

Old Town of Lijiang

1. World Heritage Property Data

1.1 - Name of World Heritage property

Old Town of Lijiang

1.2 - World Heritage property details

1.3 - Geographic information table

Name	Coordinates	Property (ha)	Buffer zone (ha)	Total (ha)	Inscription year
Dayan Old Town	26.875 / 100.233	?	214	214	1997
Heilongtan Pool	26.889 / 100.233	?	215	215	1997
Baisha Village	26.956 / 100.214	21	85	106	1997
Shuhe Town	26.925 / 100.203	14.6	68.3	82.9	1997
Total (ha)		35.6	582.3	617.9	

Comment

According to the latest surveying and mapping of the Old Town of Lijiang, the area of property is 743.5 hectares, which are: 84 hectares of Dayan Old Town, 1 Heilong Pool, and 21 hectares of Baisha Housing Cluster, 14.5 hectares of The Shuhe Housing Cluster, 454 hectares of the buffer zone of Dayan (including Heilong Pool), 68 hectares of the buffer zone of Baisha, and 68 hectares of the buffer zone of Shuhe.

2.8 - Please add any further comments on cooperation with the other designation(s)/programme(s)
no comment

2.9 - Are you aware of any elements associated with the World Heritage property that have been inscribed on the Representative List of the Intangible Cultural Heritage?
No

2.10 - Please list any elements associated with the World Heritage property inscribed under the Convention for the Safeguarding of the Intangible Cultural Heritage of which you are aware
There are no heritage-related elements listed in the "List of Representatives of Oral and Intangible Cultural Heritage of Humanity" in the Old Town of Lijiang, but according to "Convention for the Protection of Intangible Cultural Heritage" and the "Intangible Cultural Heritage Law of the People's Republic of China", there are items on the domestic list of intangible cultural heritage at different levels. Among them, there are 4 at the national level, 34 at the provincial level, and 45 at the municipal level.

2.11 - Are you aware of any documentary heritage listed under the Memory of the World Programme associated with the World Heritage property?
Yes

2.12 - Please list any documentary heritage associated with the World Heritage property listed under the Memory of the World Programme of which you are aware.
There are 897 kinds of ancient Naxi Dongba documents collected in the Dongba Cultural Research Institute of Lijiang, Yunnan, China. The documents are selected into the Memory of the World Register at the sixth session of the UNESCO World Memory Heritage International Advisory Committee, which was held in Gdansk, Poland from August 28th to 30th, 2003. They then became China's third Memory of the World Heritage and the first Memory of the World for Chinese ethnic minorities.

3. Statement of Outstanding Universal Value

3.1 - Statement of Outstanding Universal Value for the property as adopted by the World Heritage Committee

Statement of Outstanding Universal Value

Brief synthesis

The Old Town of Lijiang is located on the Lijiang plain at an elevation of 2,400 meters in southwest Yunnan, China, where a series of strategic passes give access through the surrounding mountains. The Yulong Snow Mount to the north-west is the source of the rivers and springs which water the plain and supply the Heilong Pool (Black Dragon Pond), from where waterways feed into a network of canals and channels to supply the town. The Old Town of Lijiang comprises three component parts: Dayan Old Town (including the Black Dragon Pond), Baisha and Shuhe housing clusters. Dayan Old Town was established in the Ming dynasty as a commercial centre and includes the Lijiang Junmin Prefectural Government Office; the Yizi pavilion and Guabi Tower remaining from the former Muja compound and the Yuquan architectural structures in the Heilongtan Park. Numerous two-storeyed, tile-roofed, timber-framed houses combining elements of Han and Zang architecture and decoration in the arched gateways, screen walls, courtyards and carved roof beams are representative of the Naxi culture and are disposed in rows following the contours of the mountainside. Wooden elements are elaborately carved with domestic and cultural elements - pottery, musical instruments, flowers and birds.

The Baisha housing cluster established earlier during the Song and Yuan dynasties is located 8km north of the Dayan Old Town. Houses here are arranged on a north-south axis around a central, terraced square. The religious complex includes halls and pavilions containing over 40 paintings dating from the early 13th century, which depict subjects relating to Buddhism, Taoism and the life of the Naxi people, incorporating cultural elements of the Bai people. Together with the Shuhe housing cluster located 4km north-west of Dayan Old Town, these settlements nesting in mountains and surrounded by water reflect the blend of local cultures, folk customs and traditions over several centuries.

The vivid urban space, the vigorous water system, the harmonious building complexes, the comfortable residences of appropriate size, the pleasant environment, and the folk art of unique style combine to form an outstanding example of human habitat.

Criterion (ii): From the 12th century onward, the Old Town of Lijiang was an important goods distribution center for trade between Sichuan, Yunnan and Tibet, and is where the Silk Road in the south joins the Ancient Chama (Tea and Horse) Roads. The Old Town of Lijiang became an important center for the economic and cultural communication between various ethnic groups such as the Naxi, Han, Tibetan and Bai. Cultural and technological exchanges over the past 800 years resulted in the particular local architecture, art, urban planning and landscape, social life, customs, arts and crafts and other cultural features which incorporate the quintessence of Han, Bai, Tibetan and other ethnic groups, and at the same time show distinctive Naxi features. In particular, the murals in the religious architecture and other buildings reflect the harmonious co-existence of Confucianism, Taoism, and Buddhism.

Criterion (iv): The three parts of the Old Town of Lijiang: Dayan Old Town (including the Heilong Pool), Baisha housing cluster and Shuhe housing cluster, fully reflect the social, economic and cultural features of the different periods, following the natural topography of mountains and water sources to form an outstanding settlement combining the residential traditions of Naxi, Han, Bai and Tibetan people.

Criterion (v): The Old Town of Lijiang has integrated the mountains, rivers, trees and architecture to create a human habitat featuring the unity between man and nature. With mountains extending to the plain as the protective screen in the north and the plains in the east and south, the Old Town enjoys a sound geometrical relationship and ecological layout. A forked water system originates from the snow-capped mountain and runs through the villages and the farmland. Heilong Pool and the scattered wells and springs constitute a complete water system, meeting the needs for fire prevention, daily life and production in the town. Water plays an important role in the Old Town's unique architectural style, urban layout and landscape as the main street and small alleys front onto the canals and some buildings and numerous bridges are constructed across the canals. As an excellent example of human habitat showing a harmony between man and nature, the Old Town is a remarkable tribute to human ingenuity in land use.

Integrity

The mountains in the surrounding area of the Old Town of Lijiang have been well preserved, and the time-honored water-supply system is still functioning today. The property boundaries and buffer zone are in the process of being modified to better protect the Outstanding Universal Value of the property.

Authenticity

The property area of Dayan, Baisha housing cluster and Shuhe housing cluster of the Old Town of Lijiang have retained the overall layout, urban morphology, street landscape, and architectural style of the Ming and Qing dynasties, in spite of numerous earthquakes including a big earthquake on February 3, 1996. The intangible heritage including Dongba culture, Naxi character, and the building skills of traditional residences in the Old Town of Lijiang have been inherited and promoted with the development of Naxi society.

Protection and management requirements

For the protection and management, the Old Town of Lijiang has strictly abided by the Law of the People's Republic of China on the Protection of Cultural Relics, Regulations for the Implementation of the Law of the People's Republic of China on Protection of Cultural Relics and Regulation on the Protection of Famous Historical and Cultural Cities, Towns and Villages. In recent years, World Heritage protection and management organs at various levels have taken additional measures. They have positively responded to the reactive monitoring carried out by the World Heritage Committee, carefully implemented the decisions of the Committee, and organized professional institutions and experts to enhance the research on the Outstanding Universal Value of the Old Town of Lijiang; they have prepared the Conservation Master Plan for the Old Town of Lijiang as a World Cultural Heritage Site, Manual on Repairing Folk Residences, Manual on Environment Protection, Plan for Business Development, and Management Plan; they have strengthened the control and management over tourism and commercial development in the surrounding area of the property by adjusting the area of protection.

In the future, the preparation, examination and implementation of the Conservation Master Plan for the Old Town of Lijiang as a World Cultural Heritage Site will be accelerated. Monitoring will be enhanced during the implementation to ensure that the measures will be effectively taken. Moreover, the capacity of the World Cultural Heritage Management Bureau of the Old Town of Lijiang, the local protection and management institution, will be further built to improve heritage protection and management.

3.2 - Please list the key attributes of Outstanding Universal Value of your property and give an assessment of their condition. As a guideline, it is suggested to focus on approximately five key attributes (no more than 15 overall).

	Brief identification of attribute	Preserved	Compromised	Seriously compromised	Lost
3.2.1	Site selection and layout that reflect multi-ethnic and religious ideas and concepts	✕			
3.2.2	The ecological pattern and human settlement environment that reflect the harmonious coexistence of man and nature	✕			
3.2.3	Urban spatial structure derived from social, economic and cultural characteristics at different historical stages	✕			
3.2.4	Historical space joints that reflect commerce, politics, economics, and cultural activities	✕			
3.2.5	Representative traditional residential buildings that reflect the various patterns of traditional lifestyles	✕			
3.2.6	Commercial facilities, management facilities and related religious products that reflect material and spiritual exchanges	✕

3.2.14					
3.2.15					

3.3 - Comments, conclusions and/or recommendations related to Statement of Outstanding Universal Value

The information used here is based on the Retrospective Statement of OUV, the ongoing special research on the heritage value of the Old Town of Lijiang, and the Conservation Management Plan for the Old Town of Lijiang that is being revised.

4. Factors Affecting the Property

4.1. Buildings and Development

4.1.1 - Housing

Previous answer Cycle 2 (29/07/2011):

- Relevant, Positive, Current, Potential, Inside, Outside

✕ Relevant		Not relevant					
	Impact		Origin		Trend of impact		
Impact	Current	Potential	Inside	Outside	Decreasing	Stable	Increasing
Positive ✕	✕	✕	✕	✕			↗
Negative ✕	✕	✕	✕	✕	↘		

4.1.2 - Commercial development

Previous answer Cycle 2 (29/07/2011):

- Relevant, Positive, Negative, Current, Potential, Outside

✕ Relevant		Not relevant					
	Impact		Origin		Trend of impact		
Impact	Current	Potential	Inside	Outside	Decreasing	Stable	Increasing
Positive ✕	✕	✕	✕	✕		↔	
Negative ✕	✕	✕	✕	✕	↘		

4.1.3 - Industrial areas

Previous answer Cycle 2 (29/07/2011):

- Not relevant

Relevant	✕ Not relevant
----------	----------------

4.1.4 - Major visitor accommodation and associated infrastructure

Previous answer Cycle 2 (29/07/2011):

- Relevant, Positive, Negative, Current, Outside

✕ Relevant		Not relevant					
	Impact		Origin		Trend of impact		
Impact	Current	Potential	Inside	Outside	Decreasing	Stable	Increasing
Positive ✕	✕	✕	✕	✕		↔

4.1.5 - Interpretative and visitation facilities

Previous answer Cycle 2 (29/07/2011):

- Not relevant

✕ Relevant		Not relevant					
	Impact		Origin		Trend of impact		
Impact	Current	Potential	Inside	Outside	Decreasing	Stable	Increasing
Positive ✕	✕	✕	✕	✕			↗
Negative							

4.1.6 - Please comment as necessary on how the factors selected as relevant in 4.1 are affecting the property either negatively or positively

The architectural style and skyline of Lijiang have been strictly controlled, commercial development has stabilized, and the growth of commercial facilities has slowed down significantly. At the same time, the service level of related industries has improved significantly. In order to further optimize the business structure, Lijiang has made clear regulations on supporting, encouraging, restricting, and prohibiting business projects. The heritage interpretation and visiting facilities are constantly being optimized to more closely meet the needs of tourists.

4.2. Transportation Infrastructure

4.2.1 - Ground transport infrastructure

Previous answer Cycle 2 (29/07/2011):

- Relevant, Positive, Current, Outside

X Relevant				Not relevant			
	Impact		Origin		Trend of impact		
Impact	Current	Potential	Inside	Outside	Decreasing	Stable	Increasing
Positive X	X	X		X		→	
Negative

----------	--	--	--	----------------	--	--	--

4.2.5 - Effects arising from use of transportation infrastructure

Previous answer Cycle 2 (29/07/2011):

- Not relevant

X Relevant				Not relevant			
	Impact		Origin		Trend of impact		
Impact	Current	Potential	Inside	Outside	Decreasing	Stable	Increasing
Positive X	X	X		X		→	
Negative							

4.2.6 - Please comment as necessary on how the factors selected as relevant in 4.2 are affecting the property either negatively or positively

Lijiang vigorously promotes the construction of railways and highways, increases the construction of transportation supporting facilities, and promotes the construction of smart parking lots and parking guidance management systems to facilitate people travel. Lijiang Airport is implementing reconstruction and expansion projects to improve passenger reception capabilities. These changes have brought positive impacts on the development of heritage communities and created better accessibility for the widespread publicity of heritage values.

4.3. Services Infrastructures

4.3.1 - Water infrastructure

Previous answer Cycle 2 (29/07/2011):

- Relevant, Positive, Current, Potential, Inside

X Relevant				Not relevant			
	Impact		Origin		Trend of impact		
Impact	Current	Potential	Inside	Outside	Decreasing	Stable	Increasing
Positive X	X	X	X	X			↗
Negative

4.3.5 - Major linear utilities

Previous answer Cycle 2 (29/07/2011):

- Relevant, Positive, Negative, Current, Potential, Inside, Outside

✗ Relevant				Not relevant			
	Impact		Origin		Trend of impact		
Impact	Current	Potential	Inside	Outside	Decreasing	Stable	Increasing
Positive	✗	✗	✗	✗			↗
Negative							

4.3.6 - Please comment as necessary on how the factors selected as relevant in 4.3 are affecting the property either negatively or positively

The infrastructure system of the Old Town of Lijiang is becoming more and more perfect. The Lijiang Water Group's construction of water supply and drainage related projects has covered Dayan and Shuhe; the fourth water plant in Lijiang is currently being constructed, mainly for water supply to Baisha Old Town. The optimization and full coverage of the water supply and drainage system of the heritage site is an important guarantee for the sustainable development of the heritage community and heritage tourism. Electricity and communication facilities have been renovated and upgraded.

4.4. Pollution

4.4.1 - Pollution of marine waters

Previous answer Cycle 2 (29/07/2011):

- Not relevant

Relevant	✗ Not relevant
----------	----------------

4.4.2 - Ground water pollution

Previous answer Cycle 2 (29/07/2011):

Negative	✗	✗	✗	✗	↘		

4.4.6 - Input of excess energy

Previous answer Cycle 2 (29/07/2011):

- Not relevant

Relevant	✗ Not relevant
----------	----------------

4.4.7 - Please comment as necessary on how the factors selected as relevant in 4.4 are affecting the property either negatively or positively

The pollution factors affecting Lijiang are surface water and solid waste pollution, from the waste water and discharge generated by residents and merchants. Also, tourism growth brought pollution. In recent years, through the promotion of local government and protection management agencies, the improvement of rules and regulations, the improvement of waste and wastewater treatment facilities, and restrictions on risky projects, and the increase in environmental awareness of the society, pollution has decreased. The negative impact of heritage continues to diminish.

4.5. Biological resource use/modification

4.5.1 - Fishing/collecting aquatic resources

Previous answer Cycle 2 (29/07/2011):

- Not relevant

Relevant	✗ Not relevant

4.5.11 - Please comment as necessary on how the factors selected as relevant in 4.5 are affecting the property either negatively or positively

Within the framework of relevant conservation and management regulations, through land conversion, heritage land functions that were not good to sustainable development have been replaced with cultural relics and historical sites, cultural facilities or parks, which has had a positive impact on the overall protection of the heritage. The maintenance of traditional agricultural and garden landscapes in heritage areas and buffer zones has a positive impact on the continuation of heritage values.

4.6. Physical resource extraction

4.6.1 - Mining

Previous answer Cycle 2 (29/07/2011):

Negative							

4.6.5 - Please comment as necessary on how the factors selected as relevant in 4.6 are affecting the property either negatively or positively

To make good use of water resources, the conservation and management agency established a Landscape Water Management Office to be responsible for the management of water resources in the Old Town of Lijiang. The Water Management Office strengthened the contact and cooperation with water affairs departments at all levels, made full use of the surrounding water sources, brought into play the effectiveness of the Baishui River Emergency Water Diversion Project, and effectively improved the problem of seasonal water shortage in the rivers of the old town.

4.7. Local conditions affecting physical fabric

4.7.1 - Wind

Previous answer Cycle 2 (29/07/2011):

- Relevant, Negative, Current, Potential, Outside

4.7.6 - Water (rain/water table)

Previous answer Cycle 2 (29/07/2011):

- Relevant, Positive, Current, Outside

✕ Relevant			Not relevant				
	Impact		Origin		Trend of impact		
Impact	Current	Potential	Inside	Outside	Decreasing	Stable	Increasing
Positive							
Negative ✕	✕	✕	✕	✕		→	

4.7.7 - Pests

Previous answer Cycle 2 (29/07/2011):

- Relevant, Negative, Current, Potential, Outside

✕ Relevant			Not relevant				
	Impact		Origin		Trend of impact		
Impact	Current	Potential	Inside	Outside	Decreasing	Stable	Increasing
Positive							
Negative ✕	✕	✕	✕	✕		→	

4.7.8 - Micro-organisms

Previous answer Cycle 2 (29/07/2011):

- Not relevant

✕ Relevant			Not relevant				
	Impact		Origin		Trend of impact		
Impact	Current	Potential	Inside	Outside	Decreasing	Stable	Increasing
Positive							
Negative ✕	✕	✕	✕	✕		→	

4.7.9 - Please comment as necessary on how the factors selected as relevant in 4.7 are affecting the property either negatively or positively

The influence of wind, humidity, temperature, radiation/light, water, microorganisms and other factors on the heritage is basically stable. Strong winds and dry weather can easily cause fires; seasonal rainstorms and geological disasters caused by them may cause damage to the landscape. In response to problems such as dust and pests, conservation management agencies and communities carry out cleaning and insecticides from time to time to ensure that related negative impacts will not expand.

4.8. Social/Cultural uses of heritage

4.8.1 - Ritual/Spiritual/Religious and associative uses

Previous answer Cycle 2 (29/07/2011):

- Relevant, Positive, Current, Potential, Inside

X Relevant				Not relevant			
	Impact		Origin		Trend of impact		
Impact	Current	Potential	Inside	Outside	Decreasing	Stable	Increasing
Positive X	X	X	X	X		→	
Negative X	X	X	X	X	↘		

4.8.2 - Society's valuing of heritage

Previous answer Cycle 2 (29/07/2011):

- Relevant, Positive, Current, Potential, Inside, Outside

X Relevant				Not relevant			
	Impact		Origin		Trend of impact		
Impact	Current	Potential	Inside	Outside	Decreasing	Stable	Increasing
Positive X	X	X	X	X			↗
Negative							

4.8.3 - Indigenous hunting, gathering and collecting

Previous answer Cycle 2 (29/07/2011):

- Not relevant

Relevant				X Not relevant			
----------	--	--	--	----------------	--	--	--

4.8.4 - Changes in traditional ways of life and knowledge system

Previous answer Cycle 2 (29/07/2011):

- Relevant, Positive, Negative, Current, Potential, Inside, Outside

X Relevant				Not relevant			
	Impact		Origin		Trend of impact		
Impact	Current	Potential	Inside	Outside	Decreasing	Stable	Increasing
Positive X	X	X	X	X		→	
Negative X	X	X	X	X		→	

4.8.5 - Identity, social cohesion, changes in local population and community

Previous answer Cycle 2 (29/07/2011):

- Relevant, Positive, Negative, Current, Potential, Inside, Outside

X Relevant				Not relevant			
	Impact		Origin		Trend of impact		
Impact	Current	Potential	Inside	Outside	Decreasing	Stable	Increasing
Positive X	X	X	X	X		→	
Negative X	X	X	X	X		→	

4.8.6 - Impacts of tourism/Visitation/Recreation

Previous answer Cycle 2 (29/07/2011):

- Relevant, Positive, Negative, Current, Potential, Inside, Outside

X Relevant				Not relevant			
	Impact		Origin		Trend of impact		
Impact	Current	Potential	Inside	Outside	Decreasing	Stable	Increasing
Positive X	X	X	X	X		→	
Negative X	X	X	X	X		→	

4.8.7 - Please comment as necessary on how the factors selected as relevant in 4.8 are affecting the property either negatively or positively

Traditional festivals and events in local communities have been revived, and some vacant traditional buildings have been rationally used to become places to display traditional cultural heritage. With the return and revival of traditional culture, local social cohesion and cultural self-confidence continue to increase. However, of course, driven by the rapid development of the tourism industry, the phenomenon of local residents moving out of the ancient city after renting out their houses still exists, which has a certain negative impact.

4.9. Other human activities

4.9.1 - Illegal activities

Previous answer Cycle 2 (29/07/2011):

- Relevant, Negative, Current, Potential, Outside

X Relevant				Not relevant			
	Impact		Origin		Trend of impact		
Impact	Current	Potential	Inside	Outside	Decreasing	Stable	Increasing
Positive							
Negative X	X	X	X	X	↘		

4.9.2 - Deliberate destruction of heritage

Previous answer Cycle 2 (29/07/2011):

- Relevant, Negative, Current, Potential, Outside

Relevant				X Not relevant

4.9.7 - Please comment as necessary on how the factors selected as relevant in 4.9 are affecting the property either negatively or positively

Lijiang has continuously strengthened the conservation and management of the old town, specially formulated the "Work Plan for Lijiang Old Town Administrative Law Enforcement Linkage", established joint meetings, joint management and control systems, and implemented a grid management model, divided areas, detailed responsibilities. The construction from violations of regulations, the destruction of heritage and other illegal activities will be implemented quickly and accurately to better protect the overall look of the Old Town Lijiang.

4.10. Climate change and severe weather events

4.10.1 - Storms

4.10.7 - Other climate change impacts

Previous answer Cycle 2 (29/07/2011):

- Not relevant

Relevant	✕ Not relevant
----------	----------------

4.10.8 - Please comment as necessary on how the factors selected as relevant in 4.10 are affecting the property either negatively or positively

Weather disasters such as storms, floods, and droughts occur sporadically, the overall trend is stable, and the negative impact on the Old Town is stable. The protection and management agency has formulated emergency plans, accumulated relevant experience from the past disaster relief process, and held emergency drills. The local climate trend has been stable in recent years, but it is consistent with the trend of global warming. The average temperature in the past five years is 13.9°C, which is higher than normal years, ranging from 0.6 to 1.3°C. The impact of this trend is unclear.

4.11. Sudden ecological or geological events

4.11.1 - Volcanic eruption

Previous answer Cycle 2 (29/07/2011):

4.11.6 - Fire (wildfire)

Previous answer Cycle 2 (29/07/2011):

- Relevant, Negative, Current, Potential, Inside, Outside

Relevant	✕ Not relevant
----------	----------------

4.11.7 - Please comment as necessary on how the factors selected as relevant in 4.11 are affecting the property either negatively or positively

Since 2015, there have been no earthquakes of magnitude 4 or above in Lijiang, and earthquakes of magnitude less than 4 have not had a significant impact on the Old Town of Lijiang. It needs to be explained that due to the frequent occurrence of local earthquakes and the painful memory of the magnitude 7 earthquake in 1996, the conservation management agencies have always put emergency earthquake response as the focus of long-term drills, and continuously strengthened emergency response capabilities and earthquake knowledge publicity.

4.12. Invasive/alien species or hyper-abundant species

4.12.1 - Translocated species

Previous answer Cycle 2 (29/07/2011):

4.13.9 - Please comment as necessary on how the factors selected as relevant in 4.13 are affecting the property either negatively or positively

At present, the Old Town of Lijiang has basically constructed a set of management systems that are conducive to the protection and development of world heritage, including a legal framework from the central to the local level and a series of policy documents that are conducive to strengthening protection and management. Under the guidance of the "Convention" and its "Operational Guidelines" and the relevant norms for the protection of China's world cultural heritage, the monitoring work has been carried out in an orderly manner, and the positive impact has been expanding day by day.

4.14. Other factor(s)

4.14.1 - Other factor(s)

The conservation management agency, in cooperation with relevant departments, has completed the comprehensive renovation and upgrading of the fire water supply network in the Old Town of Lijiang and the construction of a smart fire control system, including the transformation of old power lines, the installation of smart power monitoring facilities and arc detection equipment. In addition, the heritage site fully mobilized the enthusiasm of the community and operators, established more than 420 voluntary fire brigades, and strengthened emergency drills.

4.15. Factors Summary Table

4.15.1 - Factors Summary Table

Name	Impact			Origin	Trend

4.17. Serial inscriptions (national or transnational)

4.17.1 - If your property is a serial inscription (national or transnational) please identify which components of the property are impacted by each factor

As a series of heritages, the Old Town of Lijiang includes the Old Town of Dayan (including the Heilong Pool), the Baisha housing cluster, and the Shuhe housing cluster. The three components are affected by each selected factor.

4.18. Prediction of the state of conservation at next cycle of Periodic Reporting.

4.18.1 - Please predict what the state of conservation of each attribute will be approximately 6 years from now (at the time of the next cycle of Periodic Reporting)

	Attribute	Preserved	Compromised	Seriously compromised	Lost
4.18.1.1	Site selection and layout that reflect multi-ethnic and religious ideas and concepts	✕			
4.18.1.2	The ecological pattern and human settlement environment that reflect the harmonious coexistence of man and nature	✕			
4.18.1.3	Urban spatial structure derived from social, economic and cultural characteristics at different historical stages	✕			
4.18.1.4	Historical space joints that reflect commerce, politics, economics, and cultural activities	✕			
4.18.1.5	Representative traditional residential buildings that reflect the various patterns of traditional lifestyles	✕			

5. Protection and Management of the Property

5.1. Boundaries and Buffer Zones

5.1.1 - Are the boundaries of the World Heritage property adequate to maintain the property's Outstanding Universal Value?

The boundaries are **adequate to maintain** the property's Outstanding Universal Value

5.1.2 - Are the boundaries of the World Heritage property known and recognised?

The boundaries are **known by both** the management authority and local communities/landowners

5.1.3 - Are the buffer zone(s) of the World Heritage property adequate to maintain the property's Outstanding Universal Value?

The buffer zones are **adequate** to maintain the property's Outstanding Universal Value

5.1.4 - Are the boundaries of the buffer zones known and recognised?

The buffer zones of the World Heritage property are **known and recognised by both** the management authority and local communities/landowners

5.1.5 - Comments, conclusions and/or recommendations related to boundaries and buffer zones of the World Heritage property

no comment

5.2. Protective Measures

5.2.1 - Protective designation (legal, regulatory, contractual, planning, institutional and/or traditional).

The obligation of the state to protect "scenic places, and historical sites" is set out in Article 22 of the Constitution on the People's Republic of China. This obligation is reinforced and enlarged upon in the 1982 Law on the Protection of Cultural Relics (amended 1991). A series of statutory instruments have been promulgated by Yunnan Province. The 1992 Urban Plan Administration Regulation and the 1993 Measures to Implement the Laws of the People's Republic of China on the Protection of Cultural Relics in Yunnan Province the regulatory context for the protection of the old town of Lijiang. Local legislation for the protection of Lijiang was adopted by the Standing Committee of the People's Congress of Yunnan Province in June 1994.

The Lijiang Old Town Conservation Regulation was approved and examined by standing committee of 10th People's congress of Yunnan at 19th meeting and issued on March 1st 2006 and now protects authenticity and integrity of Old Town of Lijiang. Currently, 24 historical and cultural sites within the Dayan old town have been placed under provincial (3) and county (21) protection.

Source: Periodic Reporting Cycle 2

Comment

According to the present situation,update laws.

5.2.2 - Please list any legislation and other measures (regulatory -including spatial planning- contractual, institutional or traditional) not included in 5.2.1 and indicate the category

2006 / Measures for the Protection of World Culture Heritage / In order to strengthen the protection and management of world cultural heritage, fulfill the responsibilities and obligations of the / 2007 /
Regulations on the Protection of Historic Places in Yunnan Province / In order to strengthen the protection and management of famous historical and cultural cities, towns, famous villages, and famous streets, and inherit excellent historical and cultural heritage, it is formulated in accordance with the / 2005 / Regulations on the Protection of Lijiang in Yunnan Province /
In order to effectively protect and rationally use the world cultural heritage of the Old Town of Lijiang, it is formulated in accordance with relevant laws and regulations in combination with the actual situation of Lijiang. / 2020 / Regulations on the Protection of Naxi Dongba Culture in Yunnan Province / "Regulations on the Protection of the Naxi Dongba Culture of Yunnan Province" are applicable to the protection, inheritance, utilization and management of the Naxi Dongba culture in the administrative areas of the relevant counties (cities, districts) where the Naxi people live in communities such as Lijiang City. /

5.2.3 - Is the legal framework (i.e. legislation and/or regulation including spatial planning) adequate for maintaining the Outstanding Universal Value including conditions of Integrity and/or Authenticity of the property?

An **adequate legal framework** for maintaining of the Outstanding Universal Value including conditions of Authenticity and/or Integrity of the World Heritage property exists **but there are some deficiencies in implementation**

5.2.4 - Is the legal framework (i.e. legislation and/or regulation) adequate in the buffer zone for maintaining the Outstanding Universal Value including conditions of Integrity and/or Authenticity of the property?

An **adequate legal framework** in the buffer zone for maintaining the Outstanding Universal Value including conditions of Authenticity and/or Integrity of the World Heritage property exists **but there are some deficiencies in implementation**

5.2.5 - Is the legal framework (i.e. legislation and/or regulation) in the broader setting of the World Heritage property adequate for maintaining the Outstanding Universal Value including conditions of Integrity and/or Authenticity of the property?

An **adequate legal framework** exists for the broader setting of the World Heritage property, **but there are some deficiencies in implementation** which undermine the maintenance of the Outstanding Universal Value including conditions of Authenticity and/or Integrity of the property

5.2.6 - Can the legal framework (i.e. legislation and/or regulation) be enforced?

There is **acceptable capacity/resources** to enforce legislation and/or regulation in the World Heritage property but some deficiencies of enforcement remain

5.2.7 - Please provide a short summary of how the legislation, including spatial planning and other regulation, works in practice

The national to local legal and regulatory frameworks and the specific implementation of relevant policies and regulations have played a key role in the protection of the Old Town of Lijiang. The local government of Lijiang has issued a series of protection management documents to refine and implement relevant legal requirements. The protection management agency gradually established a set of daily management system in response to specific problems in practice.

5.2.8 - Comments, conclusions and/or recommendations about the information related to the measures taken to protect the World Heritage property

In order to further regulate the business activities in the Old Town of Lijiang, Lijiang has successively issued the "List of Business Projects in the Old Town of Lijiang" and "Interim Measures for the Management of Access and Exit of Business Projects in the Old Town of Lijiang", which has brought positive effects to the continuation of the value and maintenance of its look. Welcome experts from the World Heritage Center to establish more extensive cooperation with the Old Town of Lijiang to provide guidance for the protection of it.

5.3. Management System/Management Plan

5.3.1 - Please check the box which most closely match the character of the governance and management system of the property

Public management system joint national/ local

If 'Other', please specify

5.3.2 - Management System: Please indicate which of the various management tools listed below are used to help protect the property.

A statutory Management Plan or zoning plan for the property.
Other forms of statutory or non-statutory plans (e.g. strategic plans)
Traditional ways of management recognised by local communities and other specific groups
Governance mechanisms that foster and respect traditional practices, knowledge and uses of the property
Mechanisms to promote equal participation among and within groups, including different levels of authority, local communities, indigenous people, women and men, and other specific groups
A code of practice developed by local communities or other groups
A code of practice developed by industry
An integrated management plan combining World Heritage and any other designations
A management plan

An annual work plan or business plan
A disaster, climate or conflict risk management plan
A visitor/visitation management plan
An environmental management framework

5.3.3 - Please give a brief description of the management system currently in place at your property

Under the leadership of the Government of Lijiang, the World Cultural Heritage Management Bureau of the Old Town of Lijiang is responsible for the daily protection, management, display of Lijiang. In addition, there is also a special institution for heritage value research and monitoring. After a series of system reforms and functional optimization, the Lijiang Protection Management Agency has realized the integration of powers in protection management, tourism operation supervision, and daily social management affairs. At present, the entire management system is operating smoothly.

5.3.4 - Management Documents

Comment

The "List of Business Projects in Lijiang" (2019) was issued to regulate the development of business projects in it. Promulgated the "Interim Measures for the Management of Access and Exit of Business Projects in Lijiang" (2019) to establish and improve access, exit, identification, supervision, and incentive and punishment mechanisms that are compatible with the "List of Business Projects in Lijiang", accelerate the construction of Lijiang University The management system for market operation project entry and exit in Dayan market is standardized and has strong supervision.

5.3.5 - Has any use been made of the 2011 Recommendation on the Historic Urban Landscape in developing policies and best practices for the protection of this property?

No use has been made of the 2011 Recommendation on the Historic Urban Landscape

5.3.6 - If the Historic Urban Landscape Recommendation has been used at this property, please describe briefly what has been done.

no comment

5.3.7 - Has any use been made of the Policy Document on the Impacts of Climate Change on World Heritage Properties at the property?

No use has been made of the World Heritage Policy for Climate Change

5.3.8 - If the Climate Change policy has been used, please briefly describe what has been done along with any research on the impacts of Climate Change on the property:

no comment

5.3.9 - Has any use been made of the Strategy for Reducing Risks from Disasters at World Heritage Properties at the property ?

Some use has been made of the Strategy for Reducing Risks from Disasters at World Heritage Properties

5.3.10 - If the Strategy for Reducing Risks from Disasters at World Heritage Properties has been used, please briefly describe what has been done

In recent years, World Cultural Heritage Management Bureau of the Old Town of Lijiang has focused on disaster risks, especially emergency management plans for sudden disasters such as earthquakes and fires, and organized emergency drills on a regular basis. Since the outbreak of the new coronavirus in 2020, Lijiang Protection Management Agency has actively implemented national, provincial, and municipal epidemic prevention requirements, carried out epidemic prevention work, and summarized prevention and control experience, and updated epidemic prevention emergency plans.

5.3.11 - Rate the coordination between the various levels of administration (i.e. national/federal; regional/provincial/state; local/municipal etc.) involved in the management of the World Heritage property

There is **coordination** between the range of administrative bodies involved in the management of the property, but it could be improved

5.3.12 - Is the management system/plan adequate to maintain the property's Outstanding Universal Value?

The management system/plan is **fully adequate** to maintain the property's Outstanding Universal Value

5.3.13 - Is the management system being implemented?

The management system is being **fully implemented and monitored**

5.3.14 - Is there an annual work/action plan and is it being implemented?

An annual work/action plan **exists** and many of its activities are being implemented

5.3.15 - Does the management system include formal mechanisms and procedures that ensure participation and contribution of the following groups, living within or near the World Heritage property and/or buffer zone in management decisions that maintain the Outstanding Universal Value of the property?

		Not applicable	No mechanisms for participation	Some participation	Direct participation	Transformative participation in all relevant decision processes
5.3.15.1	Local communities	✗				
5.3.15.2	Local authorities	✗				
5.3.15.3	Landowners in the property and the buffer zone	✗				
5.3.15.4	Indigenous peoples	✗				
5.3.15.5	Women	✗				
5.3.15.6	Other specific groups	✗				
	If you selected, 'Other specific groups' please specify					

5.3.16 - Please rate the cooperation/relationship between the World Heritage property managers/coordinators/staff and the following groups

		Not applicable	Non-existent	Poor	Fair	Good
5.3.16.1	Local communities					✗
5.3.16.2	Local/Municipal authorities					✗
5.3.16.3	Indigenous peoples	✗				
5.3.16.4	Landowners				✗	
5.3.16.5	Women				✗	
5.3.16.6	Youth/Children				✗	
5.3.16.7	Researchers				✗	
5.3.16.8	Local Visitors/Tourists				✗	
5.3.16.9	National/International tourists				✗	
5.3.16.10	Tourism Industry				✗	
5.3.16.11	Local businesses and industries				✗	
5.3.16.12	NGOs				✗	
5.3.16.13	Other specific groups	✗				
	If you selected 'Other specific groups', please specify					

5.3.17 - Please rate the extent to which the management system of your property contributes towards achieving the objectives of the World Heritage Committee's Policy for the Integration of a Sustainable Development Perspective into the Processes of the *World Heritage Convention*

		Not applicable	No contribution	Limited	Significant	Full achievement
5.3.17.1	The management system of the property contributes to gender equality				✗	
5.3.17.2	The management system of the property provides ecosystem services/benefits to the local community (e.g. fresh air, water, food, medicinal plants)				✗	
5.3.17.3	The management system of the property contributes to social inclusion and equity, improving opportunities for all, irrespective of age, sex, disability, ethnicity, origin, religion or economic or other status				✗	
5.3.17.4	The management system of the property integrates a human rights-based approach				✗	
5.3.17.5	The management system of the property contributes to fostering inclusive local economic development, and to enhancing livelihood				✗	

5.3.17.6	The management system of the property contributes to conflict prevention, including respect for cultural diversity within and around the World Heritage property					✕	
----------	--	--	--	--	--	---	--

5.3.18 - Please provide further details on the ratings of the management system given in the table above

The existing management system fully takes into account the issue of gender equality of personnel, and there are regulations for guaranteeing gender equality in recruitment, hiring and personnel training. Environmental protection measures adopted by the agencies have played an important role in maintaining and improving the quality of the ecological environment. The protection of Lijiang promotes the multi-ethnic culture and local economic and social development, and has a positive impact on social integration, improvement of people's livelihood and cultural diversity.

5.3.19 - Comments, conclusions and/or recommendations related to the management system/plan

Conservation Management Plan for the World Cultural Heritage The Old Town of Lijiang (under revision)

6. Financial and Human Resources

6.1. Funding

6.1.1 - If your funding sources do not exactly fit those shown, put the relevant amounts against the funding type that most closely represents your situation, and use the comment box below to provide more details.

		Project costs	Running costs
6.1.1.1	Multilateral funding (GEF, World Bank, etc.)	0 %	0 %
6.1.1.2	Bilateral international funding	0 %	0 %
6.1.1.3	World Heritage Fund (International Assistance)	0 %	0 %
6.1.1.4	Contribution from other conventions and programmes	0 %	0 %
6.1.1.5	International donations (NGOs, foundations, etc.)	0 %	0 %
6.1.1.6	Governmental (national/federal)	0.1 %	0 %
6.1.1.7	Governmental (regional/provincial/state)	11 %	0 %
6.1.1.8	Governmental (local/municipal)	70 %	43 %
6.1.1.9	In-country donations (NGOs, foundations, etc.)	0 %	0 %
6.1.1.10	Individual visitor charges (e.g. entry, toilets, parking, camping fees, etc.)	0 %	7 %
6.1.1.11	Commercial activities (e.g. merchandising and catering, filming permit, concessions, etc.)	0 %	50 %
6.1.1.12	Other	19 %	0 %
		Total 100.1 %	Total 100 %

6.1.2 - Please comment here on any other aspects of funding sources not covered in the table above

One of the sources of funds for commercial activities is the value-added income of state-owned assets in the Old Town of Lijiang, and other sources include loans from commercial banks.

6.1.3 - Is the current budget sufficient to manage the World Heritage property effectively?

The available budget is acceptable but could be further improved to fully meet the management needs

6.1.4 - Are the existing sources of funding secure and likely to remain so?

The existing sources of funding are secure over the medium-term and planning is underway to secure funding over the long-term

6.1.5 - Comments, conclusion, and/or recommendations related to finance and infrastructure

It is recommended that the central and provincial finances increase funding to support the protection of Lijiang

6.1.6 - Estimate the distribution of men and women involved in the management, conservation, interpretation of the World Heritage properties and the extent to which they are drawn from local communities.

		From local communities %	From elsewhere %
6.1.6.1	Men	65 %	79 %
6.1.6.2	Women	35 %	21 %
		Total 100 %	Total 100 %

6.1.7 - Are available human resources adequate to manage the World Heritage property?

Human resources partly meet the management needs of the World Heritage property

6.1.8 - Considering the management needs of the World Heritage property, please rate the availability of professionals in the following disciplines

Conservation	Fair
Environmental sustainability	Fair
Community participation and inclusion	Fair
Risk preparedness	Fair
Capacity development and education	Fair
Administration	Fair
Research and monitoring	Fair
Awareness raising and public information/communication	Fair
Marketing and promotion	Fair
Interpretation	Fair
Visitor management/tourism	Fair
Enforcement (custodians, police)	Fair

6.1.9 - Please rate the availability of training opportunities for the management of the World Heritage property in the following disciplines

Conservation	Fair
Environmental sustainability	Fair
Community participation and inclusion	Fair
Risk preparedness	Fair
Capacity development and education	Fair
Administration	Fair
Research and monitoring	Fair
Awareness raising and public information/communication	Fair
Marketing and promotion	Fair
Interpretation	Fair
Visitor management/tourism	Fair

Enforcement (custodians, police)	Fair
----------------------------------	------

6.1.10 - Has any use been made of the World Heritage Strategy for Capacity Building at the property?

Some use has been made of the World Heritage Strategy for Capacity Building

6.1.11 - If the World Heritage Strategy for Capacity Building has been used, please briefly describe what has been done.

Conservation Management agencies of Old Town of Lijiang actively participate in various training or other forms of learning activities, especially by taking advantage of the opportunity of hosting the "first UNESCO-CACH China World Cultural Heritage Capacity Building Training Course" to promote capacity building. In addition, through cooperation with relevant university scientific research institutions, the understanding of the value of heritage continue to be deepened, conservation management practices are improved.

6.1.12 - Are there site-specific capacity building plans or programmes that develop local expertise and that contribute to the transfer of skills for the conservation and management of the World Heritage property?

A site-based capacity building plan or programme is in place and partially implemented; some technical skills are being transferred to those managing the property locally, but most technical work is carried out by external staff

6.1.13 - Comments, conclusions and/or recommendations related to human resources, expertise and training

It is recommended that UNESCO and its second-category centers, UNESCO World Heritage Center and its consulting agencies organize more online and offline training courses to provide relevant staff with more opportunities for study and communication; at the same time, through various ways of exchanges like those between local personnel visits to the similar type of heritage sites, and other international cooperation and exchanges, to learn more conservation management experience.

7. Scientific Studies and Research Projects

7.1 - Is there adequate knowledge (scientific or traditional) about the values and attributes of the World Heritage property to support planning, management and decision-making to ensure that Outstanding Universal Value is maintained?

Knowledge about the values and attributes of the World Heritage property is **acceptable** for most key areas but there are gaps

7.2 - Is there a planned programme of research at the property which is directed towards management needs and/or improving understanding of Outstanding Universal Value?

There is a **comprehensive, integrated programme** of research, which is relevant to management needs and/or improving understanding of Outstanding Universal Value

7.3 - Are results from research programmes publicly available and disseminated?

Research results are **shared with local communities and some national agencies**

7.4 - Comments, conclusions and/or recommendations related to scientific studies and research projects

Over the years, some Chinese universities and scientific research institutions have carried out long-term follow-up research on the Old Town of Lijiang, and set up a series of special topics, forming a batch of papers and monographs. Some of the research results have been adopted by the Lijiang government and used in conservation management practices. The Lijiang Cultural Research Association was established in the Old Town of Lijiang to carry out related research work and provide decision-making reference for conservation management.

8. Education, Information and Awareness Building

8.1 - Please rate the awareness and understanding of the existence and justification for inscription of the World Heritage property amongst the following groups

Local communities	Fair
Local/municipal authorities	Fair
Indigenous peoples	Not applicable
Landowners	Fair
Women	Fair
Youth/children	Fair
Researchers	Fair
Local visitors	Poor
National/international tourists	Poor
Tourism industry	Fair
Local businesses and industries	Fair
NGOs	Fair
Other specific groups	Not applicable
If you selected 'Other specific groups', please describe	

8.2 - Does the property have a heritage education programme(s) for children and/or youth, that can contribute to a better understanding of heritage, promote diversity and foster intercultural dialogue?

There is a planned education and awareness programme for children and/or youth but it **only partly meets the needs**

8.3 - Who are the target audiences for education and awareness programmes at your property?

Local communities
Local/municipal authorities
Landowners
Women
Youth/children
Researchers
Local Visitors
National/international tourists
Tourism industry
Local businesses and industries
NGOs

8.4 - Please rate the adequacy of the following visitor facilities and services at the World Heritage property for education, information, interpretation and awareness building

Visitor centre	Good
Site museum	Good
Information booths	Good
Guided tours	Good
Trails/routes	Good
Printed information materials	Good
Online (website, social media, etc.)	Good
Transportation facilities	Good
Other	Not needed
If 'Other' is selected, please specify	

8.5 - Comments, conclusions and/or recommendations related to education, information and awareness building

At present, the construction of relevant facilities can satisfy the interpretation, publicity, education and awareness building of information, and the local government and heritage protection management agencies are also planning to further update or upgrade these facilities and service levels. In the next step, a special study on the interpretation system of the heritage value of Lijiang will be conducted to provide a basis for better optimization of these facilities in the future.

9. Visitor Management

9.1 - Please provide estimated annual visitor numbers (including national and international visitors) since the last Periodic Report

15452578 / 10928234 / 13534818 / 12974681 / 11744227 /
--

9.2 - What information sources are used to collect visitor statistics?

Entry tickets and registries
Accommodation establishments
Transportation services
Tourism industry
Visitor surveys

9.3 - What is the average length stay of a visitor to the World Heritage property?

Overnight stay

9.4 - Please provide the source of information

According to the relevant statistical data of tickets and registration offices, accommodation agencies, transportation services, and tourism, combined with the analysis results of the big data statistical analysis platform for tourist flow in the Old Town of Lijiang, the comprehensive income is obtained.

9.5 - What is the approximate average daily visitor expenditure? (Please provide an estimated monetary figure in USD)

60 / 35 / 15 / 20 / 20 / 50 /

9.6 - Please provide the source of information

According to the 2019 sample survey report on domestic tourist expenditure in Lijiang City (calculated by enterprises), overnight tourists in Lijiang spend US\$200/person/day, and one-day trip tourists spend US\$123/person (provided by Lijiang Municipal Bureau of Culture and Tourism).

9.7 - Does the management system/plan for the World Heritage property include a strategy with an action plan to manage visitors, tourism activity and its derived economic, socio-cultural and environmental impacts?

There is **a strategy** to manage visitors, tourism activity and its derived impacts on the World Heritage property but there are **some deficiencies in implementation**

9.8 - Please provide any comments relating to the answer provided above in question 9.7

In June 2017, Lijiang passed the "Thirteenth Five-Year" Tourism Industry Development Plan of Lijiang City, clearly proposing to build Lijiang into an "international excellent tourist resort", with the Old Town of Lijiang as the core, integrating the Heilong Pool Scenic Area, Shuhe Old Town, The Old Town of Baisha, etc., to create a world cultural heritage tourism excellent route.

9.9 - Is visitor use effectively managed to maintain the Outstanding Universal Value of the property?

Visitor use of the World Heritage property is managed but **improvements could be made**

9.10 - Is the effectiveness of tourism management regularly monitored?

Yes, using a different system

If a different system, please specify

According to China's world cultural heritage monitoring indicators and related requirements.

9.11 - How does the tourism industry cooperate with the site management to improve visitor experiences and maintain the Outstanding Universal Value of the World Heritage property?

There is **good cooperation** between those responsible for the World Heritage property and the tourism industry to **present the Outstanding Universal Value and increase appreciation**

9.12 - How well is the information on the Outstanding Universal Value of the property presented and interpreted?

The presentation and interpretation of the Outstanding Universal Value of the property is **acceptable but improvements could be made**

9.13 - At how many locations is the World Heritage emblem displayed at the property?

In **many locations** and **easily visible** to visitors

9.14 - How does visitor/tourism revenue (e.g. entry charges, permits) contribute to the management of the World Heritage property?

Fees are collected and make a **substantial contribution** to the management of the World Heritage property

9.15 - Are there locally driven sustainable tourism initiatives?

Yes

If 'Yes', please specify

ijiang City's "Thirteenth Five-Year" tourism industry development plan (2016-2020) is currently being implemented."

9.16 - Are the benefits of tourism shared with local communities?

Yes

If 'Yes', please specify

The development of heritage tourism has effectively promoted the development of local communities, increased employment opportunities and incomes of residents in the community, and obtained more opportunities for cultural exchanges with outsiders through tourism services."

9.17 - Comments, conclusions and/or recommendations related to visitation/tourism/public use of the World Heritage property

no comment

10. Monitoring

10.1 - Is there a monitoring programme at the property directed towards management needs and/or towards improving the understanding of the Outstanding Universal Value?

There is **considerable monitoring** but it is not directed towards management needs and/or improving the understanding of Outstanding Universal Value

10.2 - Is necessary information available in order to define key indicators for measuring the state of conservation and are they used in monitoring how the Outstanding Universal Value of the property is being maintained?

Information on the values of the World Heritage property is **adequate and key indicators have been defined** but **monitoring of the status of indicators could be improved**

10.3 - Are key indicators defined and in place for the following principal aspects of the property?

	Extend of indicators	Not applicable	No indicators	Indicators have been defined but are not yet in use	Indicators are in place and in use since the last Periodic Reporting cycle
10.3.1	State of conservation				✖
10.3.2	Effectiveness of the management system				✖
10.3.3	Character of governance				✖
10.3.4	Appropriate synergy with other conservation designations		✖		
10.3.5	Contribution to sustainable development		✖		
10.3.6	Capacity development				✖

10.4 - Please provide information on relevant key indicators adopted at the property

The comprehensive monitoring plan has not been completed and implemented. The Old Town of Lijiang began to implement the "China World Cultural Heritage Monitoring Annual Report System" in 2015. The data required for the monitoring annual report covers the above indicators. Since the last periodic reporting cycle, The effectiveness of the protection situation and the management system as well as the characteristics of governance have been put in place and are in use.

10.5 - Please rate the level of involvement in monitoring of the following groups:

World Heritage managers/coordinators and staff	Good
Local/municipal authorities	Fair
Local communities	Fair
Indigenous peoples	Not applicable
Landowners	Fair

Women	Fair
Researchers	Fair
Tourism industry	Fair
Local businesses and industry	Fair
NGOs	Fair
Other specific groups	Not applicable
If you selected 'Other specific groups', please specify	

10.6 - Has the State Party implemented relevant recommendations arising from the World Heritage Committee?

Implementation is underway

10.7 - Please provide comments relevant to the implementation of recommendations from the World Heritage Committee.

Since 2015, the World Heritage Committee has not produced any relevant resolutions on the protection of Lijiang. According to the content of the previous resolution, the Lijiang Old Town Conservation Management Agency is revising the Conservation Management Plan for the Old Town of Lijiang.

10.8 - Comments, conclusions and/or recommendations related to Monitoring

no comment

11. Identification of Priority Management Needs

11.1 - Identification of Priority Management Needs

5.2	Protective Measures						
5.2.3	An adequate legal framework for maintaining of the Outstanding Universal Value including conditions of Authenticity and/or Integrity of the World Heritage property exists but there are some deficiencies in implementation						
5.2.4	An adequate legal framework in the buffer zone for maintaining the Outstanding Universal Value including conditions of Authenticity and/or Integrity of the World Heritage property exists but there are some deficiencies in implementation						
5.2.5	An adequate legal framework exists for the broader setting of the World Heritage property and the buffer zone, but there are some deficiencies in implementation which undermine the maintenance of the Outstanding Universal Value including conditions of Authenticity and/or Integrity of the property						
5.2.6	There is acceptable capacity/resources to enforce legislation and/or regulation in the World Heritage property but some deficiencies of enforcement remain						
5.3	Management System/Management Plan						
5.3.5	No use has been made of the Historic Urban Landscape Recommendation to develop policies and best practices for the protection of the property						
5.3.7	No use has been made of the Policy Document on the Impacts of Climate Change on World Heritage Properties at the property						
5.3.9	Some use has been made of the Strategy for Reducing Risks from Disasters at World Heritage Properties at the property						
5.3.11	There is coordination between the range of administrative bodies involved in the management of the property, but it could be improved						
6.1	Funding						
6.1.3	The available budget is acceptable but could be further improved to fully meet the management needs of the World Heritage property						
6.1.7	Human resources partly meet the management needs of the World Heritage property						
6.1.10	Some use has been made of the World Heritage Strategy for Capacity Development at the World Heritage property						
6.1.12	A site-based capacity building plan or programme is in place and partially implemented; some technical skills are being transferred to those managing the property locally, but most technical work is carried out by external staff						
8	Education, Information and Awareness Building						
8.2	There is a planned education and awareness programme for children and/or youth but it only partly meets the needs						
9	Visitor Management						
9.7	There is a strategy to manage visitors, tourism activity and its derived impacts on the World Heritage property but there are some deficiencies in implementation						
9.9	Visitor use of the World Heritage property is managed but improvements could be made						
9.12	The presentation and interpretation of the Outstanding Universal Value of the property is acceptable but improvements could be made						
10	Monitoring						
10.1	There is considerable monitoring at the World Heritage property but it is not directed towards management needs and/or improving understanding of Outstanding Universal Value						
10.2	Information on the values of the World Heritage property is adequate and key indicators have been defined but monitoring of the status of indicators could be improved

Summary - Management Needs completed

12.3. Conclusions on the State of Conservation of the Property

12.3.1 - Following the analysis undertaken for this report, what is the current state of Authenticity of the World Heritage property?

The Authenticity of the World Heritage property **has been preserved**

12.3.2 - Following the analysis undertaken for this report, what is the current state of Integrity of the World Heritage property?

The Integrity of the World Heritage property is **intact**

12.3.3 - Following the analysis undertaken for this report, what is the current state of the World Heritage property's Outstanding Universal Value?

The World Heritage property's Outstanding Universal Value has been **maintained**.

12.3.4 - What is the current state of the property's other values?

Other important cultural and/or natural values and the state of conservation of the World Heritage property are **intact**

12.3.5 - Comments, conclusions and/or recommendations related to the state of conservation of the property.

no comment

13. Impact of World Heritage Status

13.1 - Please rate the impacts of World Heritage status of the property in relation to the following areas

Conservation	Very positive
Research and monitoring	Very positive
Management effectiveness	Very positive
Quality of life for local communities and indigenous peoples	Very positive
Recognition	Positive
Education	Positive
Infrastructure development	Positive
Funding for the property	Positive
International cooperation	Positive
Political support for conservation	Positive
Legal/Policy framework	Positive
Advocacy	Positive
Institutional coordination	Positive
Security	Positive
Gender equality	Positive
Provision of ecosystem services/ benefits to local communities	Positive
Social inclusion and equity, and improvement of opportunities for all, irrespective of age, sex, disability, ethnicity, origin, religion, or economic or other status	Positive
Fostering inclusive local economic development and enhancing livelihood	Very positive
Contributing to conflict prevention, including respect for cultural diversity within and around heritage properties	Very positive
Other	Not applicable
If 'Other', please specify	

13.2 - Comments, conclusions and/or recommendations related to World Heritage status and its impacts

no comment

14. Good Practice in the Implementation of the World Heritage Convention

14.1 - Example of good practice in World Heritage protection, identification, conservation or management at the property level

no comment

14.2 - Define which topics are covered by this example of best practice at the property level

Sustainable Development
Synergies
State of Conservation
Management
Governance
Capacity Building

15. Assessment of the Periodic Reporting Exercise

15.1. Relevance of Periodic Reporting

15.1.1 - Has the Periodic Reporting process improved the understanding of the following?

The World Heritage Convention
The concept of Outstanding Universal Value
The property's Outstanding Universal Value
The concept of Integrity and/or Authenticity
The property's Integrity and/or Authenticity
Management effectiveness to maintain the Outstanding Universal Value
Monitoring and reporting

15.1.2 - Please rate the follow-up to conclusions and recommendations from previous Periodic Reporting exercise by the following entities

State Party	Good
Site Managers	Good
UNESCO World Heritage Centre	Good
Advisory Bodies (ICOMOS, IUCN, ICCROM)	Good

15.2. Use of Data

15.2.1 - How do the authorities in charge of the property plan to use the data recorded from this cycle of Periodic Reporting?

Revision of priorities/strategies/policies for the protection, management and conservation of heritage
Update of management plans
Fundraising
Awareness raising
Advocacy

15.2.2 - Comments on use of data from the Cycle of Periodic Reporting

no comment

15.3. Timing and resources

15.3.1 - Entities involved in the filling out of this online questionnaire (tick as many boxes as applicable)

Governmental institutions responsible for cultural and natural heritage
Site Manager/Coordinator World Heritage property staff
UNESCO National Commission
Local communities
Non-Governmental Organizations
External experts

15.3.2 - Has a gender balanced contribution and participation been considered in the filling out of this questionnaire?

Gender balance has been given limited consideration and implementation is in process.

15.3.3 - Were you given adequate time (i.e. roughly ten months) to gather necessary information and to fill in this questionnaire?

Yes

15.3.4 - Please estimate the time (working hours) needed to complete this questionnaire

240 / 56 / 20 /

15.3.5 - Did you mobilise any additional resources to fill out this questionnaire?

	Additional resources	No	Yes
15.3.5.1	Human resources		✕
15.3.5.2	Financial resources for organizing consultation meetings/ training		✕

15.4. Format and content of the Periodic Report

15.4.1 - How accessible was the information required to complete this questionnaire?

Not all required information was accessible.

15.4.2 - Was the questionnaire easy to use and clear to understand?

		Very Difficult	Difficult	Easy	Very easy
15.4.2.1	Ease of use of questionnaire		✕		
15.4.2.2	Clarity of questions		✕		

15.4.3 - Please provide suggestions for improvement of the Periodic Reporting questionnaire

It is suggested that the questionnaire can be further simplified in the future, the direction of related questions should be clearer, and some expressions should be easier to understand, especially considering the interpretation ability of the applicants from different language backgrounds.

15.5. Training and Guidance

15.5.1 - Please rate the level of support in terms of training and guidance from the following entities in completing this questionnaire

UNESCO World Heritage Centre	Fair
UNESCO (other sectors/field offices)	Fair
UNESCO National Commission	Fair
ICOMOS International	Fair
IUCN International	Not applicable
ICCROM international/regional	Fair
ICOMOS national/regional	Fair
IUCN national/regional	Not applicable

15.5.2 - Please rate the level of support for completing the Periodic Reporting questionnaire from the following entities

UNESCO World Heritage Centre	Good
State Party Representative (national Focal Point)	Good
UNESCO other sectors (e.g. field office)	Fair

National Commission for UNESCO	Fair
ICOMOS International	Fair
ICCROM International/regional	Fair
ICOMOS national/regional	Good
IUCN national/regional	Not applicable
IUCN International	Not applicable

15.5.3 - Were the online training resources prepared by the World Heritage Centre regarding Periodic Reporting adequate for you to complete this questionnaire?

No

15.5.4 - If you found that the online training resources were not adequate, what changes would you like to see implemented?

Provide more practical training opportunities and resource support, especially targeted case training guidance. In addition, the key difficulty lies in the understanding of the questions, which is more prone to ambiguity, and the necessity and direction of relevant comments need to be clearer.

15.6. Actions that will require formal consideration by the World Heritage Committee

15.6.1 - Summary of actions that will require formal consideration by the World Heritage Committee

- **Geographic information table**

Reason for update: According to the the latest surveying and mapping of the Old Town of Lijiang,the area of property is 743.5 hectares, which are: 84 hectares of Dayan Old Town, 17 hectares of Heilong Pool, and 21 hectares of Baisha Housing Cluster, 14.5 hectares of The Shuhe Housing Cluster, 454 hectares of the buffer zone of Dayan (including Heilong Pool) , 85 hectares of the buffer zone of Baisha, and 68 hectares of the buffer zone of Shuhe.

- **Map(s)**

Reason for update: According to the requirements of the World Heritage Center, the updated maps had been submitted.

Changes to these items will need to go through the proper processes.

15.7. Comments, conclusions and/or recommendations related to the Assessment of the Periodic Reporting Exercise

15.7.1 - Comments, conclusions and/or recommendations related to the Assessment of the Periodic Reporting Exercise

no comment

15.7.2 - Thank you for having filled in all the questions. Please contact your National Focal Point for validation.
