas but there are gaps

# 7.2 - Is there a planned programme of research at the property which is directed towards management needs and/or improving understanding of Outstanding Universal Value?

There is a **comprehensive**, **integrated programme** of research, which is relevant to management needs and/or improving understanding of Outstanding Universal Value

#### 7.3 - Are results from research programmes publicly available and disseminated? Research results are shared with local communities and some national agencies

#### 7.4 - Comments, conclusions and/or recommendations related to scientific studies and research projects

The investigations carried out in the reserve are framed in the investigation and monitoring plan (2014-2025), this plan covers multiple thematic areas.

#### 8. Education, Information and Awareness Building

# 8.1 - Please rate the awareness and understanding of the existence and justification for inscription of the World Heritage property amongst the following groups

| Local communities           | Poor |
|-----------------------------|------|
| Local/municipal authorities | Poor |
| Indigenous peoples          | Poor |
| Landowners                  | Poor |

Río Plátano Biosphere Reserve

| Women  | Poor                              |
|--|-----------------------------------|
| Youth/children   | Poor                              |
| Researchers  | Fair                              |
| Local visitors   | Poor                              |
| National/international tourists                          | Non-existent                      |
| Tourism industry   | Not applicable                    |
| Local businesses and industries                          | Not applicable                    |
| NGOs   | Fair                              |
| Other specific groups                                    | Fair                              |
| If you selected 'Other specific groups', please describe | environmental public institutions |

# 8.2 - Does the property have a heritage education programme(s) for children and/or youth, that can contribute to a better understanding of heritage, promote diversity and foster intercultural dialogue?

There is no education and awareness programme for children and/or youth, despite an identified need

#### 8.3 - Who are the target audiences for education and awareness programmes at your property?

| ocal communities           |  |
|----------------------------|--|
| ocal/municipal authorities |  |
| ndigenous peoples          |  |
| andowners                  |  |
| Vomen                      |  |

# 8.4 - Please rate the adequacy of the following visitor facilities and services at the World Heritage property for education, information, interpretation and awareness building

| Visitor centre                         | Not provided but needed |
|--|-------------------------|
| Site museum                            | Not provided but needed |
| Information booths                     | Not provided but needed |
| Guided tours                           | Not provided but needed |
| Trails/routes                          | Not provided but needed |
| Printed information materials          | Not provided but needed |
| Online (website, social media, etc.)   | Not provided but needed |
| Transportation facilities              | Not provided but needed |
| Other                                  | Not provided but needed |
| If 'Other' is selected, please specify | conferences or workshop |

8.5 - Comments, conclusions and/or recommendations related to education, information and awareness building

#### 9. Visitor Management

#### 9.1 - Please provide estimated annual visitor numbers (including national and international visitors) since the last Periodic Report

0/0/0/0/0/

9.2 - What information sources are used to collect visitor statistics?

#### Other

partial data of tour operators

9.3 - What is the average length stay of a visitor to the World Heritage property?

More than four overnight stays

### 9.4 - Please provide the source of information

### 9.5 - What is the approximate average daily visitor expenditure? (Please provide an estimated monetary figure in USD)

0 / 0 / 0 / 0-700 (USD) / 0 / 0 /

#### 9.6 - Please provide the source of information

#### 9.7 - Does the management system/plan for the World Heritage property include a strategy with an action plan to manage visitors,

#### tourism activity and its derived economic, socio-cultural and environmental impacts?

There is a strategy to manage visitors, tourism activity and its derived impacts on the World Heritage property but it is not implemented

#### 9.8 - Please provide any comments relating to the answer provided above in question 9.7

The general management plan for the reserve includes certain visitation activities. However, the few visitations that are received enter without any authorization from the government entity in charge of the administration of the property.

#### 9.9 - Is visitor use effectively managed to maintain the Outstanding Universal Value of the property?

There is some management of the visitor use of the World Heritage property

#### 9.10 - Is the effectiveness of tourism management regularly monitored?

No

#### If a different system, please specify

# 9.11 - How does the tourism industry cooperate with the site management to improve visitor experiences and maintain the Outstanding Universal Value of the World Heritage property?

Although the tourism industry is active in the property, there is no contact between those responsible for the World Heritage property and the tourism industry

#### 9.12 - How well is the information on the Outstanding Universal Value of the property presented and interpreted?

The Outstanding Universal Value of the property is not adequately presented and interpreted

# 9.13 - At how many locations is the World Heritage emblem displayed at the property? Not displayed at all

9.14 - How does visitor/tourism revenue (e.g. entry charges, permits) contribute to the management of the World Heritage property? While there is the authority to collect fees, they are not collected

#### 9.15 - Are there locally driven sustainable tourism initiatives?

Yes

### If 'Yes', please specify

At present there is only one formal sustainable tourism initiative and this is developed within the heritage site in the community of Las Marías Pesh, cultural zone of Río Plátano, this initiative has been promoted for several years by the tourism committee of the council of Pesh Las Marias tribe.

#### 9.16 - Are the benefits of tourism shared with local communities?

Yes

### If 'Yes', please specify

When the cars arrive at the Marias Pesh through the tourism committee of the council, the benefits are direct, but if they arrive with tour operators, those benefits are very few.

#### 9.17 - Comments, conclusions and/or recommendations related to visitation/tourism/public use of the World Heritage property

Actually tourism and public use in the site and the protected area is very little, there have been some local initiatives that have failed due to the insecurity of the area as a result of drug trafficking, however others still continue such as that of the Marías Pesh, on the other On the other hand, there are also several national tour operators that enter the site without any government or state permit, these tour operators move foreign people within the site.

#### 10. Monitoring

# 10.1 - Is there a monitoring programme at the property directed towards management needs and/or towards improving the understanding of the Outstanding Universal Value?

There is a **small amount of monitoring**, but it is not planned

# 10.2 - Is necessary information available in order to define key indicators for measuring the state of conservation and are they used in monitoring how the Outstanding Universal Value of the property is being maintained?

Information on the values of the World Heritage property is adequate and key indicators have been defined but monitoring of the status of indicators could be improved

#### 10.3 - Are key indicators defined and in place for the following principal aspects of the property?

|        | Extend of indicators  | Not<br>applicable | No<br>indicators | Indicators have been defined but are not yet in use | Indicators are in place and in use since the last<br>Periodic Reporting cycle |
|--------|---|-------------------|------------------|---|---|
| 10.3.1 | State of conservation                                       |                   |                  |   | ×   |
| 10.3.2 | Effectiveness of the management system                      |                   |                  |   | ×   |
| 10.3.3 | Character of governance                                     |                   |                  |   | ×   |
| 10.3.4 | Appropriate synergy with other<br>conservation designations |                   |                  | ×   |   |

| 10.3.5 | Contribution to sustainable development |   | × |
|--------|---|---|---|
| 10.3.6 | Capacity development                    | × |   |

#### 10.4 - Please provide information on relevant key indicators adopted at the property

8 key indicators have been defined for the removal of the property from the List of World Heritage in Danger, these indicators cover issues of ecological attributes (forest cover, jaguars and tapirs), integrity (presence of people in the core of the property and allocation of areas for sustainable management) and protection and management (management plan, actions of the ad-hoc committee and co-management).

#### 10.5 - Please rate the level of involvement in monitoring of the following groups:

| World Heritage managers/coordinators and staff          | Fair               |
|---|--------------------|
| Local/municipal authorities                             | Non-existent       |
| Local communities                                       | Poor               |

### **10.6 - Has the State Party implemented relevant recommendations arising from the World Heritage Committee?** Implementation is underway

10.7 - Please provide comments relevant to the implementation of recommendations from the World Heritage Committee.

The state party, through the institutions responsible for the management and protection of the site, accepts each recommendation made by the committee at each meeting. However, some recommendations have been very difficult to comply with and others have been carried out as proposed by the committee.

#### 10.8 - Comments, conclusions and/or recommendations related to Monitoring

The follow-up and monitoring of the property must be a primary need for the state party and all the institutions related to the protection of the property, however throughout history and after the designation of the property in 1982 it has not been given the importance due to good 196, this mainly due to the little political will and the enormous misinformation about the importance of the site.

#### 11. Identification of Priority Management Needs

### 11.1 - Identification of Priority Management Needs

| 5.1    | Boundaries and Buffer Zones   |   |
|--------|---|---|
| 5.1.1  | Inadequacies in the boundaries make it difficult to maintain the property's Outstanding Universal Value   |   |
| 5.1.2  | The boundaries of the World Heritage property are known by the management authority but are not known by local communities/landowners   | × |
| 5.1.3  | Inadequacies in the buffer zones of the World Heritage property make it difficult to maintain the property's Outstanding Universal Value  |   |
| 5.1.4  | The buffer zones of the World Heritage property are known and recognised by the management authority but are not known and recognized by local communities/landowners   |   |
| 5.2    | Protective Measures   |   |
| 5.2.4  | An adequate legal framework in the buffer zone for maintaining the Outstanding Universal Value including conditions of Authenticity and/or Integrity of the World Heritage property exists but there are some deficiencies in implementation  |   |
| 5.2.5  | An adequate legal framework exists for the broader setting of the World Heritage property and the buffer zone, but there are some deficiencies in implementation which undermine the maintenance of the Outstanding Universal Value including conditions of Authenticity and/or Integrity of the property | × |
| 5.2.6  | There are major deficiencies in capacity/resources to enforce legislation and/or regulation in the World Heritage property  | × |
| 5.3    | Management System/Management Plan   |   |
| 5.3.5  | No use has been made of the Historic Urban Landscape Recommendation to develop policies and best practices for the protection of the property   |   |
| 5.3.7  | No use has been made of the Policy Document on the Impacts of Climate Change on World Heritage Properties at the property   | × |
| 5.3.9  | No use has been made of the Strategy for Reducing Risks from Disasters at World Heritage Properties at the property   | × |
| 5.3.11 | There is little coordination between the range of administrative bodies involved in the management of the property  |   |

| 5.3.12 | No management system/plan is currently in place to maintain the property's Outstanding Universal Value   |   |  |  |  |  |
|--------|--|---|--|--|--|--|
| 5.3.13 | The management system at the property is only being partially implemented  |   |  |  |  |  |
| 6.1    | Funding  |   |  |  |  |  |
| 6.1.3  | There is no budget for effective management of the World Heritage property despite an identified need  |   |  |  |  |  |
| 6.1.4  | Existing sources of funding are not secure   |   |  |  |  |  |
| 6.1.7  | Human resources are inadequate for the management needs of the World Heritage property   |   |  |  |  |  |
| 6.1.10 | No use has been made of the World Heritage Strategy for Capacity Development at the World Heritage property  |   |  |  |  |  |
| 6.1.12 | There is no site-based capacity building plan or programme in place; management is implemented by external staff and skills are not transferred                        |   |  |  |  |  |
| 8      | Education, Information and Awareness Building  |   |  |  |  |  |
| 8.2    | There is no heritage education and awareness programme for children and/or youth, despite an identified need   | × |  |  |  |  |
| 9      | Visitor Management   |   |  |  |  |  |
| 9.7    | There is a strategy to manage visitors, tourism activity and its derived impacts on the World Heritage property but it is not implemented                              |   |  |  |  |  |
| 9.9    | There is <b>some management</b> of the visitor use of the World Heritage property  | × |  |  |  |  |
| 9.11   | Although the tourism industry is active in the property, there is no contact between tourism operators and those responsible for the World Heritage property           | × |  |  |  |  |
| 9.12   | The Outstanding Universal Value of the property is not adequately presented and interpreted  | × |  |  |  |  |
| 10     | Monitoring   |   |  |  |  |  |
| 10.1   | There is a small amount of monitoring at the World Heritage property, but it is not planned  | × |  |  |  |  |
| 10.2   | Information on the values of the World Heritage property is adequate and key indicators have been defined but monitoring of the status of indicators could be improved |   |  |  |  |  |

## 12.2. Summary - Management Needs

### 12.2.1 - Summary - Management Needs

| 5.1   | Boundaries and Buffer Zo  | Boundaries and Buffer Zones   |           |                                   |  |  |  |  |
|-------|---|---|-----------|-----------------------------------|--|--|--|--|
|       |   | Actions   | Timeframe | Lead agency (and others involved) | More info / comment  |  |  |  |
| 5.1.2 | The boundaries of the<br>World Heritage property<br>are known by the<br>management authority<br>but are not known by<br>local<br>communities/landowners | socialization with communities,<br>radio ads and a recycling<br>campaign on the subject | 5 years   | Forest Conservation Institute     | the limits are clear however<br>many communities do not know<br>the limits and the nomination<br>as such, for such a reason this<br>is an urgent action to perform |  |  |  |
| 5.2   | Protective Measures   |   |           |                                   |  |  |  |  |

| 5.2.5 | An adequate legal<br>framework exists<br>for the broader<br>setting of the World<br>Heritage property<br>and the buffer zone,<br>but there are some<br>deficiencies in<br>implementation<br>which undermine<br>the maintenance of<br>the Outstanding<br>Universal Value<br>including conditions<br>of Authenticity<br>and/or Integrity of<br>the property | several actions have been taken in<br>favor of the preservation of values,<br>however, and despite having many<br>national laws, these actions for the<br>most part do not come to fruition. | for this there is no<br>established deadline, but<br>annually it is intended to a<br>against the offenders | ICF, MiAmbiente, FEMA AND<br>ARMED FORCES | the laws and legal framework<br>exist however their applicability is<br>very weak in the reserve and the<br>sites, all the administrative<br>processes to be able to bring to<br>trial an offender make impossible<br>an effective result. |
|-------|---|--|--|---|--|
| 5.2.6 | There are <b>major</b><br><b>deficiencies in</b><br><b>capacity/resources</b><br>to enforce<br>legislation and/or<br>regulation in the<br>World Heritage<br>property  | implementation of legislation at all levels  | in the next 5 years  | ICF, FEMA and the Military                | there is a lot of impunity in the<br>commission of environmental<br>crimes on property.  |
| 5.3   | Management Syst   | em/Management Plan   |  |   |  |
| 5.3.7 | No use has<br>been made of<br>the Policy<br>Document on<br>the Impacts of<br>Climate Change<br>on World<br>Heritage<br>Properties at<br>the property  | only a few assessments of climate<br>change and atmospheric phenomena<br>that have struck the reserve and the<br>site have been made   | no specific deadline   | ICF, MiAmbiente AND ARMED<br>FORCES       | climate change is a cross-cutting<br>issue in the actions that are<br>executed within the site, however<br>and despite being a necessity we do<br>not have specific documents for the<br>site.   |
| 5.3.9 | No use has<br>been made of<br>the Strategy for<br>Reducing Risks<br>from Disasters<br>at World<br>Heritage<br>Properties at<br>the property   | implement the strategy   | in the next 5 years  | ICF, MiAmbiente AND ARMED<br>FORCES       | we do not know the strategy in question.   |
| 8     | Education, Information  | on and Awareness Building  |  |   |  |
| 8.2   |   | ou only have an environmental education<br>an in general   | 11 years fo  | prest conservation institute              | children are the future of the<br>reserve for this reason we must try<br>to educate them on the subject of<br>the importance of the heritage site  |
| 9     | Visitor Manageme  | ent  |  |   |  |
| 9.9   | There is <b>some</b><br><b>management</b><br>of the visitor use<br>of the World<br>Heritage<br>property   | in the cultural area of Río Plátano<br>within the heritage site, there are<br>some local initiatives of<br>indigenous tourism (Las Marías<br>Pesh case),                                     | there is no deadline   | ICF and indigenous peoples                | due to the high insecurity of<br>the area there are very few<br>tourism initiatives, and the<br>existing tour operators operate<br>illegally within the protected<br>area and the site.  |
| 9.11  | Although the<br>tourism industry<br>is active in the<br>property, there<br>is <b>no contact</b><br>between tourism<br>operators and<br>those<br>responsible for<br>the World<br>Heritage<br>property  | we have spoken informally with<br>each of the tour operators to try to<br>regulate their entry to the site   | no deadline  | ICF AND ARMED FORCES                      | although it is true the impact of<br>tourism on the site in minimum,<br>we must regulate the activity to<br>have an idea of the national or<br>foreign people who are arriving<br>at the site.   |

| 9.12         | The<br>Outstanding<br>Universal Value<br>of the property<br>is not<br>adequately<br>presented and<br>interpreted     | socializing universal values  | Two years  | forest conservation institute       | universal values are the heart<br>of the site, so their integrity<br>must be vital to the state party.   |
|--------------|--|---|--|-------------------------------------|--|
| 10           | Monitoring   |   |  |                                     |  |
| 10.1         | There is a <b>small</b><br>amount of<br>monitoring at<br>the World<br>Heritage<br>property, but it<br>is not planned | several institutional efforts have<br>been made to monitor threats,<br>however this monitoring is not<br>systematized and needs greater<br>support. | every year certain<br>efforts are made mostly<br>by satellite. | Forest Conservation Institute (ICF) | many of the monitoring actions are for<br>reaction to a crime, for this reason we<br>need a well-structured planning<br>promoted by all the actors involved. |
| Summary - Ma | anagement Needs  | s completed   |  |                                     |  |

#### 12.3. Conclusions on the State of Conservation of the Property

**12.3.1 - Following the analysis undertaken for this report, what is the current state of Authenticity of the World Heritage property?** The Authenticity of the World Heritage property **has been seriously compromised** by factors described in this report

**12.3.2** - Following the analysis undertaken for this report, what is the current state of Integrity of the World Heritage property? The Integrity of the World Heritage property has been seriously compromised by factors described in this report

# 12.3.3 - Following the analysis undertaken for this report, what is the current state of the World Heritage property's Outstanding Universal Value?

The World Heritage property's Outstanding Universal Value has been seriously impacted by factors described in this report, but this situation can be addressed, or is currently being addressed through management actions.

#### 12.3.4 - What is the current state of the property's other values?

Other important cultural and/or natural values are being degraded and have had an impact on the state of conservation of the World Heritage property

#### 12.3.5 - Comments. conclusions and/or recommendations related to the state of conservation of the property.

without a doubt, the state of conservation of the universal exceptional values of the good in this in danger due to the multiple threats existing in the area such as: extensive livestock, deforestation, drug trafficking and illegal land grabbing among others, the effective participation of all state entities is vital to stop these serious threats, community participation is also essential in this process.

#### 13. Impact of World Heritage Status

#### 13.1 - Please rate the impacts of World Heritage status of the property in relation to the following areas

| Conservation   | Very positive |
|--|---------------|
| Research and monitoring  | Positive      |
| Management effectiveness                                       | Very positive |
| Quality of life for local communities and indigenous peoples   | No impact     |
| Recognition  | Positive      |
| Education  | No impact     |
| Infrastructure development                                     | No impact     |
| Funding for the property                                       | Positive      |
| International cooperation                                      | Very positive |
| Political support for conservation                             | No impact     |
| Legal/Policy framework   | Positive      |
| Advocacy   | Positive      |
| Institutional coordination                                     | Very positive |
| Security   | Positive      |
| Gender equality  | No impact     |
| Provision of ecosystem services/ benefits to local communities | No impact     |

| Social inclusion and equity, and improvement of opportunities for all, irrespective of age, sex, disability, ethnicity, origin, religion, or economic or other status | No impact      |
|---|----------------|
| Fostering inclusive local economic development and enhancing livelihood   | Positive       |
| Contributing to conflict prevention, including respect for cultural diversity within and around heritage properties   | No impact      |
| Other   | Not applicable |
| If 'Other', please specify  |                |

#### 13.2 - Comments, conclusions and/or recommendations related to World Heritage status and its impacts

the condition of the heritage is in a precarious situation as a result of the multiple threats but especially as a result of the invasions and illegal land grabbing, extensive cattle ranching and narco activity, for these enormous threats the eyes of the region are on the stio of heritage and at least the news is coming to light and perhaps with that you have all the necessary support especially the will the policy we so desperately need.

#### 14. Good Practice in the Implementation of the World Heritage Convention

### 14.1 - Example of good practice in World Heritage protection, identification, conservation or management at the property level

at present the most urgent thing in the heritage site 196 is the control and surveillance, and without a doubt the coercive actions, patrols in dangerous areas is the most urgent need to stop the degradation of the good, after that we can think about conservation actions with the communities and in the end develop scientific research for the monitoring of exceptional universal values, another need is the issue of training in management of the patrominio, since due to the overlap of denominations that exists in Río Plátano we have not managed the heritage site in the best way, and this is obviously as a result of the little training in the subject, although as administrators of the site we have been coordinating with the Regional Center of World Heritage of Zacatecas, Mexico, with them we have coordinated some specific activities.

#### 14.2 - Define which topics are covered by this example of best practice at the property level

| Sustainable Development |  |
|-------------------------|--|
| Synergies               |  |
| State of Conservation   |  |
| Management              |  |
| Governance              |  |
| Capacity Building       |  |
|                         |  |

## 15. Assessment of the Periodic Reporting Exercise

#### 15.1. Relevance of Periodic Reporting

#### 15.1.1 - Has the Periodic Reporting process improved the understanding of the following?

| The World Heritage Convention |
|-------------------------------|
|-------------------------------|

The concept of Outstanding Universal Value

The property's Outstanding Universal Value

Management effectiveness to maintain the Outstanding Universal Value

Monitoring and reporting

# 15.1.2 - Please rate the follow-up to conclusions and recommendations from previous Periodic Reporting exercise by the following entities

| State Party                            | Fair |
|--|------|
| Site Managers                          | Fair |
| UNESCO World Heritage Centre           | Fair |
| Advisory Bodies (ICOMOS, IUCN, ICCROM) | Fair |

#### 15.2. Use of Data

#### 15.2.1 - How do the authorities in charge of the property plan to use the data recorded from this cycle of Periodic Reporting?

Revision of priorities/strategies/policies for the protection, management and conservation of heritage

Update of management plans

Fundraising

#### 15.2.2 - Comments on use of data from the Cycle of Periodic Reporting

the results should be used to try to increase efforts to protect the good and thereby improve the governance of the territories where the heritage site is overlapped.

15.3. Timing and resources

15.3.1 - Entities involved in the filling out of this online questionnaire (tick as many boxes as applicable)

**15.3.2** - Has a gender balanced contribution and participation been considered in the filling out of this questionnaire? Gender balance has **not been explicitly** considered or implemented in the process.

15.3.3 - Were you given adequate time (i.e. roughly ten months) to gather necessary information and to fill in this questionnaire? No

#### 15.3.4 - Please estimate the time (working hours) needed to complete this questionnaire

40 hours / 40 hours / 80 hours /

#### 15.3.5 - Did you mobilise any additional resources to fill out this questionnaire?

|          | Additional resources   | No | Yes |
|----------|--|----|-----|
| 15.3.5.1 | Human resources  |    | ×   |
| 15.3.5.2 | Financial resources for organizing consultation meetings/ training | ×  |     |

#### 15.4. Format and content of the Periodic Report

### 15.4.1 - How accessible was the information required to complete this questionnaire?

All required information was accessible.

#### 15.4.2 - Was the questionnaire easy to use and clear to understand?

|          |                              | Very Difficult | Difficult | Easy | Very easy |
|----------|------------------------------|----------------|-----------|------|-----------|
| 15.4.2.1 | Ease of use of questionnaire |                |           |      | ×         |
| 15.4.2.2 | Clarity of questions         |                |           | ×    |           |

#### 15.4.3 - Please provide suggestions for improvement of the Periodic Reporting questionnaire

in general the questionnaire is very complete and understandable, however we believe that it should be more friendly in its structure and way of filling, for example we see very high the number of questions and many of them are very similar and repetitive so we suggest reducing the number of questions, on the other hand it would also be interesting to be able to download the questionnaire to work on it without having access to the network, as that is what has greatly delayed the completion of this questionnaire

#### 15.5. Training and Guidance

#### 15.5.1 - Please rate the level of support in terms of training and guidance from the following entities in completing this questionnaire

| UNESCO World Heritage Centre         | Poor |
|--------------------------------------|------|
| UNESCO (other sectors/field offices) | Poor |
| UNESCO National Commission           | Poor |
| ICOMOS International                 | Poor |
| IUCN International                   | Poor |
| ICCROM international/regional        | Poor |
| ICOMOS national/regional             | Poor |
| IUCN national/regional               | Poor |

#### 15.5.2 - Please rate the level of support for completing the Periodic Reporting questionnaire from the following entities

| UNESCO World Heritage Centre                      | Poor |
|---|------|
| State Party Representative (national Focal Point) | Fair |
| UNESCO other sectors (e.g. field office)          | Poor |
| National Commission for UNESCO                    | Poor |
| ICOMOS International                              | Poor |
| ICCROM International/regional                     | Poor |
| ICOMOS national/regional                          | Poor |
| IUCN national/regional                            | Poor |
| IUCN International                                | Poor |

# 15.5.3 - Were the online training resources prepared by the World Heritage Centre regarding Periodic Reporting adequate for you to complete this questionnaire?

Not applicable (i.e. I did not use these resources)

#### 15.5.4 - If you found that the online training resources were not adequate, what changes would you like to see implemented?

15.6. Actions that will require formal consideration by the World Heritage Committee

### 15.6.1 - Summary of actions that will require formal consideration by the World Heritage Committee

#### • Map(s)

Reason for update: we understand that the site map 196 that exists in the archives of UNESCO is a kind of sketch, for this reason it is necessary to upload an updated map with all its well-defined limits and overlapping with the other territories, macrozones, municiwe understand that the site map 196 that exists in the ARCHIVES of UNESCO is a kind of sketch, for this reason it is necessary to upload an updated map with all its well-defined limits and overlapping with is necessary to upload an updated map with all its well-defined limits and overlapping with the other territories, macrozones, municiwe understand that the site map 196 that exists in the ARCHIVES of UNESCO is a kind of sketch, for this reason it is necessary to upload an updated map with all its well-defined limits and overlapping with the other territories and departments.

Changes to these items will need to go through the proper processes.

15.7. Comments, conclusions and/or recommendations related to the Assessment of the Periodic Reporting Exercise

#### 15.7.1 - Comments, conclusions and/or recommendations related to the Assessment of the Periodic Reporting Exercise

the exercise is very good, however in the case of Rio Plátano we did not have the necessary time to fill it out, since when the transition of the government authorities appeared, it substantially delayed the arrival of the questionnaire to the administrator of the site.

#### 15.7.2 - Thank you for having filled in all the questions. Please contact your National Focal Point for validation.
