3.1 - Statement of Outstanding Universal Value for the property as adopted by the World Heritage Committee

Statement of Outstanding Universal Value

Brief synthesis

Tabriz Historic Bazaar Complex, located along one of the most frequented east-west trade routes, consists of a series of interconnected, covered brick structures,

buildings, and enclosed spaces for a variety of functions - commercial and trade-related activities, social gatherings, and educational and religious practices. Closely interwoven with the architectural fabric is the social and professional organization of the Bazaar, which has allowed it to function over the centuries and has made it into a single integrated entity.

Tabriz Historic Bazaar Complex has been one of the most important international places for commercial and cultural interchange, thanks to the centuries-old east-west trading connections and routes and to a wise policy of endowments and tax exemptions.

Tabriz Historic Bazaar bears witness to one of the most complete socio-cultural and commercial complexes among bazaars. It has developed over the centuries into an exceptional physical, economic, social, political, and religious complex, in which specialized architectural structures, functions, professions, and people from different cultures are integrated in a unique living environment. The lasting role of the Tabriz Bazaar is reflected in the layout of its fabric and in the highly diversified and reciprocally integrated architectural buildings and spaces, which have been a prototype for Persian urban planning.

Criterion (ii): Tabriz Historic Bazaar Complex was one of the most important international trade and cultural centres in Asia and the world between the 12th and the 18th centuries, thanks to the centuries-old east-west trade routes. Tabriz Bazaar is an exceptional example of an architectural-urban commercial area, which is reflected in its highly varied and integrated architectural buildings and spaces. The bazaar is one of the most sustainable socio-economic structures, and its great complexity and articulation attests to the wealth in trade and cultural interaction of Tabriz.

Criterion (iii): Tabriz Historic Bazaar bears witness to one of the most complete socio-cultural and commercial complexes among bazaars. It is an exceptional physical, economic, social, political, and religious complex that bears an exceptional testimony to a civilization that is still living. Over the centuries, thanks to its strategic location and to wise policies of endowments and tax exemptions, Tabriz Bazaar has developed into a socio-economic and cultural system in which specialized architectural structures, functions, professions, and people from different cultures are integrated into a unique living environment.

Criterion (iv): Tabriz Historic Bazaar is an outstanding example of an integrated multi-functional urban complex in which interconnected architectural structures and spaces have been shaped by commercial activities and related necessities. A large number of specialized buildings and structures are concentrated and reciprocally connected in a relatively compact area to form what is almost a single integrated structure.

Integrity and Authenticity

The nominated property contains all the elements that are necessary to convey its significance. The integrity of the 18th century Tabriz Bazaar is well preserved and its architecture conserves a rich repertoire of commercial buildings; the connection between the physical structure and its functioning is still clearly legible, and in many cases alive.

The rich historical sources bear credible witness to the importance of the Tabriz Bazaar over history and to the permanence of its layout. The fabric of the Bazaar still exhibits the design, workmanship, and materials of the period when it was constructed after the 1780 earthquake. The Bazaar is still a lively and economically active place, attesting to its rich and long-lasting economic, social, and cultural exchanges.

Protection and management requirements

The Tabriz Historic Bazaar Complex was officially protected in 1975 and since then has been covered by special stewardship measures. Three different protection areas have been established (a nominated area, a buffer zone, and a landscape zone), which are subject to special regulations, incorporated into the planning instruments. Within these areas any kind of activity needs authorization by the Iranian Cultural Heritage, Handicraft and Tourism Organization (ICHHTO), which is the institutional body in charge of the protection of protected monuments.

The management framework for the property is based on the integration of existing planning instruments (the Master Plan and the detailed Plan for Tabriz), administrative and technical bodies (the steering committee for Tabriz Bazaar and the ICHHTO Tabriz Bazaar Base), conservation objectives, SWOT analysis, implementation strategies, and operational programmes that are included in the management plan.

5. Protection and Management of the Property

5.1. Boundaries and Buffer Zones

5.1.1 - Are the boundaries of the World Heritage property adequate to maintain the property's Outstanding Universal Value?

The boundaries **do not limit the ability to maintain** the property's Outstanding Universal Value but they **could be improved**

5.1.2 - Are the boundaries of the World Heritage property known and recognised?

The boundaries **are known by both** the management authority and local communities/landowners

5.1.3 - Are the buffer zone(s) of the World Heritage property adequate to maintain the property's Outstanding Universal Value?

The buffer zones are **adequate** to maintain the property's Outstanding Universal Value

5.1.4 - Are the boundaries of the buffer zones known and recognised?

The buffer zones of the World Heritage property **are known and recognised by both** the management authority and local communities/landowners

5.1.5 - Comments, conclusions and/or recommendations related to boundaries and buffer zones of the World Heritage property

5.2. Protective Measures

5.2.1 - Protective designation (legal, regulatory, contractual, planning, institutional and/or traditional).

In Iran the legal provisions for the protection of cultural heritage are to be found in general (e.g. the 1920 Constitution Law and the 1996 Penal Law) or specific law, such as the 1930 Law for the protection of national heritage.

The 1930 Law defines the procedures for the identification of cultural heritage and establishes the National Heritage List, together with the criteria for inclusion on this list. It also defines provisions for archaeological excavations, further detailed by the 1980 Bylaw concerning unauthorized excavations. Further provisions concerning the acquisition of property of cultural significance are to be found in the 1969 Law concerning acquisition of Land, Buildings and Premises, which regulates the modes of acquisition on the State's part of immovable property for the purpose of protecting or improving the presentation of cultural property.

In 1979 the Iranian Cultural Heritage Organisation (later renamed the Iranian Cultural Heritage, Handicraft and Tourism Organisation – ICHHTO) was established to ensure the management of cultural heritage. The Organisation is responsible for studying, investigating, surveying, identifying, and registering movable and immovable property of historical, archaeological, and cultural value. The ICHHTO is also responsible for preparing and implementing plans aimed at repairing and revitalizing monuments, buildings, and valuable cultural-historical complexes.

In 2001 it was decided that all public organizations must conduct studies to assess the cultural/historic impacts of major development projects at the earliest stage of the scheme.

The Tabriz Historic Bazaar Complex was added to the List of Iran's National Monuments in 1975, since when it has been covered by special protection and conservation measures.

5.2.2 - Please list any legislation and other measures (regulatory -including spatial planning- contractual, institutional or traditional) not included in 5.2.1 and indicate the category

5.2.3 - Is the legal framework (i.e. legislation and/or regulation including spatial planning) adequate for maintaining the Outstanding Universal Value including conditions of Integrity and/or Authenticity of the property?

The **legal framework** for maintaining of the Outstanding Universal Value including conditions of Authenticity and/or Integrity of the World Heritage property provides an **adequate basis for effective management and protection**

5.2.4 - Is the legal framework (i.e. legislation and/or regulation) adequate in the buffer zone for maintaining the Outstanding Universal Value including conditions of Integrity and/or Authenticity of the property?

The **legal framework** in the buffer zone for the maintenance of the Outstanding Universal Value including conditions of Authenticity and/or Integrity of the World Heritage property provides an **adequate basis for effective management and protection**

5.2.5 - Is the legal framework (i.e. legislation and/or regulation) in the broader setting of the World Heritage property adequate for

maintaining the Outstanding Universal Value including conditions of Integrity and/or Authenticity of the property?

The **legal framework** for the broader setting of the World Heritage property provides an **adequate basis** for effective management and protection of the property, contributing to the maintenance of its Outstanding Universal Value including conditions of Authenticity and/or Integrity

5.2.6 - Can the legal framework (i.e. legislation and/or regulation) be enforced?

There is **acceptable capacity/resources** to enforce legislation and/or regulation in the World Heritage property but some deficiencies of enforcement remain

5.2.7 - Please provide a short summary of how the legislation, including spatial planning and other regulation, works in practice

5.2.8 - Comments, conclusions and/or recommendations about the information related to the measures taken to protect the World Heritage property

5.3. Management System/Management Plan

5.3.1 - Please check the box which most closely match the character of the governance and management system of the property
