2.8 - Please add any further comments on cooperation with the other designation(s)/programme(s)

2.9 - Are you aware of any elements associated with the World Heritage property that have been inscribed on the Representative List of the Intangible Cultural Heritage?

No

2.10 - Please list any elements associated with the World Heritage property inscribed under the Convention for the Safeguarding of the Intangible Cultural Heritage of which you are aware

2.11 - Are you aware of any documentary heritage listed under the Memory of the World Programme associated with the World Heritage property?

No

2.12 - Please list any documentary heritage associated with the World Heritage property listed under the Memory of the World Programme of which you are aware.

3. Statement of Outstanding Universal Value

3.1 - Statement of Outstanding Universal Value for the property as adopted by the World Heritage Committee

Statement of Outstanding Universal Value

Brief Synthesis

Aphrodisias is located in southwestern Turkey, in the fertile valley formed by the Morsynus River, in the ancient region of Caria. The serial property consists of two components. The first component encompasses the archaeological site of Aphrodisias following the city walls that encircle the city; and the second component includes the marble quarries located northeast of the city. Aphrodisias was founded as a city-state in the early 2nd century BC. An orthogonal street grid defines the pattern of the city; only a few structures, such as the temple of the goddess Aphrodite, are not aligned with the grid. Because the city shared a close interest in the goddess Aphrodite with Sulla, Julius Caesar and the emperor Augustus, Aphrodisias came to have a close relationship with Rome. It obtained a privileged 'tax-free' political status from the Roman senate, and developed a strong artistic, sculptural tradition during the Imperial Period. Many elaborately decorated structures were erected during the period of Roman rule, all made from the local marble.

The Cult of Aphrodite was the most important cult of Aphrodisias. The sanctuary at Aphrodisias had a distinctive cult statue of Aphrodite which defined the city's identity. The Aphrodite of Aphrodisias combined aspects of a local Anatolian, archaic fertility goddess with those of the Hellenic Aphrodite, goddess of love and beauty. This identifying image has been found from Anatolia across the Mediterranean, from the city of Rome to the Levant. The importance of the Aphrodite of Aphrodisias continued well beyond official imperial acceptance of Christianity; the Temple did not become a church until c. AD 500.

The proximity of the marble quarries to the city was a major reason that Aphrodisias became an outstanding high-quality production centre for marble sculpture. Sculptors from the city were famous throughout the Roman Empire. They were well-known for virtuoso portrait sculpture and Hellenistic-style statues of gods and Dionysian figures. In late antiquity (4th-6th centuries AD), Aphrodisian sculptors were in great demand for marble portrait busts and statues of emperors, governors and philosophers in the major centres of the empire – for example, at Sardis, Stratonikeia, Laodikeia, Constantinople and Rome. In this period they were the best carvers of marble statues of their day. The techniques used, the quality of local artistic design, and the production of advanced portrait sculpture gave Aphrodisias a unique place in the Roman world.

Another key aspect of Aphrodisias was its cosmopolitan social structure (Greek, Roman, Carian, pagan, Jewish, Christian) that is abundantly articulated in the site's 2,000 surviving inscriptions.

Criterion (ii): The exceptional production of sculpted marble at Aphrodisias blends local, Greek, and Roman traditions, themes and iconography. It is visible throughout the city in an impressive variety of forms, from large decorated architectural blocks to larger than life-size statues to small portable votive figures. The proximity of good quarries with both pure white and grey marbles was a strong catalyst for the swift development of the city as a noted centre for marble-carving and marble-carvers. The ability of Aphrodisian sculptors was sought after in metropolitan Rome where signatures of Aphrodisian sculptors appear on some of the finest surviving works – for example, from Hadrian's Villa at Tivoli. These sculptors were major participants in the Empire's art market between the 1st and 5th centuries AD.

Criterion (iii): Aphrodisias occupies a pre-eminent place in the study of sculpture in the Roman world. Its quarries and its sculpture workshops made it a major art centre, famous for the creativity and technical skill of its sculptors. Aphrodisias has one of the very few known and systematically excavated sculpture workshops of the Roman Empire, which provides a fuller understanding of the production of marble sculpture than anywhere else in the Roman world.

Criterion (iv): Aphrodisias is an exceptional example of the built environment of a Greco-Roman city in inland Asia Minor. Several of its monumental marble buildings have unique features in terms of architecture and design. The Sebasteion, an elaborate cult complex for the worship of Augustus and the Julio-Claudian emperors, represents a distinctive integration of Hellenistic, Roman and Aphrodisian artistic traditions. The "Archive Wall" in the theatre is a well-preserved collection of official imperial documents regarding the status of the city under the Empire. The Theatre also features an early example of a stage building with an aediculated façade. The Stadium has an unusual architectural form with two curved ends, known as "amphitheatral", and is the best-preserved example of this type in the ancient world. The conversion of the Temple of Aphrodite into a cathedral, around AD 500, is unique among temple-to-church conversions in its engineering and transformative effect. The Tetracylon, the conspicuous entrance to the outer Sanctuary of Aphrodite, is preserved with its elaborate and exquisitely carved architectural ornament.

Criterion (vi): Aphrodisias was famous in antiquity as the cult centre of a version of Aphrodite which amalgamates aspects of an archaic Anatolian fertility goddess with those of the Hellenic goddess of love and beauty. The Aphrodite of Aphrodisias appears in marble figures from the site of Aphrodisias as well as from many other locations around the Mediterranean. This dissemination of the cult image is strong evidence of the regional and supra-regional importance of the cult.

Integrity

The property includes all elements necessary to express its values and has not suffered from significant geomorphological change or intensive human occupation since antiquity. The limits of the property ensure full representation of the attributes conveying the Outstanding Universal Value of both the city and the marble quarries. The property has been legally taken under control by the State, and appropriate policies and actions have been proposed within the conservation and management plans in order to sustain the integrity of the site.

Authenticity

The authenticity of the serial property is established through its quarries, monuments and sculptures, about 2,000 surviving inscriptions, a comprehensively studied history and a substantial body of published research. The work of conservation and restoration at Aphrodisias has been undertaken in conformity with the Charter of Venice, respecting their original designs and building materials. The landscape surrounding Aphrodisias has not been exposed to modern development or to mass tourism.

Protection and management requirements

Legal protection of the property has been provided by the Act on the Conservation of Cultural and Natural Property No. 2863 since 1978 for the ancient city and since 1981 for the quarries. By the decision No. 5580 of the Aydin Regional Conservation Council in 2016, legal protection has been strengthened for the quarries. Legal protection should be extended for the entirety of the buffer zone. The patrols by the local gendarmerie should be expanded in order to include the quarry component as well as the buffer zone.

The Ministry of Culture and Tourism with its central and local branches and the excavation team are the main bodies responsible for the conservation, protection, promotion and management of the site. Integration of the local community into the management system of the property needs to be strengthened.

The archaeological site is excavated, researched and conserved by the excavation team which is authorized by the government on an annual basis, and its work is regularly monitored by the Ministry of Culture and Tourism.

A Conservation Plan for the city component was prepared, and approved by the Aydin Regional Conservation Council in 2002. A full 3D inventory of the quarry faces should be conducted in order to provide a baseline record of their condition. There is a need for formulation and implementation of monitoring indicators for the quarry component as well as implementation of remedial conservation measures.

The Aphrodisias Management Plan, prepared under the supervision of the Ministry of Culture and Tourism with the support of Geyre Foundation, was approved on 17 September 2013 and its implementation is followed by the Advisory Board and the Supervision and Coordination Board, as well as the site manager appointed by the Ministry of Culture and Tourism. Both the conservation and management plans should be updated to reflect the extent of the property at the time of inscription.

Flooding in winter and wildfire in summer are the major natural risks to the property. For the prevention of flooding, a drainage plan within the walled city should be quickly implemented.

Also, a fire response plan and training in fire suppression should be developed. Mobile water tanks should be placed within the city during the summer as an interim measure until a permanent fire suppression system is installed.

3.2 - Please list the key attributes of Outstanding Universal Value of your property and give an assessment of their condition. As a guideline, it is suggested to focus on approximately five key attributes (no more than 15 overall).

	Brief identification of attribute	Preserved	Compromised	Seriously compromised	Lost

3.3 - Comments, conclusions and/or recommendations related to Statement of Outstanding Universal Value

Its Outstanding Universal Values are still under protection. Scientific, interdisciplinary research, conservation and monitoring studies are continuing in the ancient city. In this way, more data and information about Outstanding Universal Values such as Aphrodisias sculpture, urban texture and architecture, and the cult of Aphrodite can be accessed.

4. Factors Affecting the Property

4.1. Buildings and Development

4.1.1 - Housing

✕ Relevant			Not relevant				
	Impact		Origin		Trend of impact		
Impact	🔥 Current	🔨 Potential	📍 Inside	🏠 Outside	↘ Decreasing	→ Stable	↗ Increasing
➕ Positive							
➖ Negative ✕	✕		✕	✕		→

4.13.9 - Please comment as necessary on how the factors selected as relevant in 4.13 are affecting the property either negatively or positively

The revision of the Aphrodisias area Management Plan continues. Turkey's Site Management legislation provides the necessary legal framework for the management of World Heritage Sites. The Site Presidency institution carries out the management together with the Excavation Directorate and other related official and civil institutions. Management activities are made more effective within the framework of the revised management plan.

4.17. Serial inscriptions (national or transnational)

4.17.1 - If your property is a serial inscription (national or transnational) please identify which components of the property are impacted by each factor

4.18. Prediction of the state of conservation at next cycle of Periodic Reporting.

4.18.1 - Please predict what the state of conservation of each attribute will be approximately 6 years from now (at the time of the next cycle of Periodic Reporting)

	Attribute	Preserved	Compromised	Seriously compromised	Lost
4.18.1.1					
4.18.1.2					
4.18.1.3					
4.18.1.4					
4.18.1.5					

5. Protection and Management of the Property

5.1. Boundaries and Buffer Zones

5.1.1 - Are the boundaries of the World Heritage property adequate to maintain the property's Outstanding Universal Value?

The boundaries are **adequate to maintain** the property's Outstanding Universal Value

5.1.2 - Are the boundaries of the World Heritage property known and recognised?

The boundaries **are known by both** the management authority and local communities/landowners

5.1.3 - Are the buffer zone(s) of the World Heritage property adequate to maintain the property's Outstanding Universal Value?

The buffer zones **do not limit** the ability to maintain the property's Outstanding Universal Value but they could be improved

5.1.4 - Are the boundaries of the buffer zones known and recognised?

The buffer zones of the World Heritage property **are known and recognised by both** the management authority and local communities/landowners

5.1.5 - Comments, conclusions and/or recommendations related to boundaries and buffer zones of the World Heritage property

The boundaries and buffer zones of the heritage site are publicly recognized, explanatory visual boards can be made for the public to see

5.2. Protective Measures

5.2.1 - Protective designation (legal, regulatory, contractual, planning, institutional and/or traditional).

5.2.2 - Please list any legislation and other measures (regulatory -including spatial planning- contractual, institutional or traditional) not included in 5.2.1 and indicate the category

5.2.3 - Is the legal framework (i.e. legislation and/or regulation including spatial planning) adequate for maintaining the Outstanding Universal Value including conditions of Integrity and/or Authenticity of the property?

The **legal framework** for maintaining of the Outstanding Universal Value including conditions of Authenticity and/or Integrity of the World Heritage property provides an **adequate basis for effective management and protection**

5.2.4 - Is the legal framework (i.e. legislation and/or regulation) adequate in the buffer zone for maintaining the Outstanding Universal Value including conditions of Integrity and/or Authenticity of the property?

The **legal framework** in the buffer zone for the maintenance of the Outstanding Universal Value including conditions of Authenticity and/or Integrity of the World Heritage property provides an **adequate basis for effective management and protection**

5.2.5 - Is the legal framework (i.e. legislation and/or regulation) in the broader setting of the World Heritage property adequate for maintaining the Outstanding Universal Value including conditions of Integrity and/or Authenticity of the property?

The **legal framework** for the broader setting of the World Heritage property provides an **adequate basis for effective management and protection** of the property, contributing to the maintenance of its Outstanding Universal Value including conditions of Authenticity and/or Integrity

5.2.6 - Can the legal framework (i.e. legislation and/or regulation) be enforced?

There is **acceptable capacity/resources** to enforce legislation and/or regulation in the World Heritage property but some deficiencies of enforcement remain

5.2.7 - Please provide a short summary of how the legislation, including spatial planning and other regulation, works in practice

Site management plan projects have been implemented. Relevant institutions are included in the process

5.2.8 - Comments, conclusions and/or recommendations about the information related to the measures taken to protect the World Heritage property

5.3. Management System/Management Plan

5.3.1 - Please check the box which most closely match the character of the governance and management system of the property

Public management system joint national/ local

If 'Other', please specify

5.3.2 - Management System: Please indicate which of the various management tools listed below are used to help protect the property.

A statutory Management Plan or zoning plan for the property.

An integrated management plan combining World Heritage and any other designations

A management plan

An annual work plan or business plan

An environmental management framework

A joint approach to management of cultural and natural heritage

5.3.3 - Please give a brief description of the management system currently in place at your property

The management plan is in the revision stage. It is followed by the site presidency.

5.3.4 - Management Documents

Title	Status	Available	Date	Link to source
Management Plan	N/A	Available	2017	

5.3.5 - Has any use been made of the 2011 Recommendation on the Historic Urban Landscape in developing policies and best practices for the protection of this property?

Some use has been made of the 2011 Recommendation on the Historic Urban Landscape

5.3.6 - If the Historic Urban Landscape Recommendation has been used at this property, please describe briefly what has been done.

5.3.7 - Has any use been made of the Policy Document on the Impacts of Climate Change on World Heritage Properties at the property?

No use has been made of the World Heritage Policy for Climate Change

5.3.8 - If the Climate Change policy has been used, please briefly describe what has been done along with any research on the impacts of Climate Change on the property:

5.3.9 - Has any use been made of the Strategy for Reducing Risks from Disasters at World Heritage Properties at the property ?

No use has been made of the Strategy for Reducing Risks from Disasters at World Heritage Properties

5.3.10 - If the Strategy for Reducing Risks from Disasters at World Heritage Properties has been used, please briefly describe what has been done

5.3.11 - Rate the coordination between the various levels of administration (i.e. national/federal; regional/provincial/state; local/municipal etc.) involved in the management of the World Heritage property

There is **coordination** between the range of administrative bodies involved in the management of the property, **but it could be improved**

5.3.12 - Is the management system/plan adequate to maintain the property's Outstanding Universal Value?

The management system/plan is **only partially adequate** to maintain the property's Outstanding Universal Value

5.3.13 - Is the management system being implemented?

The management system is being **fully implemented and monitored**

5.3.14 - Is there an annual work/action plan and is it being implemented?

An annual work/action plan **exists and many of its activities are being implemented**

5.3.15 - Does the management system include formal mechanisms and procedures that ensure participation and contribution of the following groups, living within or near the World Heritage property and/or buffer zone in management decisions that maintain the Outstanding Universal Value of the property?

		Not applicable	No mechanisms for participation	Some participation	Direct participation	Transformative participation in all relevant decision processes
5.3.15.1	Local communities			✗		
5.3.15.2	Local authorities					✗
5.3.15.3	Landowners in the property and the buffer zone			✗		
5.3.15.4	Indigenous peoples			✗		
5.3.15.5	Women			✗		
5.3.15.6	Other specific groups		✗			
	If you selected, 'Other specific groups' please specify					

5.3.16 - Please rate the cooperation/relationship between the World Heritage property managers/coordinators/staff and the following groups

		Not applicable	Non-existent	Poor	Fair	Good
5.3.16.1	Local communities				✗	
5.3.16.2	Local/Municipal authorities				✗	
5.3.16.3	Indigenous peoples	✗				
5.3.16.4	Landowners			✗		
5.3.16.5	Women			✗		
5.3.16.6	Youth/Children					✗
5.3.16.7	Researchers				✗	
5.3.16.8	Local Visitors/Tourists				✗	
5.3.16.9	National/International tourists				✗	
5.3.16.10	Tourism Industry				✗	
5.3.16.11	Local businesses and industries			✗		
5.3.16.12	NGOs					✗
5.3.16.13	Other specific groups		✗			
	If you selected 'Other specific groups', please specify					

5.3.17 - Please rate the extent to which the management system of your property contributes towards achieving the objectives of the World Heritage Committee's Policy for the Integration of a Sustainable Development Perspective into the Processes of the *World Heritage Convention*

		Not applicable	No contribution	Limited	Significant	Full achievement
5.3.17.1	The management system of the property contributes to gender equality			✗		
5.3.17.2	The management system of the property provides ecosystem services/benefits to the local community (e.g. fresh air, water, food, medicinal plants)		✗			
5.3.17.3	The management system of the property contributes to social inclusion and equity, improving opportunities for all, irrespective of age, sex, disability, ethnicity, origin, religion or economic or other status		✗			

5.3.17.4	The management system of the property integrates a human rights-based approach		×			
5.3.17.5	The management system of the property contributes to fostering inclusive local economic development, and to enhancing livelihood				×	
5.3.17.6	The management system of the property contributes to conflict prevention, including respect for cultural diversity within and around the World Heritage property					×

5.3.18 - Please provide further details on the ratings of the management system given in the table above

5.3.19 - Comments, conclusions and/or recommendations related to the management system/plan

It would be beneficial to have a system that has increased management system services, has a practical and effective application capacity, provides scientifically-based support and financing, keeps the field information up-to-date, evaluates, trains and follows the production and operation.

6. Financial and Human Resources

6.1. Funding

6.1.1 - If your funding sources do not exactly fit those shown, put the relevant amounts against the funding type that most closely represents your situation, and use the comment box below to provide more details.

		Project costs	Running costs
6.1.1.1	Multilateral funding (GEF, World Bank, etc.)	0 %	0 %
6.1.1.2	Bilateral international funding	0 %	0 %
6.1.1.3	World Heritage Fund (International Assistance)	0 %	0 %
6.1.1.4	Contribution from other conventions and programmes	0 %	0 %
6.1.1.5	International donations (NGOs, foundations, etc.)	10 %	10 %
6.1.1.6	Governmental (national/federal)	100 %	100 %
6.1.1.7	Governmental (regional/provincial/state)	0 %	0 %
6.1.1.8	Governmental (local/municipal)	0 %	0 %
6.1.1.9	In-country donations (NGOs, foundations, etc.)	10 %	10 %
6.1.1.10	Individual visitor charges (e.g. entry, toilets, parking, camping fees, etc.)	0 %	0 %
6.1.1.11	Commercial activities (e.g. merchandising and catering, filming permit, concessions, etc.)	0 %	0 %
6.1.1.12	Other	40 %	20 %
		Total 160 %	Total 140 %

6.1.2 - Please comment here on any other aspects of funding sources not covered in the table above

6.1.3 - Is the current budget sufficient to manage the World Heritage property effectively?

The available **budget is inadequate** for basic management needs and presents a serious constraint to the capacity to manage

6.1.4 - Are the existing sources of funding secure and likely to remain so?

The existing sources of funding are **secure over the medium-term** and **planning is underway to secure funding over the long-term**

6.1.5 - Comments, conclusion, and/or recommendations related to finance and infrastructure

6.1.6 - Estimate the distribution of men and women involved in the management, conservation, interpretation of the World Heritage properties and the extent to which they are drawn from local communities.

		From local communities %	From elsewhere %
6.1.6.1	Men	60 %	40 %
6.1.6.2	Women	40 %	60 %
		Total 100 %	Total 100 %

6.1.7 - Are available human resources adequate to manage the World Heritage property?

Human resources are **inadequate** for management needs

6.1.8 - Considering the management needs of the World Heritage property, please rate the availability of professionals in the following disciplines

Conservation	Good
Environmental sustainability	Good
Community participation and inclusion	Fair
Risk preparedness	Good

Capacity development and education	Good
Administration	Fair
Research and monitoring	Good
Awareness raising and public information/communication	Good
Marketing and promotion	Fair
Interpretation	Fair
Visitor management/tourism	Good
Enforcement (custodians, police)	Good

6.1.9 - Please rate the availability of training opportunities for the management of the World Heritage property in the following disciplines

Conservation	Poor
Environmental sustainability	Poor
Community participation and inclusion	Poor
Risk preparedness	Good
Capacity development and education	Poor
Administration	Fair
Research and monitoring	Good
Awareness raising and public information/communication	Fair
Marketing and promotion	Not applicable
Interpretation	Not applicable
Visitor management/tourism	Good
Enforcement (custodians, police)	Fair

6.1.10 - Has any use been made of the World Heritage Strategy for Capacity Building at the property?

Some use has been made of the World Heritage Strategy for Capacity Building

6.1.11 - If the World Heritage Strategy for Capacity Building has been used, please briefly describe what has been done.

It was used in participatory planning studies.

6.1.12 - Are there site-specific capacity building plans or programmes that develop local expertise and that contribute to the transfer of skills for the conservation and management of the World Heritage property?

A site-based capacity building plan or programme is in place and partially implemented; some technical skills are being transferred to those managing the property locally, **but most technical work is carried out by external staff**

6.1.13 - Comments, conclusions and/or recommendations related to human resources, expertise and training

7. Scientific Studies and Research Projects

7.1 - Is there adequate knowledge (scientific or traditional) about the values and attributes of the World Heritage property to support planning, management and decision-making to ensure that Outstanding Universal Value is maintained?

Knowledge about the values and attributes of the World Heritage property is **adequate**

7.2 - Is there a planned programme of research at the property which is directed towards management needs and/or improving understanding of Outstanding Universal Value?

There is a **comprehensive, integrated programme** of research, which is relevant to management needs and/or improving understanding of Outstanding Universal Value

7.3 - Are results from research programmes publicly available and disseminated?

Research results **are shared** widely with **active outreach** to local communities and national and international audiences

7.4 - Comments, conclusions and/or recommendations related to scientific studies and research projects

8. Education, Information and Awareness Building

8.1 - Please rate the awareness and understanding of the existence and justification for inscription of the World Heritage property amongst the following groups

Local communities	Fair
-------------------	------

Local/municipal authorities	Good
Indigenous peoples	Not applicable
Landowners	Fair
Women	Fair
Youth/children	Fair
Researchers	Good
Local visitors	Good
National/international tourists	Good
Tourism industry	Good
Local businesses and industries	Good
NGOs	Good
Other specific groups	Not applicable
If you selected 'Other specific groups', please describe	

8.2 - Does the property have a heritage education programme(s) for children and/or youth, that can contribute to a better understanding of heritage, promote diversity and foster intercultural dialogue?

There is a planned and effective education and awareness programme for children and youth that contributes to the protection of the World Heritage property

8.3 - Who are the target audiences for education and awareness programmes at your property?

Local communities
Local/municipal authorities
Landowners
Youth/children
Researchers
Local Visitors
National/international tourists
Tourism industry
Local businesses and industries
NGOs

8.4 - Please rate the adequacy of the following visitor facilities and services at the World Heritage property for education, information, interpretation and awareness building

Visitor centre	Poor
Site museum	Fair
Information booths	Good
Guided tours	Poor
Trails/routes	Good
Printed information materials	Good
Online (website, social media, etc.)	Good
Transportation facilities	Good
Other	Not needed
If 'Other' is selected, please specify	

8.5 - Comments, conclusions and/or recommendations related to education, information and awareness building

Public transport solutions are insufficient to access the site. visitor center functions are insufficient, there was no organized solution. However, since the area is a 1st degree protected area, the building was not built.

9. Visitor Management

9.1 - Please provide estimated annual visitor numbers (including national and international visitors) since the last Periodic Report

79.664 / 39.234 / 34.016 / no information / no information /

9.2 - What information sources are used to collect visitor statistics?

Entry tickets and registries

9.3 - What is the average length stay of a visitor to the World Heritage property?

One to three hours

9.4 - Please provide the source of information

Observations of the excavation directorate

9.5 - What is the approximate average daily visitor expenditure? (Please provide an estimated monetary figure in USD)

80 / 30 / 30 / 10 / 0 / 20 /

9.6 - Please provide the source of information

Observations of the museum directorate and excavation directorate

9.7 - Does the management system/plan for the World Heritage property include a strategy with an action plan to manage visitors, tourism activity and its derived economic, socio-cultural and environmental impacts?

There **is a strategy** to manage visitors, tourism activity and its derived impacts on the World Heritage property but there are **some deficiencies in implementation**

9.8 - Please provide any comments relating to the answer provided above in question 9.7

The site management plan is being revised. Excavations Directorate, Museum Directorate, District Governorship and Geyre Foundation cooperate and are active in tourism management.

9.9 - Is visitor use effectively managed to maintain the Outstanding Universal Value of the property?

Visitor use of the World Heritage property is **effectively managed and does not impact its Outstanding Universal Value**

9.10 - Is the effectiveness of tourism management regularly monitored?

Yes, using a different system

If a different system, please specify

The existence of the Museum Directorate, the control of the number of visitors with ticket sales.

9.11 - How does the tourism industry cooperate with the site management to improve visitor experiences and maintain the Outstanding Universal Value of the World Heritage property?

There is **good cooperation** between those responsible for the World Heritage property and the tourism industry **to present the Outstanding Universal Value and increase appreciation**

9.12 - How well is the information on the Outstanding Universal Value of the property presented and interpreted?

The Outstanding Universal Value of the property **is adequately presented and interpreted**

9.13 - At how many locations is the World Heritage emblem displayed at the property?

In **one location** and **easily visible** to visitors

9.14 - How does visitor/tourism revenue (e.g. entry charges, permits) contribute to the management of the World Heritage property?

Fees are collected, and make **some contribution** to the management of the World Heritage property

9.15 - Are there locally driven sustainable tourism initiatives?

Yes

If 'Yes', please specify

9.16 - Are the benefits of tourism shared with local communities?

Yes

If 'Yes', please specify

9.17 - Comments, conclusions and/or recommendations related to visitation/tourism/public use of the World Heritage property

10. Monitoring

10.1 - Is there a monitoring programme at the property directed towards management needs and/or towards improving the understanding of the Outstanding Universal Value?

There is a **comprehensive, integrated programme of monitoring**, which is relevant to management needs and/or improving understanding of the Outstanding Universal Value

10.2 - Is necessary information available in order to define key indicators for measuring the state of conservation and are they used in monitoring how the Outstanding Universal Value of the property is being maintained?

Information on the values of the World Heritage property is **adequate** and **key indicators have been defined** but **monitoring of the status of indicators could be improved**

10.3 - Are key indicators defined and in place for the following principal aspects of the property?

	Extend of indicators	Not applicable	No indicators	Indicators have been defined but are not yet in use	Indicators are in place and in use since the last Periodic Reporting cycle
10.3.1	State of conservation				✗
10.3.2	Effectiveness of the management system				✗
10.3.3	Character of governance				✗
10.3.4	Appropriate synergy with other conservation designations				✗
10.3.5	Contribution to sustainable development		✗		
10.3.6	Capacity development		✗		

10.4 - Please provide information on relevant key indicators adopted at the property

A conservation report is submitted to the Ministry at the end of each season. State of Conservation Report is also presented to UNESCO. A separate serial indicator and monitoring program is available for Quarries.

10.5 - Please rate the level of involvement in monitoring of the following groups:

World Heritage managers/coordinators and staff	Good
Local/municipal authorities	Good
Local communities	Poor
Indigenous peoples	Non-existent
Landowners	Fair
Women	Poor
Researchers	Good
Tourism industry	Fair
Local businesses and industry	Poor
NGOs	Good
Other specific groups	Not applicable
If you selected 'Other specific groups', please specify	

10.6 - Has the State Party implemented relevant recommendations arising from the World Heritage Committee?

Implementation is underway

10.7 - Please provide comments relevant to the implementation of recommendations from the World Heritage Committee.

As recommended, the site management plan revision process continues.

10.8 - Comments, conclusions and/or recommendations related to Monitoring

Monitoring should always be transparent and accessible, it should be able to be revised according to conditions and variables, and its traceability should be ensured.

11. Identification of Priority Management Needs

11.1 - Identification of Priority Management Needs

5.2	Protective Measures	
5.2.6	There is acceptable capacity/resources to enforce legislation and/or regulation in the World Heritage property but some deficiencies of enforcement remain	
5.3	Management System/Management Plan	
5.3.5	Some use has been made of the Historic Urban Landscape Recommendation to develop policies and best practices for the protection of the property	
5.3.7	No use has been made of the Policy Document on the Impacts of Climate Change on World Heritage Properties at the property	✗
5.3.9	No use has been made of the Strategy for Reducing Risks from Disasters at World Heritage Properties at the property	✗
5.3.11	There is coordination between the range of administrative bodies involved in the management of the property, but it could be improved	✗
5.3.12	The management system/plan is only partially adequate to maintain the property's Outstanding Universal Value	
5.3.17	<ul style="list-style-type: none"> In a limited manner, the management system of the World Heritage property does contribute to gender equality The management system of the World Heritage property does not provide ecosystem services/benefits to the local community (e.g. fresh air, water, food, medicinal plants) The management system of the World Heritage property does not contribute to social inclusion and equity, improving opportunities for all, irrespective of age, sex, disability, ethnicity, origin, religion or economic or other status The management system of the World Heritage property does not integrate a human rights-based approach 	✗

6.1	Funding	
6.1.3	The available budget is inadequate for basic management needs and presents a serious constraint to the capacity to manage the World Heritage property	✕
6.1.7	Human resources are inadequate for the management needs of the World Heritage property	✕
6.1.10	Some use has been made of the World Heritage Strategy for Capacity Development at the World Heritage property	✕
6.1.12	A site-based capacity building plan or programme is in place and partially implemented; some technical skills are being transferred to those managing the property locally, but most technical work is carried out by external staff	✕
9	Visitor Management	
9.7	There is a strategy to manage visitors, tourism activity and its derived impacts on the World Heritage property but there are some deficiencies in implementation	✕
10	Monitoring	
10.2	Information on the values of the World Heritage property is adequate and key indicators have been defined but monitoring of the status of indicators could be improved	✕

12. Summary and Conclusions

12.1. Summary - Factors affecting the Property

12.1.1 - Summary - Factors affecting the Property

4.3	Services Infrastructures						
4.3.1	Water infrastructure	Important	Infrastructure implementations	By relevant institutions	Continuous	Relevant institutions	Multiple drainage solutions have already been implemented in the monumental centre; however, DSI still needs to plan and implement the additional drainage systems recommended along the Karacasu – Tavas road to prevent floods.
4.4	Pollution						
4.4.5	Solid waste	Legal	Followed by relevant institutions	Continuous	Continuous	By relevant institutions, municipalities	More efficient solutions should be devised to manage waste collection at the archaeological site, especially during high season.
4.7	Local conditions affecting physical fabric						
4.7.3	Temperature	Meteorological data	There is no available study	Low monitoring	From time to time	Relevant institutions	Meteorological data for the province are accessible via the Turkish State Meteorological Service's websites. Monitoring and prevention tasks to prepare for expected extreme weather conditions should be assigned to relevant institutions.
4.7.4	Radiation/Light	Meteorological data	There is no available implementation	Not available	Not available	None	The exposed architectural remains at Aphrodisias are not at significant risk of damage caused by solar radiation. Data on solar radiation are accessible via the Turkish State Meteorological Service's official websites.

4.7.6	Water (rain/water table)	Meteorological and geological data	A preliminary study was made.	Surface monitoring - low.	Every 10 years	General Directorate of State Hydraulic Works (DS)	Further research is needed to determine if the springs flow underground, contributing to rising groundwater levels. DSI should undertake this study in preparation for extreme rainfall.
4.7.8	Micro-organisms	No designated criteria	Regular cleaning works carried out on the structures	By excavation directorate	Seasonal	Relevant institution and excavation directorate	The exposed architectural remains at Aphrodisias are not at significant risk of damage caused by micro-organisms. The excavation directorate and the museum carry out regular observations and necessary annual cleaning.
4.9	Other human activities						
4.9.1	Illegal activities	-	Regular surveillance	By using technological means and surveillance of police and gendarme force	Continuous	By relevant institutions	Local gendarmerie station patrolling and security surveillance have been effective in preventing illegal activities. The revised site management plan addresses the maintenance of the camera surveillance and the amelioration of its cabling.
4.10	Climate change and severe weather events						
4.10.1	Storms	Meteorological data	Meteorological data is available. There is a lightning rod at the highest point of the site.	Meteorological data and forecasts are accessible via the Turkish State Meteorological Service's official websites.	Continuous	-	Storms are not currently a major risk for Aphrodisias. A coordinated communication concerning expected storms and precautions would be useful, together with other extreme weather conditions.
4.10.2	Flooding	Meteorological data	Infrastructure works planned against flood From time to time	From time to time	Stable	General directorate of state hydraulic works, municipalities, excavation directorate	Flooding is an important risk for Aphrodisias. Drainage measures have been taken at the archaeological site. DSI must plan and implement the additional drainage systems recommended along the Karacasu – Tavas road to prevent floods.
4.13	Management and institutional factors						
4.13.1	Management system/Management plan	Management Plan	Can be improved	Monitoring can be enhanced with regular follow-up	Regular	Ministry of Culture and Tourism and its local branches	The SMP is currently being revised. The stakeholder analysis and the SWOT are reassessed. A new set of tasks will be assigned to relevant parties. Better coordination will be established among the major decision-makers and institutions in the field.

Summary - Factors affecting the Property **completed**

12.2. Summary - Management Needs

12.2.1 - Summary - Management Needs

5.3	Management System/Management Plan						
		Actions	Timeframe	Lead agency (and others involved)	More info / comment		

5.3.7	No use has been made of the Policy Document on the Impacts of Climate Change on World Heritage Properties at the property	Bir çalı ma yoktur	Dura an	İgili Kazı Ba kanlı ı, Metooroloji Müdürlü ü	Yönetim planında bu hususta ara tırma planlanmalıdır

Summary - Management Needs completed

12.3. Conclusions on the State of Conservation of the Property

12.3.1 - Following the analysis undertaken for this report, what is the current state of Authenticity of the World Heritage property?

The Authenticity of the World Heritage property **has been preserved**

12.3.2 - Following the analysis undertaken for this report, what is the current state of Integrity of the World Heritage property?

The Integrity of the World Heritage property is **intact**

12.3.3 - Following the analysis undertaken for this report, what is the current state of the World Heritage property's Outstanding Universal Value?

The World Heritage property's Outstanding Universal Value has been **maintained**.

12.3.4 - What is the current state of the property's other values?

Other important cultural and/or natural values and the state of conservation of the World Heritage property are **intact**

12.3.5 - Comments, conclusions and/or recommendations related to the state of conservation of the property.

13. Impact of World Heritage Status

13.1 - Please rate the impacts of World Heritage status of the property in relation to the following areas

Conservation	Very positive
Research and monitoring	Very positive
Management effectiveness	Positive
Quality of life for local communities and indigenous peoples	Positive
Recognition	Very positive
Education	Positive
Infrastructure development	Positive
Funding for the property	Positive
International cooperation	No impact
Political support for conservation	Positive
Legal/Policy framework	Very positive
Advocacy	No impact
Institutional coordination	Positive
Security	Positive
Gender equality	No impact
Provision of ecosystem services/ benefits to local communities	No impact
Social inclusion and equity, and improvement of opportunities for all, irrespective of age, sex, disability, ethnicity, origin, religion, or economic or other status	No impact
Fostering inclusive local economic development and enhancing livelihood	No impact
Contributing to conflict prevention, including respect for cultural diversity within and around heritage properties	No impact
Other	Not applicable
If 'Other', please specify	

13.2 - Comments, conclusions and/or recommendations related to World Heritage status and its impacts

DM status has had positive effects on overall coordinated governance and conservation of the area.

14. Good Practice in the Implementation of the World Heritage Convention

14.1 - Example of good practice in World Heritage protection, identification, conservation or management at the property level

Controlling the closure and opening of existing businesses within the scope of legislation in order to protect quarries nstalled security system Making physical arrangements for visitors.Becoming a center of attraction by the declaration of world heritage

14.2 - Define which topics are covered by this example of best practice at the property level

Synergies
State of Conservation
Capacity Building

15. Assessment of the Periodic Reporting Exercise

15.1. Relevance of Periodic Reporting

15.1.1 - Has the Periodic Reporting process improved the understanding of the following?

The concept of Outstanding Universal Value
The property's Outstanding Universal Value
The concept of Integrity and/or Authenticity

The property's Integrity and/or Authenticity
Management effectiveness to maintain the Outstanding Universal Value
Monitoring and reporting

15.1.2 - Please rate the follow-up to conclusions and recommendations from previous Periodic Reporting exercise by the following entities

State Party	Good
Site Managers	Good
UNESCO World Heritage Centre	Not needed
Advisory Bodies (ICOMOS, IUCN, ICCROM)	Good

15.2. Use of Data

15.2.1 - How do the authorities in charge of the property plan to use the data recorded from this cycle of Periodic Reporting?

Revision of priorities/strategies/policies for the protection, management and conservation of heritage
Update of management plans
Awareness raising
Other

15.2.2 - Comments on use of data from the Cycle of Periodic Reporting

15.3. Timing and resources

15.3.1 - Entities involved in the filling out of this online questionnaire (tick as many boxes as applicable)

Governmental institutions responsible for cultural and natural heritage
Site Manager/Coordinator World Heritage property staff
Staff from other World Heritage properties
UNESCO National Commission
Local communities
Other specific groups
Excavation Department
ICOMOS national/regional

15.3.2 - Has a gender balanced contribution and participation been considered in the filling out of this questionnaire?

Gender balance has **not been explicitly** considered or implemented in the process.

15.3.3 - Were you given adequate time (i.e. roughly ten months) to gather necessary information and to fill in this questionnaire?

No

15.3.4 - Please estimate the time (working hours) needed to complete this questionnaire

50 / 10 / 10 /

15.3.5 - Did you mobilise any additional resources to fill out this questionnaire?

	Additional resources	No	Yes
15.3.5.1	Human resources		×
15.3.5.2	Financial resources for organizing consultation meetings/ training		×

15.4. Format and content of the Periodic Report

15.4.1 - How accessible was the information required to complete this questionnaire?

Most required information was accessible.

15.4.2 - Was the questionnaire easy to use and clear to understand?

		Very Difficult	Difficult	Easy	Very easy
15.4.2.1	Ease of use of questionnaire	×			
15.4.2.2	Clarity of questions	×			

15.4.3 - Please provide suggestions for improvement of the Periodic Reporting questionnaire

15.5. Training and Guidance

15.5.1 - Please rate the level of support in terms of training and guidance from the following entities in completing this questionnaire

UNESCO World Heritage Centre	Poor
UNESCO (other sectors/field offices)	Fair
UNESCO National Commission	Good
ICOMOS International	Poor
IUCN International	Poor
ICCROM international/regional	Poor
ICOMOS national/regional	Good
IUCN national/regional	Fair

15.5.2 - Please rate the level of support for completing the Periodic Reporting questionnaire from the following entities

UNESCO World Heritage Centre	Poor
State Party Representative (national Focal Point)	Poor
UNESCO other sectors (e.g. field office)	Fair
National Commission for UNESCO	Good
ICOMOS International	Poor
ICCROM International/regional	Poor
ICOMOS national/regional	Good
IUCN national/regional	Fair
IUCN International	Poor

15.5.3 - Were the online training resources prepared by the World Heritage Centre regarding Periodic Reporting adequate for you to complete this questionnaire?

No

15.5.4 - If you found that the online training resources were not adequate, what changes would you like to see implemented?

Alternative possibilities for the development of resources should be explored.

15.6. Actions that will require formal consideration by the World Heritage Committee

15.6.1 - Summary of actions that will require formal consideration by the World Heritage Committee

No item were proposed for update

15.7. Comments, conclusions and/or recommendations related to the Assessment of the Periodic Reporting Exercise

15.7.1 - Comments, conclusions and/or recommendations related to the Assessment of the Periodic Reporting Exercise

It has been beneficial for all institutions and organizations related to the site to come together and carry out periodic reporting studies in terms of preserving the outstanding universal value of the site and sharing knowledge and experience.

15.7.2 - Thank you for having filled in all the questions. Please contact your National Focal Point for validation.
