Statement of Outstanding Universal Value****3.1 - Statement of Outstanding Universal Value for the property as adopted by the World Heritage Committee****Statement of Outstanding Universal Value****Brief Synthesis**

The Historic Fortified Town of Campeche, located in the State of Campeche, was founded in the 16th century on the coast of the Gulf of Mexico, in the Maya region of Ah-Kim-Pech by Spanish conquerors. It was the most important seaport at the time and played a major role for the conquest and evangelization of the Yucatan Peninsula, Guatemala and Chiapas. Its commercial and military importance made it the second biggest town in the Gulf of Mexico, after Mérida. Due its port

importance in the sea route: Spain, Havana, Campeche, and Veracruz; as point of embarkation of the natural riches of the peninsula and political differences of the kingdoms of the old continent, ring the second half of the 16th century, Campeche, like other Caribbean towns, was systematically attacked by pirates and corsairs in the pay of enemies of Spain; this is why a large-scale defensive system was installed. This military defensive system for mid-17th century was inadequate and poorly strategic so a new fortification, hexagonal wall, integrating eight bastions, four doors and walls, was authorized, with construction started in 1686 and concluding in 1704. Subsequently, to complete the system of fortifications, the redoubt of San Jose on the east Hill of the village and the redoubt of San Miguel on the west Hill, as well as the batteries of San Lucas, San Matias and San Luis, is mainly in the area of historic monuments, at both ends and facing the sea were constructed.

The sea was the starting point of the Villa of San Francisco of Campeche and the construction of the military defensive system directed the urban growth and the development of this walled and baroque city. An urban chequerboard plan was chosen, with a Plaza Mayor facing the sea and surrounded by government and religious edifices. The walls enclose an irregular hexagon corresponding to the defensive belt encircling the town. The surrounding areas, named barrios, encompass religious buildings, civil and military architecture with Renaissance, Baroque and eclectics characteristics, emphasizing the military. In the 19th century, the town endowed itself with a fine theatre, harmonized with the urban fabric. A section of the wall was pulled down in 1893 to open up a space with a view of the sea, and the main square was turned into a public garden. In the 20th century, the traditional areas of the town centre were little affected by the modernization movement owing to a relative slackening of the economy.

The area of historic monuments is in the shape of an uneven polygon spread over 181 ha, including 45 ha surrounded by walls, with the town stretching out on each side, following the configuration of the coast and the relief. The protected group consists of two subgroups: area A with a high density of buildings of great heritage significance, and area B, which is not so dense but which forms a transitional and protective zone. The almost 1,000 heritage buildings include the Cathedral of the Immaculate Conception, several churches, the Toro theatre and the municipal archives, among others.

**Criterion (ii):** The harbour town of Campeche is an urbanization model of a Baroque colonial town, with its checkerboard street plan; the defensive walls surrounding its historic centre reflect the influence of the military architecture in the Caribbean.

**Criterion (iv):** The fortifications system of Campeche, an eminent example of the military architecture of the 17th and 18th centuries, is part of an overall defensive system set up by the Spanish to protect the ports on the Caribbean Sea from pirate attacks.

#### Integrity

The inscribed property encompasses 181 ha which include all necessary elements to convey the Outstanding Universal Value of the property. The area of historic monuments is a coherent reflection of colonial architecture. The very well conserved system of fortifications illustrates military engineering during the period of Spanish colonialism in the Caribbean. The property maintains good conservation conditions which ensure the physical integrity of heritage buildings.

#### Authenticity

The area of historic monuments and the system of fortifications have a high degree of authenticity because of the small number of transformations and interventions. Restoration works make use of traditional techniques and materials.

The authenticity of the historical centre is, to a large extent, due to the continuity of a traditional family lifestyle, with manifestations of a rich intangible heritage, illustrated by local music, dances, cooking, crafts, and clothes.

#### Protection and management requirements

Legal protection is ensured by the 1972 federal legislation on Monuments and Archaeological Areas and by the application of regulations of 1975 under which all modifications to buildings must receive prior authorization. A Federal Decree of 1986 lists the area of historic monuments of Campeche and places it under the authority of the National Institute of Anthropology and History (INAH), to function as a regulator and to authorize any kind of intervention in historic monuments within the historical monuments area the exterior and interior of the historical monument.

At the state level, the Coordination of Sites and Monuments of the Cultural Heritage of Campeche was created in 1998 for the management and protection of monuments in the city of Campeche. In 2009, the State Secretary of Culture was established, leaving such coordination as sub office working in the dissemination of tangible and intangible heritage activities.

At the municipal level, a number of prescriptions regulate the conditions for carrying out work. Conservation is regulated by the partial plan of development for the municipality of Campeche; The urban director program, the regulation for construction for the municipality of Campeche, updated and published in 2009; the Urban Image for the municipality of Campeche and the Partial program of preservation and improvement of the historical centre and traditional wards of the city of Campeche, published in the "Diario Oficial of the State of Campeche", on 18 March 2005.

Currently, the Congress, through the National Council for Culture and the Arts and the Ministry of Social Development, allocates resources to the municipality for the implementation of projects centred on restoration, improvement of urban infrastructure, urban facilities and services, among others. The city of Campeche manages and administers these resources through the Bureau of Urban Development and the Bureau of Buildings and Services.

It is important to delimit the surrounding areas around the historical monuments of the city of Campeche and protect the traditional neighbourhoods of Santa Ana, Santa Lucia and Chapel, dating from the 16th and 17th centuries which were excluded from the Presidential Decree of 1986. It is also important to establish regulatory measures for the urban corridors that give access to the heritage area, for the improvement and maintenance of the property.

### 5. Protection and Management of the Property

#### 5.1. Boundaries and Buffer Zones

**5.1.1 - Are the boundaries of the World Heritage property adequate to maintain the property's Outstanding Universal Value?**

The boundaries are inadequate to maintain the property's Outstanding Universal Value because some attributes of the property are outside the boundary

**5.1.2 - Are the boundaries of the World Heritage property known and recognised?**

The boundaries are known by the management authority but are not known by local communities/landowners

**5.1.3 - Are the buffer zone(s) of the World Heritage property adequate to maintain the property's Outstanding Universal Value?**

Inadequacies in the buffer zones make it difficult to maintain the property's Outstanding Universal Value

**5.1.4 - Are the boundaries of the buffer zones known and recognised?**

The buffer zones of the World Heritage property are known and recognised by the management authority but are not known by local communities/landowners

**5.1.5 - Comments, conclusions and/or recommendations related to boundaries and buffer zones of the World Heritage property**

Es de importancia crear zonas de amortiguamiento, oficiales, en razón a que existen atributos del Valor Universal Excepcional fuera de la zona núcleo.

#### 5.2. Protective Measures

**5.2.1 - Protective designation (legal, regulatory, contractual, planning, institutional and/or traditional).**

Most of the buildings in the area of historic monuments are privately owned, with a few being publicly owned. Legal protection is ensured by the 1972 federal legislation on Monuments and Archaeological Areas and by its application regulations of 1975 under which all modifications to buildings must receive prior authorization. A Federal Decree of 1986 lists the area of historic monuments of Campeche and places it under the authority of the National Institute of Anthropology and History (INAH). At municipal level, a number of prescriptions regulate the conditions for carrying out work on monuments, and ensure respect for the urban image and various protective measures. An important legal instrument is the *Partial Programme for the Conservation and Improvement of the Area of Historic Monuments*.

**5.2.3 - Is the legal framework (i.e. legislation and/or regulation including spatial planning) adequate for maintaining the Outstanding Universal Value including conditions of Integrity and/or Authenticity of the property?**

The legal framework for maintaining the Outstanding Universal Value including conditions of Authenticity and/or Integrity of the World Heritage property is inadequate

**5.2.4 - Is the legal framework (i.e. legislation and/or regulation) adequate in the buffer zone for maintaining the Outstanding Universal Value including conditions of Integrity and/or Authenticity of the property?**

There is no legal framework in the buffer zone for maintaining the Outstanding Universal Value including conditions of Authenticity and/or Integrity of the World Heritage property

**5.2.5 - Is the legal framework (i.e. legislation and/or regulation) in the broader setting of the World Heritage property adequate for maintaining the Outstanding Universal Value including conditions of Integrity and/or Authenticity of the property?**

The legal framework for the broader setting of the World Heritage property is inadequate to ensure the maintenance of the Outstanding Universal Value including conditions of Authenticity and/or Integrity of the property

**5.2.6 - Can the legal framework (i.e. legislation and/or regulation) be enforced?**

There are major deficiencies in capacity/resources to enforce legislation and/or regulation in the World Heritage property

**5.2.7 - Please provide a short summary of how the legislation, including spatial planning and other regulation, works in practice**

El sitio inscrito, cuenta con un decreto de Zona de Monumentos Históricos, derivado de la Ley Federal sobre Monumentos y Zonas Arqueológicos Artísticos e Históricos, y esta es concurrente a la Ley General de Asentamientos Humanos, Ordenamiento Territorial y Desarrollo Urbano, donde concurre con la federación, estados y municipios en la planeación del territorio nacional y entre ellos los territorios condicionados como reservas para su protección y conservación.

**5.2.8 - Comments, conclusions and/or recommendations about the information related to the measures taken to protect the World Heritage property**

Es importante actualizar o impulsar una agenda a la Ley Federal sobre Monumentos y Zonas Arqueológicos, Artísticos e Históricos donde se aborde el tema de los sitios inscritos en la lista de Patrimonio Mundial y los conceptos de Autenticidad y del Valor Universal Excepcional

## 12. Summary and Conclusions

### 12.1. Summary - Factors affecting the Property

#### 12.1.1 - Summary - Factors affecting the Property

4.1	Buildings and Development						
4.1.4	Major visitor accommodation and associated infrastructure	El paisaje, uso y función	En la actualidad no hay acciones por la autoridad local y estatal para conservar el valor universal excepcional	El monitoreo de visitantes existe, pero no esta relacionado a la gestión de la conservación del bien inscrito.	El registro de visitantes es mensual y anual, pero sobre la infraestructura asociada no existe un registro o control del beneficio que aporte a la conservación del Valor Universal Excepcional.	La autoridad local y estatal no contribuyen al ordenamiento o regulación, principalmente, de la infraestructura y servicios para el turismo.	Falta sensibilidad de los prestadores de servicios turísticos para conocer y conservar el valor universal excepcional del bien inscrito.
4.1.5		Interpretative and visitation facilities					
4.13	Management and institutional factors						

4.13.1	Management system/Management plan	Se afecta el paisaje cultural, usos y función; ha desaparecido el organismo gestor del Estado encargado de la conservación del sitio.	No se ha realizado el plan de manejo, el Instituto Nacional de Antropología e Historia es el gestor que norma la conservación del Sitio, y otras acciones el Ayuntamiento pero no son coordinadas con la Institución Normativa.	La supervisión o monitoreo lo realiza en principio el INAH, y otras áreas administrativas del Ayuntamiento pero no son coordinadas con el INAH.	no existen plazos para el monitoreo entre las instituciones sobre los problemas que presenta el sitio inscrito.	El Instituto Nacional de Antropología e Historia, la Dirección de Desarrollo Urbano y la Dirección de Desarrollo Económico y Turismos Municipal.	Hace falta un organismo gestor que integre a todos los actores municipales, estatales, federales y sociedad civil, relacionados con la conservación del bien inscrito.
4.13.3	Governance	Se afecta el paisaje cultural, uso y función, las tradiciones y sistemas de gestión.	No existen acciones coordinadas entre las instituciones u organismo del municipio, gobierno del estado y federación. El organismo gestor, establecido al momento de la Inscripción desapareció en el año 2015.	En principio la supervisión la realiza el INAH y la Dirección de Desarrollo Urbano del Ayuntamiento, faltando integrarse otros organismos Estatales y Municipales.	El INAH realiza un trabajo constante durante todo el año, al igual que la Dirección de Desarrollo Urbano del Ayuntamiento; faltando los otros organismos estatales y municipales.	Instituto Nacional de Antropología e Historia y la Dirección de Desarrollo Urbano del Municipio.	Existen otros organismos de gobierno del estado, municipio y gobierno federal, que no trabajan coordinadamente con el INAH y la Dirección de Desarrollo Urbano para la conservación del bien inscrito. Desapareció el organismo encargado de gestión.
4.13.5	Financial resources	Se afecta el paisaje cultural, uso, función y sistema de gestión.	Los recurso que se dispone son sólo para las instituciones normativas en la conservación del sitio; pero no hay recursos para el análisis y estudios del Plan de Manejo, y para acciones coordinadas en los tres niveles de gobierno.	No existe supervisión de los recursos que se disponen en beneficio del sitio inscrito.	No existen plazos para el ejercicio de los pocos recursos disponibles o para gestionar recursos en beneficio del sitio inscrito.	Instituto Nacional de Antropología e Historia, Dirección de Desarrollo Urbano; otros organismos municipales, estatales no gestionen recursos para la conservación del bien inscrito.	No se gestionan recursos por el ayuntamiento y gobierno del estado para la conservación del valor universal excepcional y la autenticidad del bien, así como para otros proyectos de infraestructura, servicios, y para la elaboración del plan.
4.13.6	Human resources	Se afecta el paisaje cultural, uso, función y sistema de gestión.	la sociedad civil se organiza para coordinarse con los organismos del gobierno estatal, municipal y federal. Pero no hay acciones encaminadas a integrar a personas interesadas en la conservación del sitio.	No existen acciones de supervisión para integrar a personas interesadas en la conservación del sitio.	No existen plazos y no hay acciones para ello.	Los pocos organismos interesados son la sociedad civil, universidad autónoma de Campeche y el Instituto Nacional de Antropología e Historia	Son muy pocas las personas interesadas en la conservación del Valor Universal Excepcional y Autenticidad del Bien.
4.13.7	Low impact research/monitoring activities	Se afecta el paisaje cultural, uso, función y sistema de gestión.	Publicaciones en temas de los atributos del Valor Universal Excepcional de la autenticidad del bien.	no existe un monitoreo.	No existen plazos para las actividades de investigación,	Instituto Nacional de Antropología e Historia y la Universidad Autónoma de Campeche.	Es importante que otras Instituciones de Educación se involucre, al igual que la sociedad civil y organismos de gobierno municipal y federal, en la investigación y estudio del Valor Universal Excepcional.
