3. Statement of Outstanding Universal Value

3.1 - Statement of Outstanding Universal Value for the property as adopted by the World Heritage Committee

Statement of Outstanding Universal Value

Brief synthesis

Built by the Portuguese at the end of the 16th century at the southern edge of the town of Mombasa, over a spur of coral rock, and kept under their control for one century, Fort Jesus, Mombasa, bears testimony to the first successful attempt by Western civilization to rule the Indian ocean trade routes, which, until then had

remained under Eastern influence. The design of the fort, with its proportions, its imposing walls and five bastions, reflects the military architectural theory of the Renaissance. Fort Jesus, Mombasa, bears physical witness, in its structures and subsequent transformations, also to the interchange of cultural values and influences between and among peoples of African, Arab, Turkish, Persian and European origin that fought to gain and maintain their control over this strategic port.

Criterion (ii): Built in a period and in a region, which were at the centre of the emerging political, commercial, and cultural globalisation, Fort Jesus, with its imposing structure, and the various traces of subsequent modifications, bears significant witness to the interchange of cultural values among peoples of African, Arab, Turkish, Persian and European origin. Built and occupied first by the Portuguese, Fort Jesus, Mombasa, changed hands many times throughout its history, coming under Arab, Swahili and English control. Its important role in the control of trade also saw it host many of the peoples of the Indian Ocean basin.

Criterion (iv): Fort Jesus, Mombasa, eminently exemplifies a new type of fortification that resulted from the innovations in military and weapons technology that occurred between the 15th and 16th centuries. In its layout and form, the Fort reflects the Renaissance ideal whose architectural proportions and geometric harmony are to be found in the proportions of the human body, while at the same time meeting the functional needs of a modern and well-defended fortification. The original layout of the Fort, despite several changes, has survived almost unchanged over centuries of continued occupations and reoccupations.

Integrity

The boundaries of the property have been delineated to include the underwater archaeological remains in the expanse of sea in front of Fort Jesus as well as the moat area adjacent to Mombasa Old Town. Minor changes inside the Fort bear witness to its history and do not threaten its integrity. The property is in good conditions and there is no urban or development encroachment in its immediate vicinity. Mombasa Old Town, which is integral to Fort Jesus' historic context, acts as the buffer zone of the Fort.

Authenticity

In regard to authenticity, Fort Jesus, Mombasa, has retained its form, design and materials, with coral stone and lime mortar still being used in the traditional way, where necessary, for repair and conservation work. It has also retained its authenticity of setting, located on an otherwise unbuilt property along the coast of Mombasa Island adjacent to the Mombasa Old Town with which it shares a common history.

Protection and management requirements

The legal protection system for the property is adequate: Fort Jesus, Mombasa, was originally designated a National Park in 1958, the protected area included the Fort itself and a 100-meter strip around it; today it falls under the National Museums and Heritage Act, 2006. The buffer zone has been formally declared a Conservation Area, however, a discrepancy between the size of the designated Conservation Area and the size of the Buffer Zone has not been amended yet.

A satisfactory management plan has been put in place for the property with the National Museums of Kenya acting as the key stakeholder in its conservation and safeguarding.

Long-term conservation and management issues include the protection of the Fort from urban encroachment and inappropriate design in the areas adjacent to the Fort and in the surrounding Mombasa Old Town, which require the reinforcement of dedicated management structures and staff, control of erosion of the rocks along the sea coast, and the ongoing maintenance and conservation of the Fort itself.

3.2 - Please list the key attributes of Outstanding Universal Value of your property and give an assessment of their condition. As a guideline, it is suggested to focus on approximately five key attributes (no more than 15 overall).

5. Protection and Management of the Property

5.1. Boundaries and Buffer Zones

5.1.1 - Are the boundaries of the World Heritage property adequate to maintain the property's Outstanding Universal Value?

The boundaries are **adequate to maintain** the property's Outstanding Universal Value

5.1.2 - Are the boundaries of the World Heritage property known and recognised?

The boundaries are **known by both** the management authority and local communities/landowners

5.1.3 - Are the buffer zone(s) of the World Heritage property adequate to maintain the property's Outstanding Universal Value?

The buffer zones are **adequate** to maintain the property's Outstanding Universal Value

5.1.4 - Are the boundaries of the buffer zones known and recognised?

The buffer zones of the World Heritage property are **known and recognised by both** the management authority and local communities/landowners

5.1.5 - Comments, conclusions and/or recommendations related to boundaries and buffer zones of the World Heritage property

Both property and buffer zone are under the management of National Museums of Kenya and recognized so by the local authority and community

5.2. Protective Measures

5.2.1 - Protective designation (legal, regulatory, contractual, planning, institutional and/or traditional).

Fort Jesus, Mombasa, was originally designated a National Park in 1958 to protect the Fort and a 100m strip around it. Today it is protected under the National Museums and Heritage Act 2006.

The Environmental Management and Coordination Act (EMCA) 1999 and the National Museums and Heritage Act 2006 ensure that 'Environmental Impact Assessments are undertaken on sites earmarked for development projects and whose implementation threatens the survival of heritage resources of some kind among other components of the environment.'

Additional information provided by the State Party on February 2011 explains that the Commission has been in operation since it has been gazetted in 2009 (gazette notice n. 2660). It includes members of the Municipal Council, interest groups from the local community, special interest groups and the NMK, providing technical expertise.

The revised nomination dossier reports that by-laws subject the area to development control measures, which are drawn from the conservation guidelines for Mombasa Old Town, namely buildings are not allowed to be built with more than three storeys; all buildings must retain their historical character and features, in particular with reference to doors and windows as well as their design and proportions; advertising signs should use hand-carved boards.

5.2.2 - Please list any legislation and other measures (regulatory -including spatial planning- contractual, institutional or traditional) not included in 5.2.1 and indicate the category

5.2.3 - Is the legal framework (i.e. legislation and/or regulation including spatial planning) adequate for maintaining the Outstanding Universal Value including conditions of Integrity and/or Authenticity of the property?

An **adequate legal framework** for maintaining of the Outstanding Universal Value including conditions of Authenticity and/or Integrity of the World Heritage property exists **but there are some deficiencies in implementation**

5.2.4 - Is the legal framework (i.e. legislation and/or regulation) adequate in the buffer zone for maintaining the Outstanding Universal Value including conditions of Integrity and/or Authenticity of the property?

The **legal framework** in the buffer zone for the maintenance of the Outstanding Universal Value including conditions of Authenticity and/or Integrity of the World Heritage property provides an **adequate basis for effective management and protection**

5.2.5 - Is the legal framework (i.e. legislation and/or regulation) in the broader setting of the World Heritage property adequate for maintaining the Outstanding Universal Value including conditions of Integrity and/or Authenticity of the property?

The **legal framework** for the broader setting of the World Heritage property provides an **adequate basis for** effective management and protection of the property, contributing to the maintenance of its Outstanding Universal Value including conditions of Authenticity and/or Integrity

5.2.6 - Can the legal framework (i.e. legislation and/or regulation) be enforced?

There is **adequate capacity/resources** to enforce legislation and/or regulation in the World Heritage property

5.2.7 - Please provide a short summary of how the legislation, including spatial planning and other regulation, works in practice

5.2.8 - Comments, conclusions and/or recommendations about the information related to the measures taken to protect the World Heritage property

5.3. Management System/Management Plan

5.3.1 - Please check the box which most closely match the character of the governance and management system of the property

Public management system at national level

If 'Other', please specify

5.3.2 - Management System: Please indicate which of the various management tools listed below are used to help protect the property.

Other forms of statutory or non-statutory plans (e.g. strategic plans)

Governance mechanisms that foster and respect traditional practices, knowledge and uses of the property

Agreed 'Memorandums of Understanding' between different managing institutions, groups or others, including documents agreed with local communities for management

A management plan

An annual work plan or business plan

5.3.3 - Please give a brief description of the management system currently in place at your property

The property is managed by a curator under the employment of the National Museums of Kenya. There's constant consultation with community whenever there's need/ issue. The community participates as tour guides after training from NMK. There's also opportunity for local community to display their works in temporary exhibitions

5.3.4 - Management Documents

6.1.2 - Please comment here on any other aspects of funding sources not covered in the table above

6.1.3 - Is the current budget sufficient to manage the World Heritage property effectively?

The available **budget is acceptable** but **could be further improved** to fully meet the management needs

6.1.4 - Are the existing sources of funding secure and likely to remain so?

The existing sources of funding are **secure over the medium-term** and **planning is underway to secure funding over the long-term**

6.1.5 - Comments, conclusion, and/or recommendations related to finance and infrastructure

The secure funding received from the National government by the property in catering for re-current expenses. Repairs and restorations need to be squeezed in. However we have received funding for restoration of the Oman house, an important section of the Fort. We have also managed to have the old ticket office converted into a customer care office through donation in kind by private entity.
