### Comment

We noticed some mismatches between the data above indicated and the data stated in the Decision of Inscription and on the WHC website. For all IDs, in the column "ID": to correct "712bis" instead of "712". For ID 712bis-001: enter Buffer zone data (ha): 100.80. The perimeter of the components, carried out with the recent Geographic Information Systems, requires small dimensional changes. The validation of the new cartographic data is ongoing.

## Comment

There is the intention to present a Minor Modification procedure to correct the perimeter for the component "712bis-001", including "Arco delle Scalette" which is one of the 23 monuments inscribed. The perimeter of the components, carried out with the recent Geographic Information Systems, requires small dimensional changes. The validation of the new cartographic data is ongoing.

# 3. Statement of Outstanding Universal Value

## 3.1 - Statement of Outstanding Universal Value for the property as adopted by the World Heritage Committee

### Statement of Outstanding Universal Value

#### Brief synthesis

The city of Vicenza and the Palladian villas of the Veneto is a serial site including the city of Vicenza and twenty-four Palladian villas scattered in the Veneto area. Inscribed on the World Heritage List in 1994, the site initially comprised only the city of Vicenza with its twenty-three buildings attributed to Palladio, as well as three villas *extra muros*. Twenty-one villas located in several provinces were later included in the 1996 site extension.

Founded in the 2nd century BC in northern Italy, Vicenza prospered under Venetian rule from the early 15th to the end of the 18th century. The work of Andrea Palladio (1508–80), based on a detailed study of classical Roman architecture, gives the city its unique appearance. The *palazzi*, or town houses, were fitted into the urban texture of the medieval city, creating picturesque ensembles and continuous street facades in which the Veneto Gothic style combines with Palladio's articulated classicism.

The definitive Palladian country villa synthesizes, both figuratively and materially, the functional aspects of management of the land and the aristocratic self-glorification of the owner. Its core is the house-temple, embellished with a monumental staircase and crowned by a pediment supported by columns of the loggia. Porticos extend alongside the wings starting from the main building, and often end with towers. The different components are linked by a common classical language and are ordered according to a well-defined hierarchy.

Vicenza is widely, and with justification, known as *la città di Palladio*. However, he was the central figure in an urban fabric that stretches back to antiquity and forward to Neoclassicism. As such, Vicenza has acquired a world status that has long been recognized and reflected in the literature of architectural and art history. Basing his works on intimate study of classical Roman architecture, Palladio became the inspiration for a movement without parallel in architectural history.

Vicenza, birthplace of this movement, retains many of Palladio's original buildings and as such is a unique survival of a total humanist concept based on a living interpretation of antiquity. The property extends the recognition of the Outstanding Universal Value of the work of Andrea Palladio to the other manifestations of his creative genius in the Veneto region, covering his versatility in applying his principles to rural as well as urban contexts.

**Criterion (i):** Vicenza represents a unique artistic achievement in the many architectural contributions of Andrea Palladio, integrated within its historic fabric and creating its overall character. Scattered in the Veneto, the Palladian villas are the result of this Renaissance master's architectural genius. The numerous variations

of the villa pattern are evidence of Palladio's constant typological experimentation, carried out by means of the reworking of classical architecture patterns.

**Criterion (ii):** Palladio's works in the city of Vicenza and in the Veneto, inspired by classical architecture and characterized by incomparable formal purity, have exerted exceptional influence on architectural and urban design in most European countries and throughout the world, giving rise to Palladianism, a movement named after the architect and destined to last for three centuries.

### Integrity

The property is composed of several elements, all showing its exceptional value: the perimeter includes the city of Vicenza with its twenty-three most representative Palladian buildings erected in the urban area and twenty-four of the most representative extra-urban villas. The 21st-century industrial development resulted in a strong transformation of the areas surrounding the city, affecting the original relationships between city and countryside. The villas have kept their integrity and are well preserved, within a territorial context which underwent several changes and for this reason was excluded from the site perimeter. Various parts of the property have been exposed to development pressures and the impact of agricultural and forestry regimes. There is some risk of flooding but these issues are being addressed by the property managers.

### Authenticity

When applied to an urban area, authenticity includes a consideration of the urban structure, the form of the individual buildings that make up the townscape, the use of traditional building materials and techniques, and the functions of the buildings. In these terms Vicenza as a whole has preserved its authentic character, especially in relation to *la città di Palladio*.

The form of Palladio's buildings is documented in his *Quattro Libri dell'architettura* (1570) and it has changed relatively little since they were constructed in the 16th century. The function of many of the palaces in Vicenza has changed from domestic to commercial, with consequent internal changes. The urban fabric of the city has undergone remarkably little change, and still retains the historic townscape known from early engravings.

The authenticity of the villas is also high. Detailed archival, technical and scientific studies have aimed at identifying the original forms of the villas. From these, it has been possible to specify the appropriate materials and techniques for use in restoration and conservation projects.

### Protection and management requirements

The protection of the site is guaranteed by several legal measures of protection. The Palladian buildings in Vicenza and the Palladian Villas listed in the property are all protected under the Decreto Legislativo 42/2004, Codice dei Beni Culturali e del Paesaggio: a safeguarding measure which ensures any activity on the site must be authorized by the relevant *Soprintendenza* (local office of the Ministry for Cultural Heritage and Activities).

Special protection plans applied to all the buildings ensure careful preservation, according to the theoretical principles of restoration works. The urban planning tool for the city of Vicenza has defined some special measures for the preservation of the twenty-three Palladian buildings located in the historic centre.

The site Management Plan was developed by several public and private institutions. The UNESCO office, set up inside the Municipality of Vicenza, takes care of technical and administrative aspects and is charged with the monitoring of the site Management Plan. Given the site's complexity, the general coordination is shared between the Ministry of Culture and the Veneto Region, while the Province of Vicenza coordinates provinces and municipalities. The coordination system aims to overcome the fragmentation of initiatives, fostering synergetic relationships between institutions.

The principal aims of the Management Plan are to recover and revitalize the urban image, characterized by a strong Palladian mark, through the definition of intervention priorities inside the historical centre and the buffer zone, to restore and preserve the villas and the surrounding open spaces, and to define a study for identifications of buffer zones around the villas. It encourages the growth of awareness of heritage value in the local population by means of spreading knowledge and allowing participation in the choices and the management of the heritage. As well, the management plan defines further actions for the UNESCO site, aimed to support its successful management, such as improvement of accommodation and leisure facilities and initiatives, and also of infrastructure and transport systems.

### 3.2 - Please list the key attributes of Outstanding Universal Value of your property and give an assessment of their condition. As a guideline, it is suggested to focus on approximately five key attributes (no more than 15 overall).

	Brief identification of attribute	Preserved	Compromised	Seriously compromised	Lost
3.2.1	Urban fabric of Vicenza's historic centre	✗			
3.2.2	Twenty-three Palladio's buildings with related views and facades integrated within Vicenza's historic fabric	✗

#### 5. Protection and Management of the Property

##### 5.1. Boundaries and Buffer Zones

###### 5.1.1 - Are the boundaries of the World Heritage property adequate to maintain the property's Outstanding Universal Value?

The boundaries **do not limit the ability to maintain** the property's Outstanding Universal Value but they **could be improved**

###### 5.1.2 - Are the boundaries of the World Heritage property known and recognised?

The boundaries **are known by both** the management authority and local communities/landowners

###### 5.1.3 - Are the buffer zone(s) of the World Heritage property adequate to maintain the property's Outstanding Universal Value?

**Inadequacies** in the buffer zones **make it difficult** to maintain the property's Outstanding Universal Value

###### 5.1.4 - Are the boundaries of the buffer zones known and recognised?

The buffer zones of the World Heritage property **are known and recognised by both** the management authority and local communities/landowners

###### 5.1.5 - Comments, conclusions and/or recommendations related to boundaries and buffer zones of the World Heritage property

There is the intention to apply for a Minor Boundary Modification procedure to correct the perimeter of asset "712bis-001" (City of Vicenza), including "Arco delle Scalette" which is part of the site. Buffer Zone: studies are underway for an extension of the buffer zone of the "712bis-001" (City of Vicenza) and for the definition of the buffer zones for the villas, currently missing.

##### 5.2. Protective Measures

###### 5.2.1 - Protective designation (legal, regulatory, contractual, planning, institutional and/or traditional).

With regards to territorial planning, Regional Authority of the Veneto has set down a Piano Territoriale Regionale di Coordinamento (P.T.R.C.- Regional Territorial Plan of Co-ordination) approved in 1992 under the existing Regional Urban Law 61/85, which also has its effects on landscape planning. The procedure to update the plan has been started, moreover so as to meet the new Regional Urban Law 11/04 this plan sets out general guidelines for the protection of the main historic centres, including Vicenza, and of communities dispersed throughout the territory having a historic – architectural property, such as the villas.

At regional level a specific legislation is under approval for the protection of landscape contexts around the Palladian villas. At provincial level the land planning rules the Palladian villas figurative context. It was introduced the unbuilding indirect monumental restriction for the landscape context (Valletta del Silenzio) around Villa Capra. In Vicenza, the use of public spaces (squares, green areas) of the historical centre was regulated.

Other regional planning tools, aimed at protecting and promoting especially valuable cultural and landscape zones are the Piani d'Area – Area Plans. Some of these include properties listed in the WHL: Piano d'Area della Laguna e dell'Area Veneziana (P.A.L.A.V. – Area Plan for the Venice Lagoon and Venice Area), has been approved and covers Villa Malcontenta at Mira (VE); the Piano d'Area dei Monti Berici (P.A.M.O.B. – Area Plan for the Berici Hills) has also been approved, covering part of the city of Vicenza, with its outstanding landscape and great characterisation of the image of its historic centre, and what's more directly involves Villa Almerico Capra (la Rotonda) and Arco della Scalette.

The heritage buildings listed in the site all have planning restrictions for monument protection under the Legislative Decree 22 January 2004, n°42 - *Cultural Heritage and Landscape Code*. This Statutory regulation has adjusted and updated previous legislation protecting cultural and landscape heritage, adding the management and valorisation objectives to the traditional concept of protection, which nevertheless remains the priority requirement over all action related to cultural heritage. Restriction decrees concerning buildings belonging to the site have been implemented under the previous regulations and their effect has been confirmed by the current Cultural Heritage and Landscape Code. In many cases the villas fall under specific landscape protection restrictions, these again are covered by the Cultural Heritage and Landscape Code: e.g. Villa Almerico Capra at Vicenza, Villa Barbaro at Maser, Villa Emo at Fanzolo di Vedelago, Villa Zen at Cessalto, Villa Pojana at Pojana Maggiore.

The town urban planning tools usually place the WHL listed buildings under specific protection restrictions, in accordance with the restrictions prescribed by the Cultural Heritage and Landscape Code, and in some cases they even extend the protection over those given by the restriction regulations. A brief outline of the urban planning regulations concerning the listed buildings is given below:

- The 23 buildings in the historic centre of Vicenza fall within zone RSA1 (Historic Centre) and come under the provisions of the Piano Particolareggiato per il Centro Storico (Detailed Plan for the Historic Centre) that classifies all of them as monumental buildings, ensuring their conservation.
- The 3 villas located within Municipality of Vicenza territory are all classified as Historic – architectural heritage, which guarantees their conservation and an adequate protective girdle.
- Villa Angarano at Bassano del Grappa (VI): the area falls under building restriction.
- Villa Caldogno at Caldogno (VI): area under planning restriction.
- Villa Badoer at Fratta Polesine (RO): the building is protected as historic zone. The surrounding area falls under building restriction.
- Villa Godi Malinverni and Villa Piovene at Lonedo di Lugo di Vicenza (VI): the area of the two villas is under planning restrictions, while a large area around them falls under an environmental and landscape restriction and building is prohibited.
- Villa Barbaro at Maser (TV): current urban regulations ensure the villa is protected and safeguarded.
- Villa Forni Cerato at Montebelluna (TV): building restrictions in the surrounding area.
- Villa Thiene at Quinto Vicentino (VI): the area is under planning restriction.
- Villa Serego at Santa Sofia di Pedemonte (VR): a protective wedge of the view of the villa with building restrictions.

Villa Emo at Fanzolo di Vedelago (TV): protective restrictions complying with heritage building protection.

## Comment

In June 2020, the Veneto Region approved the new P.T.R.C. in compliance with the new Regional Urban Planning Law 11/2004, which represents the instrument of territorial government. At the provincial level, the Territorial Coordination Plans are defined which outline the objectives and the fundamental elements of the organization and protection of the provincial territory, while at the municipal level the objectives of protection and enhancement are pursued through the Municipal Regulatory Plan.

### 5.2.2 - Please list any legislation and other measures (regulatory -including spatial planning- contractual, institutional or traditional) not included in 5.2.1 and indicate the category

### 5.2.3 - Is the legal framework (i.e. legislation and/or regulation including spatial planning) adequate for maintaining the Outstanding Universal Value including conditions of Integrity and/or Authenticity of the property?

An **adequate legal framework** for maintaining of the Outstanding Universal Value including conditions of Authenticity and/or Integrity of the World Heritage property exists **but there are some deficiencies in implementation**

### 5.2.4 - Is the legal framework (i.e. legislation and/or regulation) adequate in the buffer zone for maintaining the Outstanding Universal Value including conditions of Integrity and/or Authenticity of the property?

An **adequate legal framework** in the buffer zone for maintaining the Outstanding Universal Value including conditions of Authenticity and/or Integrity of the World Heritage property exists **but there are some deficiencies in implementation**

### 5.2.5 - Is the legal framework (i.e. legislation and/or regulation) in the broader setting of the World Heritage property adequate for maintaining the Outstanding Universal Value including conditions of Integrity and/or Authenticity of the property?

The **legal framework** for the broader setting of the World Heritage property is **inadequate** to ensure the maintenance of the Outstanding Universal Value including conditions of Authenticity and/or Integrity of the property

### 5.2.6 - Can the legal framework (i.e. legislation and/or regulation) be enforced?

There is **acceptable capacity/resources** to enforce legislation and/or regulation in the World Heritage property but some deficiencies of enforcement remain

### 5.2.7 - Please provide a short summary of how the legislation, including spatial planning and other regulation, works in practice

All the historic buildings on the site are protected by Legislative Decree no. 42/2004. With respect to Article 45 of the Code, the buffer area subject to indirect protection of 712bis-023/007/012/006 (in progress) should be noted. In addition to the constraints dictated by the Regional and Provincial planning, and in compliance with the legislation of Legislative Decree n.42/2004, at the Municipal level, the uncovered appurtenances to be protected have been implemented (712bis-002/024/010).

### 5.2.8 - Comments, conclusions and/or recommendations about the information related to the measures taken to protect the World Heritage property

The implementation of the rules for the protection and governance of transformations on an urban and territorial scale is expected to respond to the WHC /ICOMOS recommendations envisaged in the SoC procedure.

## 5.3. Management System/Management Plan

### 5.3.1 - Please check the box which most closely match the character of the governance and management system of the property

## 6. Financial and Human Resources

### 6.1. Funding

**6.1.1 - If your funding sources do not exactly fit those shown, put the relevant amounts against the funding type that most closely represents your situation, and use the comment box below to provide more details.**

		Project costs	Running costs
6.1.1.1	Multilateral funding (GEF, World Bank, etc.)	%	%
6.1.1.2	Bilateral international funding	80 %	%
6.1.1.3	World Heritage Fund (International Assistance)	%	%

6.1.1.12	Other	%	10 %
		Total 100 %	Total 100 %

### 6.1.2 - Please comment here on any other aspects of funding sources not covered in the table above

The running costs are on the municipality of Vicenza as Site Manager and on the private owners of the palladian works. Due to the lack of detailed information about the budgets devoted to the site, a survey was among public authorities and private owners. The estimation is based on more than 6 million euros worth assignment in the last two years, from the following funds: Italian Law no. 77/2006 and Italian National Recovery and Resilience Plan deriving from EU funds.

### 6.1.3 - Is the current budget sufficient to manage the World Heritage property effectively?

The available **budget is acceptable** but **could be further improved** to fully meet the management needs

### 6.1.4 - Are the existing sources of funding secure and likely to remain so?

The existing sources of funding are **not secure**

### 6.1.5 - Comments, conclusion, and/or recommendations related to finance and infrastructure

Conservation expenses fall on the owners (public and private ones), there is no endowment for the site as a whole, funds are not subject to a proper multiannual and continuative programming, economic resources are invested on an occasional bases (private sponsorships, funds from the Municipality of Vicenza, grants allowed after applying to private and public calls).

### 6.1.6 - Estimate the distribution of men and women involved in the management, conservation, interpretation of the World Heritage properties and the extent to which they are drawn from local communities.

		From local communities %	From elsewhere %
6.1.6.1	Men	50 %	50 %
6.1.6.2	Women	50 %	50 %
		Total 100 %	Total 100 %

### 6.1.7 - Are available human resources adequate to manage the World Heritage property?

Human resources **partly meet** the management needs of the World Heritage property

### 6.1.8 - Considering the management needs of the World Heritage property, please rate the availability of professionals in the following disciplines

Conservation	Fair
Environmental sustainability	Poor
Community participation and inclusion	Poor
Risk preparedness	Poor
Capacity development and education	Poor

Administration	Fair
Research and monitoring	Fair
Awareness raising and public information/communication	Poor
Marketing and promotion	Fair
Interpretation	Poor
Visitor management/tourism	Fair
Enforcement (custodians, police)	Fair

#### 6.1.9 - Please rate the availability of training opportunities for the management of the World Heritage property in the following disciplines

Conservation	Good
Environmental sustainability	Fair
Community participation and inclusion	Poor
Risk preparedness	Fair
Capacity development and education	Fair
Administration	Fair
Research and monitoring	Good
Awareness raising and public information/communication	Fair
Marketing and promotion	Good
Interpretation	Poor
Visitor management/tourism	Fair
Enforcement (custodians, police)	Fair

#### 6.1.10 - Has any use been made of the World Heritage Strategy for Capacity Building at the property?

Some use has been made of the World Heritage Strategy for Capacity Building

#### 6.1.11 - If the World Heritage Strategy for Capacity Building has been used, please briefly describe what has been done.

The 2007 management plan included actions for strengthening management skills in many of the aforementioned fields. The analysis of the state of implementation shows there is no evidence of relevant impacts of the global strategy of capacity building. The ongoing update of the plan is going to consider the need for capacity building in diverse sectors.

#### 6.1.12 - Are there site-specific capacity building plans or programmes that develop local expertise and that contribute to the transfer of skills for the conservation and management of the World Heritage property?

There is **no site-based** capacity building plan or programme in place; management is implemented by external staff and skills are not transferred

#### 6.1.13 - Comments, conclusions and/or recommendations related to human resources, expertise and training

It's necessary to invest on human resources to face management priority needs as well as to enhance skills and know-hows regarding the site, both while drafting the plan and designing action plans and on the concrete implementation of the WHConvention at site level. A specific capacity building programme is ongoing in the framework of the Management Plan updating.

### 7. Scientific Studies and Research Projects

#### 7.1 - Is there adequate knowledge (scientific or traditional) about the values and attributes of the World Heritage property to support planning, management and decision-making to ensure that Outstanding Universal Value is maintained?

Knowledge about the values and attributes of the World Heritage property is **acceptable** for most key areas but there are gaps

#### 7.2 - Is there a planned programme of research at the property which is directed towards management needs and/or improving understanding of Outstanding Universal Value?

There is **considerable research** but it is **not directed towards management needs and/or improving understanding of Outstanding Universal Value**

#### 7.3 - Are results from research programmes publicly available and disseminated?

Research **results are shared** with local communities and partners **but there is no active outreach** to national or international agencies

#### 7.4 - Comments, conclusions and/or recommendations related to scientific studies and research projects

The considerable research programme and huge scientific studies in place should be better enhanced in management issues and further integrated with the significance of the World Heritage designation.

### 8. Education, Information and Awareness Building

#### 8.1 - Please rate the awareness and understanding of the existence and justification for inscription of the World Heritage property

amongst the following groups

Local communities	Fair
Local/municipal authorities	Good
Indigenous peoples	Not applicable
Landowners	Good
Women	Not applicable
Youth/children	Fair
Researchers	Good
Local visitors	Fair
National/international tourists	Good
Tourism industry	Good
Local businesses and industries	Fair

Other specific groups	Not applicable
If you selected 'Other specific groups', please describe	

**8.2 - Does the property have a heritage education programme(s) for children and/or youth, that can contribute to a better understanding of heritage, promote diversity and foster intercultural dialogue?**

There is a **limited and ad hoc education** and awareness programme for children and/or youth

**8.3 - Who are the target audiences for education and awareness programmes at your property?**

Local communities
Local/municipal authorities
Landowners
Youth/children
Researchers
Local Visitors
National/international tourists
Tourism industry
Local businesses and industries
NGOs

**8.4 - Please rate the adequacy of the following visitor facilities and services at the World Heritage property for education, information, interpretation and awareness building**

Visitor centre	Not needed
Site museum	Good
Information booths	Poor
Guided tours	Good
Trails/routes	Fair
Printed information materials	Fair
Online (website, social media, etc.)	Fair
Transportation facilities	Not provided but needed
Other	Not needed
If 'Other' is selected, please specify	

## 8.5 - Comments, conclusions and/or recommendations related to education, information and awareness building

Many projects are underway to raise the awareness of visitors, students, children and experts in the sector, on the importance of the works of A. Palladio and his influence (e.g. CISA Palladio, Consorzio Vicenzaè, individual initiatives of private owners, activities didactics with schools, etc.).

## 9. Visitor Management

### 9.1 - Please provide estimated annual visitor numbers (including national and international visitors) since the last Periodic Report

398.170 visitors to the site / 408.088 tourist arrivals / 213.905 visitors to the site / 270.946 tourist arrivals / 173.808 visitors to the site / 181.207 tourist arrivals / 374.311 visitors to the site / 542.926 tourist arrivals / 941.614 visitors to the site / 521.379 tourist arrivals /

### 9.2 - What information sources are used to collect visitor statistics?

Other

For visitors to the site: approximation based on entry tickets and registries provided by the Municipality of Vicenza for the Civic Museums (Basilica Palladiana, Palazzo Thiene, Palazzo Chiericati, Teatro Olimpico), Istat surveys on museums and similar institutions (Palladio Museum and Villas Emo, La Malcontenta, Caldogno, Thiene, Pojana, Pisani, Trissino, Gazzotti Grimani) and National Statistics System (Barchesse Villa Badoer in Fratta Polesine). Please note that data is not exhaustive. For tourist arrivals: Regional Statistics System of Veneto.

### 9.3 - What is the average length stay of a visitor to the World Heritage property?

Two overnight stays

### 9.4 - Please provide the source of information

The average stay of tourists in the municipalities within the site is of 2.96 overnight stays. Please note that some monuments and villas of the site are open to cultural and tourist visit, some others are open to private events and some function as accommodation facilities.

### 9.5 - What is the approximate average daily visitor expenditure? (Please provide an estimated monetary figure in USD)

104 USD /

### 9.6 - Please provide the source of information

Hospitality Data Intelligence for Veneto Region. Provided data refer to the average expenditure for a room in the art cities of the region (95.2 euros 2018 to 2022). No other data is available.

### 9.7 - Does the management system/plan for the World Heritage property include a strategy with an action plan to manage visitors, tourism activity and its derived economic, socio-cultural and environmental impacts?

There is a **strategy** to manage visitors, tourism activity and its derived impacts on the World Heritage property but there are **some deficiencies in implementation**

### 9.8 - Please provide any comments relating to the answer provided above in question 9.7

The Site Management Plan is being updated and will include a strategy dedicated to tourism management.

### 9.9 - Is visitor use effectively managed to maintain the Outstanding Universal Value of the property?

There is **some management** of the visitor use of the World Heritage property

### 9.10 - Is the effectiveness of tourism management regularly monitored?

No

If a different system, please specify

### 9.11 - How does the tourism industry cooperate with the site management to improve visitor experiences and maintain the Outstanding Universal Value of the World Heritage property?

There is **limited cooperation** between those responsible for the World Heritage property and the tourism industry to **present the Outstanding Universal Value and increase appreciation**

### 9.12 - How well is the information on the Outstanding Universal Value of the property presented and interpreted?

The presentation and interpretation of the Outstanding Universal Value of the property is **acceptable but improvements could be made**

### 9.13 - At how many locations is the World Heritage emblem displayed at the property?

In **many locations**, but **not easily visible** to visitors

### 9.14 - How does visitor/tourism revenue (e.g. entry charges, permits) contribute to the management of the World Heritage property?

**Fees are collected**, and make **some contribution** to the management of the World Heritage property

### 9.15 - Are there locally driven sustainable tourism initiatives?

Yes

If 'Yes', please specify

The "Palladian e-bike Experience" is driven by a network of local entrepreneurs and public entities. It is an example of a tourist offer for sustainable mobility in cultural experience.

### 9.16 - Are the benefits of tourism shared with local communities?

Yes

If 'Yes', please specify

Businesses in the tourism and accommodation sectors are predominantly locally owned. Locals strongly identify with the Palladian heritage.

## 9.17 - Comments, conclusions and/or recommendations related to visitation/tourism/public use of the World Heritage property

9.1.1 Later visitors' numbers have been affected by the pandemic. 9.7. Verification of potential impacts on public spaces should be improved. 9.9 Italian legislation on cultural heritage ensures maximum protection. Vicenza and nearby areas don't show a strong tourist pressure, therefore visitors are an opportunity more than a threat. 9.10 There is no evidence of a structured monitoring. 9.13 Outdoor signage is frequently inconsistent and overlap.

## 10. Monitoring

### 10.1 - Is there a monitoring programme at the property directed towards management needs and/or towards improving the understanding of the Outstanding Universal Value?

There is a **small amount of monitoring**, but it is not planned

### 10.2 - Is necessary information available in order to define key indicators for measuring the state of conservation and are they used in monitoring how the Outstanding Universal Value of the property is being maintained?

Information on the values of the World Heritage property is **sufficient to define key indicators**, but this has not been done

### 10.3 - Are key indicators defined and in place for the following principal aspects of the property?

	Extend of indicators	Not applicable	No indicators	Indicators have been defined but are not yet in use	Indicators are in place and in use since the last Periodic Reporting cycle
10.3.1	State of conservation		✗		
10.3.2	Effectiveness of the management system		✗		
10.3.3	Character of governance		✗		
10.3.4	Appropriate synergy with other conservation designations		✗		
10.3.5	Contribution to sustainable development		✗		
10.3.6	Capacity development		✗		

### 10.4 - Please provide information on relevant key indicators adopted at the property

The current Management Plan approved in 2007 has not defined key indicators. The Management Plan is being updated which will identify key indicators for the issues indicated above through the definition of an overall monitoring system.

### 10.5 - Please rate the level of involvement in monitoring of the following groups:

World Heritage managers/coordinators and staff	Fair
Local/municipal authorities	Poor
Local communities	Non-existent
Indigenous peoples	Not applicable
Landowners	Non-existent
Women	Not applicable
Researchers	Non-existent

#### 15.6. Actions that will require formal consideration by the World Heritage Committee

##### 15.6.1 - Summary of actions that will require formal consideration by the World Heritage Committee

- **Name of World Heritage property**

Reason for update: In the document "Decision 20 COM VIII.C" the name of the Property indicated is: "The City of Vicenza and the Palladian Villas of the Veneto".

- **Geographic information table**

Reason for update: We noticed some mismatches between the data above indicated and the data stated in the Decision of Inscription and on the WHC website. For all IDs, in the column "ID": to correct "712bis" instead of "712". For ID 712bis-001: enter Buffer zone data (ha): 100.80. The perimeter of the components, carried out with the recent Geographic Information Systems, requires small dimensional changes. The validation of the new cartographic data is ongoing.

- **Map(s)**

Reason for update: There is the intention to present a Minor Modification procedure to correct the perimeter for the component "712bis-001", including "Arco delle Scalette" which is one of the 23 monuments inscribed. The perimeter of the components, carried out with the recent Geographic Information Systems, requires small dimensional changes. The validation of the new cartographic data is ongoing.

Changes to these items will need to go through the proper processes.
