2.7.4	The World Heritage Site Manager <b>also manages</b> this designation/programme.	

#### 2.8 - Please add any further comments on cooperation with the other designation(s)/programme(s)

Los Alerces National Park has been a Man a Biosphere Reserve since 2007, therefore there is no intention to a new designation in the next three years.

2.9 - Are you aware of any elements associated with the World Heritage property that have been inscribed on the Representative List of the Intangible Cultural Heritage?

No

- 2.10 Please list any elements associated with the World Heritage property inscribed under the Convention for the Safeguarding of the Intangible Cultural Heritage of which you are aware
- 2.11 Are you aware of any documentary heritage listed under the Memory of the World Programme associated with the World Heritage property?
- 2.12 Please list any documentary heritage associated with the World Heritage property listed under the Memory of the World Programme of which you aware.
- 3. Statement of Outstanding Universal Value
- 3.1 Statement of Outstanding Universal Value for the property as adopted by the World Heritage Committee

## Statement of Outstanding Universal Value

**Brief synthesis** 

Los Alerces National Park is located within the Andes of Northern Patagonia and the property's western boundary coincides with the Chilean border. The property coincides with the formally gazetted Los Alerces National Park covering 188,379 ha and has a buffer zone of 207,313 ha comprising the contiguous Los Alerces

Los Alerces National Park 2 of 34

National Reserve (71,443 ha) plus an additional area (135,870 ha) which forms a 10 km wide band around the property except where it borders Chile.

The landscape in this region is moulded by successive glaciations creating a scenically spectacular variety of geomorphic features such as moraines, glacial river and lake deposits, glacial cirques, chain-like lagoons, clear-water lakes, hanging valleys, sheepback rocks and U-shaped valleys. The Park is located on the Futaleufú River basin which encompasses a complex system of rivers and chained lakes, regulating the drainage of the abundant snow and rain precipitation. The property is dominated by the presence of Patagonian Forest which occupies part of southern Chile and Argentina. This forest is one of the five temperate forest types in the world, and the only ecoregion of temperate forests in Latin America and the Caribbean. The property is vital for the protection of some of the last portions of continuous Patagonian Forest in almost a pristine state and it is the habitat for a number of endemic and threatened species of flora and fauna including the longest-living population of Alerce trees (Fitzroya cupressoides), a conifer endemic to South America.

Criterion (vii): The property conserves a variety of landscapes and scenery. It contains an extensive system of interconnected, natural clear-water lakes and rivers. These waters display spectacular colours with shifting hues of green, blue and turquoise according to the intensity of sunlight and the time of the year. Crystal-clear rivers and lakes are surrounded by lush temperate Valdivian forests in an environment of mountain ranges, glaciers and snow-capped peaks. The Alerce forest is a celebrated feature of this majestic landscape; the forest is particularly remarkable in the north arm of Lake Menéndez which contains the Millennial Alerce Forest, located amidst a rainforest environment of ferns, moss, lichens, vines and bamboo, and with the largest and oldest tree being nearly 60 metres tall and approximately 2,600 years old. The Los Alerces National Park retains a high degree of naturalness providing a profound visitor experience.

Criterion (x): The property contains globally important undisturbed areas of Patagonian Forest, influenced by elements of Valdivian Temperate Forest, which is a priority ecoregion for biodiversity conservation worldwide. The Valdivian ecoregion has developed in marked biogeographic insularity, in which important speciation processes have taken place. This is evidenced by the presence of relict genera and even taxonomic orders, as well as numerous endemic and threatened species: 34% of woody plant genera are endemic, from which 80% are known from only one species, and some are relict having survived periods of glaciation. The globally threatened Alerce tree is the second longest living tree species in the world (> 3,600 years). Unlike many other Alerce forests, which show signs of alteration due to exploitation, livestock farming or fire, the Alerce forest in the property is in an excellent state of conservation, which contributes to the long-term viability of the species' natural populations.

#### Integrity

The inscribed area corresponds to the Los Alerces National Park, a legally protected area equivalent to IUCN Category II. The property is uninhabited and road less; it contains significant strictly protected zones (equivalent of IUCN Category I). These include an "Intangible Area" (comparable to IUCN Category Ib) and a "Strict Nature Reserve" (Category Ia) adding up to 125,463 ha or two-thirds of the property. In addition, some of the forests in the property have a very high degree of natural protection due to their remoteness and rugged terrain, combined with a longstanding formal conservation history and are therefore exceptionally intact. The property contains the most intact and least vulnerable Valdivian Temperate Forest stands in Argentina and is of sufficient size to sustain its Outstanding Universal Value. Other areas in Argentina and neighbouring Chile also offer the potential for the future expansion of this property.

The contiguous 71,443 ha Los Alerces National Reserve forms part of the property's buffer zone and is also a protected area equivalent to IUCN Category VI; thus allowing sustainable use of its resources. The National Reserve is inhabited by a small number of rural settlers and is subject to grazing. It is the focus on most tourism activity and contains the main visitor infrastructure and services. The National Reserve is also the location of the 1970s Futaleufú Dam, reservoir and associated hydropower infrastructure. The reservoir created by the dam extends into areas of the property. One of the most striking values of the property is its impressive scenic beauty. The ensemble of majestic, partially glaciated mountains transitioning into dense and largely intact forests across most of the property, interrupted only by the countless crystal-clear lakes, rivers and creeks, is visually stunning. The dam is a major non-natural landscape element that is a long-standing and permanent damaging feature in the natural landscape.

#### Protection and management requirements

The property is part of the National System of Protected Areas in Argentina (SNAP - Sistema Nacional de Áreas Protegidas de la Argentina), which is under the jurisdiction of the National Parks Administration (APN), a self-governed body created by Law No. 12,103 in 1934, regulated by National Law No. 22,351 of 1980. The overarching legal objective of the property is protection and conservation for scientific research, education and enjoyment of the present and future generations. All land is in the public domain in accordance with the legal provisions.

Long-standing conflicts exist in the National Reserve, which forms part of the buffer zone, concerning land tenure rights on private property. Private land only occurs over a small area however, use rights extend to much wider areas of the National Reserve. It is important to seek a satisfactory resolution through working with local communities to limit impacts and optimize the benefits of World Heritage listing for stakeholders.

The property has a management plan which was legally adopted in 1997 and will be revised and updated when required, including provisions to enhance participatory approached to management. The property benefits from adequate human and financial resources for its management and has a highly professional ranger corps responsible for on-ground control and law enforcement. However, operational resources are very limited and should be improved.

As one of the key values of the property is its high degree of naturalness, it is therefore imperative to avoid any further developments that could lead to fragmentation of the property. The impacts of the Futaleufú Dam, reservoir and associated infrastructure should be carefully monitored to mitigate against legacy, current and possible future impacts. Any major upgrades of this infrastructure should be avoided. Any ongoing routine maintenance or unavoidable upgrades should be subject to rigorous environmental impact assessment to safeguard against impact on the property's Outstanding Universal Value.

Provision of sustainable tourism and recreation is an important management objective and subject to major spatial and management restrictions through zoning. In spite of these measures there are concerns about growing tourism and recreation driven by growing local demand from nearby towns. Such demand could increase with the World Heritage designation of the park. Invasive alien species, which is a key threat throughout the region, requires effective control measures particularly to avoid impacts to the fragile freshwater ecosystems that are present in the property.

## 3.2 - Please list the key attributes of Outstanding Universal Value of your property and give an assessment of their condition. As a guideline, it is suggested to focus on approximately five key attributes (no more than 15 overall).

	Brief identification of attribute	Preserved	Compromised	Seriously compromised	Lost
3.2.1	Valdivian temperate forests with high biological integrity and uniqueness	×			
3.2.2	Extensive and complete Millennial Alerce Forest	×			
3.2.3	Significant nuclei of "old growth forests" of northern Patagonia, with high genetic uniqueness	×			
3.2.4	Important role in the conservation of a wide range of fauna, including endemic species and species of special value in the ecoregion	×			
3.2.5	Fundamental role in the protection of upper watersheds, glaciers and is a vast reservoir of fresh water	×			

Los Alerces National Park 3 of 34

3.2.6	Remote areas that are sceneries of extraordinary beauty and naturalness	×

## 4.1.6 - Please comment as necessary on how the factors selected as relevant in 4.1 are affecting the property either negatively or positively

There is a raised path along much of the route that avoids impacts on the ground, particularly in areas with steep slopes. Signage and highly controlled guided tours are considered to contribute to the positive impacts by increasing knowledge and appreciation of the heritage site. Potential negative impacts are related to potential accidents, mainly with boats.

## 4.8.7 - Please comment as necessary on how the factors selected as relevant in 4.8 are affecting the property either negatively or positively

The preponderant human activity has to do with the visitation of the property, which is mostly done through tourism providers and in an autonomous way (pedestrian or lake) in limited sectors. The positive impact considered has to do with increasing the visitor's knowledge and appreciation of the property through the experience of the visit.

## 4.12.7 - Please comment as necessary on how the factors selected as relevant in 4.12 are affecting the property either negatively or positively

Salmonid planting has occurred in the first half of the 20th century. Didimosphenia geninata, an invasive algae, has so far been successfully contained and has not entered any of the sub-basins of the property. There are invasive animals (e.g. Sus scrofa, Bombus ruderatus, Neovison, vison, Vespula germanica among others that have invaded in the second half of the 20th century, long before the declaration of the heritage site, with current trends probably stable.

- 4.17. Serial inscriptions (national or transnational)
- 4.17.1 If your property is a serial inscription (national or transnational) please identify which components of the property are impacted by each factor
- 4.18. Prediction of the state of conservation at next cycle of Periodic Reporting.
- 4.18.1 Please predict what the state of conservation of each attribute will be approximately 6 years from now (at the time of the next cycle of Periodic Reporting)

	Attribute	Preserved	Compromised	Seriously compromised	Lost
4.18.1.1	Valdivian temperate forests with high biological integrity and uniqueness	×			
4.18.1.2	Extensive and complete millennial alerce forest	×			
4.18.1.3	Significant nuclei of "old growth forests" of northern Patagonia, with high genetic uniqueness	×			
4.18.1.4	Important role in the conservation of a wide range of fauna, including endemic species and species of special value in the ecoregion	×			
4.18.1.5	Fundamental role in the protection of upper watersheds, glaciers and is a vast reservoir of fresh water	×			

- 5. Protection and Management of the Property
- 5.1. Boundaries and Buffer Zones
- **5.1.1 Are the boundaries of the World Heritage property adequate to maintain the property's Outstanding Universal Value?**The boundaries are **adequate to maintain** the property's Outstanding Universal Value
- 5.1.2 Are the boundaries of the World Heritage property known and recognised?

The boundaries are known by both the management authority and local communities/landowners

- 5.1.3 Are the buffer zone(s) of the World Heritage property adequate to maintain the property's Outstanding Universal Value?

  The buffer zones are adequate to maintain the property's Outstanding Universal Value
- 5.1.4 Are the boundaries of the buffer zones known and recognised?

The buffer zones of the World Heritage property are known and recognised by both the management authority and local communities/landowners

- 5.1.5 Comments, conclusions and/or recommendations related to boundaries and buffer zones of the World Heritage property
- 5.2. Protective Measures
- 5.2.1 Protective designation (legal, regulatory, contractual, planning, institutional and/or traditional).
- 5.2.2 Please list any legislation and other measures (regulatory -including spatial planning- contractual, institutional or traditional) not included in 5.2.1 and indicate the category
- 5.2.3 Is the legal framework (i.e. legislation and/or regulation including spatial planning) adequate for maintaining the Outstanding Universal Value including conditions of Integrity and/or Authenticity of the property?

The legal framework for maintaining of the Outstanding Universal Value including conditions of Authenticity and/or Integrity of the World Heritage property provides an adequate basis for effective management and protection

5.2.4 - Is the legal framework (i.e. legislation and/or regulation) adequate in the buffer zone for maintaining the Outstanding Universal Value including conditions of Integrity and/or Authenticity of the property?

An adequate legal framework in the buffer zone for maintaining the Outstanding Universal Value including conditions of Authenticity and/or Integrity of the World Heritage property exists but there are some deficiencies in implementation

5.2.5 - Is the legal framework (i.e. legislation and/or regulation) in the broader setting of the World Heritage property adequate for maintaining the Outstanding Universal Value including conditions of Integrity and/or Authenticity of the property?

The **legal framework** for the broader setting of the World Heritage property provides an **adequate basis for** effective management and protection of the property, contributing to the maintenance of its Outstanding Universal Value including conditions of Authenticity and/or Integrity

5.2.6 - Can the legal framework (i.e. legislation and/or regulation) be enforced?

There is adequate capacity/resources to enforce legislation and/or regulation in the World Heritage property

5.2.7 - Please provide a short summary of how the legislation, including spatial planning and other regulation, works in practice

Los Alerces National Park 22 of 34

## 5.2.8 - Comments, conclusions and/or recommendations about the information related to the measures taken to protect the World Heritage property

#### 5.3. Management System/Management Plan

5.3.1 - Please check the box which most closely match the character of the governance and management system of the property Public management system at national level

#### If 'Other', please specify

5.3.2 - Management System: Please indicate which of the various management tools listed below are used to help protect the property.

A statutory Management Plan or zoning plan for the property.

An integrated management plan combining World Heritage and any other designations

A management plan

A disaster, climate or conflict risk management plan

An environmental management framework

#### 5.3.3 - Please give a brief description of the management system currently in place at your property

The property is located entirely within Los Alerces NP and is governed by the relevant regulations of the National Parks Administration of Argentina

#### 5.3.4 - Management Documents

## 5.3.5 - Has any use been made of the 2011 Recommendation on the Historic Urban Landscape in developing policies and best practices for the protection of this property?

No use has been made of the 2011 Recommendation on the Historic Urban Landscape

- 5.3.6 If the Historic Urban Landscape Recommendation has been used at this property, please describe briefly what has been done.
- 5.3.7 Has any use been made of the Policy Document on the Impacts of Climate Change on World Heritage Properties at the property?

No use has been made of the World Heritage Policy for Climate Change

- 5.3.8 If the Climate Change policy has been used, please briefly describe what has been done along with any research on the impacts of Climate Change on the property:
- 5.3.9 Has any use been made of the Strategy for Reducing Risks from Disasters at World Heritage Properties at the property? Some use has been made of the Strategy for Reducing Risks from Disasters at World Heritage Properties
- 5.3.10 If the Strategy for Reducing Risks from Disasters at World Heritage Properties has been used, please briefly describe what has been done
- 5.3.11 Rate the coordination between the various levels of administration (i.e. national/federal; regional/provincial/state; local/municipal etc.) involved in the management of the World Heritage property

There is coordination between the range of administrative bodies involved in the management of the property, but it could be improved

#### 5.3.12 - Is the management system/plan adequate to maintain the property's Outstanding Universal Value?

The management system/plan is fully adequate to maintain the property's Outstanding Universal Value

#### 5.3.13 - Is the management system being implemented?

The management system is being fully implemented and monitored

#### 5.3.14 - Is there an annual work/action plan and is it being implemented?

# 5.3.15 - Does the management system include formal mechanisms and procedures that ensure participation and contribution of the following groups, living within or near the World Heritage property and/or buffer zone in management decisions that maintain the Outstanding Universal Value of the property?

		Not applicable	No mechanisms for participation	Some participation	Direct participation	Transformative participation in all relevant decision processes
5.3.15.1	Local communities			×		
5.3.15.2	Local authorities				×	
5.3.15.3	Landowners in the property and the buffer zone			×		
5.3.15.4	Indigenous peoples				×	
5.3.15.5	Women				×	

Los Alerces National Park 23 of 34

5.3.15.6	Other specific groups			
	If you selected, 'Other specific groups' please specify			

## 5.3.16 - Please rate the cooperation/relationship between the World Heritage property managers/coordinators/staff and the following groups

		Not applicable	Non-existent	Poor	Fair	Good
5.3.16.1	Local communities				×	
5.3.16.2	Local/Municipal authorities					×
5.3.16.3	Indigenous peoples				×	
5.3.16.4	Landowners				×	
5.3.16.5	Women					×
5.3.16.6	Youth/Children			×		
5.3.16.7	Researchers					×
5.3.16.8	Local Visitors/Tourists				×	
5.3.16.9	National/International tourists				×	
5.3.16.10	Tourism Industry				×	
5.3.16.11	Local businesses and industries				×	
5.3.16.12	NGOs				×	
5.3.16.13	Other specific groups		×			
	If you selected 'Other specific groups', please specify					

# 5.3.17 - Please rate the extent to which the management system of your property contributes towards achieving the objectives of the World Heritage Committee's Policy for the Integration of a Sustainable Development Perspective into the Processes of the World Heritage Convention

		Not applicable	No contribution	Limited	Significant	Full achievement
5.3.17.1	The management system of the property contributes to gender equality				×	
5.3.17.2	The management system of the property provides ecosystem services/benefits to the local community (e.g. fresh air, water, food, medicinal plants)				×	
5.3.17.3	The management system of the property contributes to social inclusion and equity, improving opportunities for all, irrespective of age, sex, disability, ethnicity, origin, religion or economic or other status				×	
5.3.17.4	The management system of the property integrates a human rights-based approach				×	
5.3.17.5	The management system of the property contributes to fostering inclusive local economic development, and to enhancing livelihood				×	
5.3.17.6	The management system of the property contributes to conflict prevention, including respect for cultural diversity within and around the World Heritage property				×	

### 5.3.18 - Please provide further details on the ratings of the management system given in the table above

## ${\bf 5.3.19 \cdot Comments, conclusions \ and/or \ recommendations \ related \ to \ the \ management \ system/plan}$

#### 6. Financial and Human Resources

#### 6.1. Funding

## 6.1.1 - If your funding sources do not exactly fit those shown, put the relevant amounts against the funding type that most closely represents your situation, and use the comment box below to provide more details.

		Project costs	Running costs
6.1.1.1	Multilateral funding (GEF, World Bank, etc.)	0 %	%
6.1.1.2	Bilateral international funding	0 %	%
6.1.1.3	World Heritage Fund (International Assistance)	0 %	%
6.1.1.4	Contribution from other conventions and programmes	0 %	%

Los Alerces National Park 24 of 34

6.1.1.5	International donations (NGOs, foundations, etc.)	0 %	%
6.1.1.6	Governmental (national/federal)	0 %	%
6.1.1.7	Governmental (regional/provincial/state)	0 %	%
6.1.1.8	Governmental (local/municipal)	0 %	%
6.1.1.9	In-country donations (NGOs, foundations, etc.)	0 %	%
6.1.1.10	Individual visitor charges (e.g. entry, toilets, parking, camping fees, etc.)	0 %	%
6.1.1.11	Commercial activities (e.g. merchandising and catering, filming permit, concessions, etc.)	0 %	%
6.1.1.12	Other	0 %	%
		Total 0 %	Total 0 %

#### 6.1.2 - Please comment here on any other aspects of funding sources not covered in the table above

#### 6.1.3 - Is the current budget sufficient to manage the World Heritage property effectively?

The available budget is inadequate for basic management needs and presents a serious constraint to the capacity to manage

#### 6.1.4 - Are the existing sources of funding secure and likely to remain so?

The existing sources of funding are not secure

#### 6.1.5 - Comments, conclusion, and/or recommendations related to finance and infrastructure

## 6.1.6 - Estimate the distribution of men and women involved in the management, conservation, interpretation of the World Heritage properties and the extent to which they are drawn from local communities.

		From local communities %	From elsewhere %
6.1.6.1	Men	50 %	50 %
6.1.6.2	Women	50 %	50 %
		Total 100 %	Total 100 %

#### 6.1.7 - Are available human resources adequate to manage the World Heritage property?

Human resources are inadequate for management needs

## 6.1.8 - Considering the management needs of the World Heritage property, please rate the availability of professionals in the following disciplines

Conservation	Fair
Environmental sustainability	Poor
Community participation and inclusion	Poor
Risk preparedness	Poor
Capacity development and education	Fair
Administration	Fair
Research and monitoring	Fair
Awareness raising and public information/communication	Poor
Marketing and promotion	Poor
Interpretation	Fair
Visitor management/tourism	Fair
Enforcement (custodians, police)	Fair

## 6.1.9 - Please rate the availability of training opportunities for the management of the World Heritage property in the following disciplines

Conservation	Poor
Environmental sustainability	Fair
Community participation and inclusion	Poor
Risk preparedness	Poor
Capacity development and education	Poor
Administration	Good

Los Alerces National Park 25 of 34

Research and monitoring	Poor
Awareness raising and public information/communication	Poor
Marketing and promotion	Poor
Interpretation	Fair
Visitor management/tourism	Fair
Enforcement (custodians, police)	Good

#### 6.1.10 - Has any use been made of the World Heritage Strategy for Capacity Building at the property?

No use has been made of the World Heritage Strategy for Capacity Building

- 6.1.11 If the World Heritage Strategy for Capacity Building has been used, please briefly describe what has been done.
- 6.1.12 Are there site-specific capacity building plans or programmes that develop local expertise and that contribute to the transfer of skills for the conservation and management of the World Heritage property?

A site-based capacity building plan or programme is in place and partially implemented; some technical skills are being transferred to those managing the property locally, but most technical work is carried out by external staff

- 6.1.13 Comments, conclusions and/or recommendations related to human resources, expertise and training
- 7. Scientific Studies and Research Projects
- 7.1 Is there adequate knowledge (scientific or traditional) about the values and attributes of the World Heritage property to support planning, management and decision-making to ensure that Outstanding Universal Value is maintained?

Knowledge about the values and attributes of the World Heritage property is acceptable for most key areas but there are gaps

7.2 - Is there a planned programme of research at the property which is directed towards management needs and/or improving understanding of Outstanding Universal Value?

There is a small amount of research, but it is not planned

7.3 - Are results from research programmes publicly available and disseminated?

Research results are shared with local communities and partners but there is no active outreach to national or international agencies

- 7.4 Comments, conclusions and/or recommendations related to scientific studies and research projects
- 8. Education, Information and Awareness Building
- 8.1 Please rate the awareness and understanding of the existence and justification for inscription of the World Heritage property amongst the following groups

Local communities	Good
Local/municipal authorities	Good
Indigenous peoples	Good
Landowners	Good
Women	Good
Youth/children	Fair
Researchers	Good
Local visitors	Good
National/international tourists	Good
Tourism industry	Good
Local businesses and industries	Good
NGOs	Good
Other specific groups	Not applicable
If you selected 'Other specific groups', please describe	

8.2 - Does the property have a heritage education programme(s) for children and/or youth, that can contribute to a better understanding of heritage, promote diversity and foster intercultural dialogue?

There is no education and awareness programme for children and/or youth, despite an identified need

8.3 - Who are the target audiences for education and awareness programmes at your property?

Los Alerces National Park 26 of 34

Youth/children

Tourism industry

## 8.4 - Please rate the adequacy of the following visitor facilities and services at the World Heritage property for education, information, interpretation and awareness building

Visitor centre	Good
Site museum	Not needed
Information booths	Good
Guided tours	Good
Trails/routes	Good
Printed information materials	Good
Online (website, social media, etc.)	Good
Transportation facilities	Poor
Other	Not needed
If 'Other' is selected, please specify	

- 8.5 Comments, conclusions and/or recommendations related to education, information and awareness building
- 9. Visitor Management
- 9.1 Please provide estimated annual visitor numbers (including national and international visitors) since the last Periodic Report

no data (pandemic) / 165483 / 96818 / 132383 / 150666 /

9.2 - What information sources are used to collect visitor statistics?

Entry tickets and registries

9.3 - What is the average length stay of a visitor to the World Heritage property?

Two overnight stays

- 9.4 Please provide the source of information
- 9.5 What is the approximate average daily visitor expenditure? (Please provide an estimated monetary figure in USD)

U\$S 10 (camping plot) to U\$S 100 per person per day / U\$S 25 / U\$S 10 / domestic tourists U\$S 2.5, international tourist U\$S 18, Provincial and students U\$S 1.5 / U\$S de 0 a U\$S 100 / 0 U\$S a U\$S 500 /

- 9.6 Please provide the source of information
- 9.7 Does the management system/plan for the World Heritage property include a strategy with an action plan to manage visitors, tourism activity and its derived economic, socio-cultural and environmental impacts?

There is a strategy to manage visitors, tourism activity and its derived impacts on the World Heritage property but there are some deficiencies in implementation

- 9.8 Please provide any comments relating to the answer provided above in question 9.7
- 9.9 Is visitor use effectively managed to maintain the Outstanding Universal Value of the property?

Visitor use of the World Heritage property is effectively managed and does not impact its Outstanding Universal Value

9.10 - Is the effectiveness of tourism management regularly monitored?

Yes, using a different system

If a different system, please specify

9.11 - How does the tourism industry cooperate with the site management to improve visitor experiences and maintain the Outstanding Universal Value of the World Heritage property?

There is good cooperation between those responsible for the World Heritage property and the tourism industry to present the Outstanding Universal Value and increase appreciation

9.12 - How well is the information on the Outstanding Universal Value of the property presented and interpreted?

The presentation and interpretation of the Outstanding Universal Value of the property is acceptable but improvements could be made

9.13 - At how many locations is the World Heritage emblem displayed at the property?

In one location and easily visible to visitors

9.14 - How does visitor/tourism revenue (e.g. entry charges, permits) contribute to the management of the World Heritage property?

Fees are collected, and make some contribution to the management of the World Heritage property

Los Alerces National Park 27 of 34

#### 9.15 - Are there locally driven sustainable tourism initiatives?

Yes

#### If 'Yes', please specify

#### 9.16 - Are the benefits of tourism shared with local communities?

V--

#### If 'Yes', please specify

El alojamiento de los visitantes es en su amplia mayoría en las localidades vecinas

#### 9.17 - Comments, conclusions and/or recommendations related to visitation/tourism/public use of the World Heritage property

#### 10. Monitoring

## 10.1 - Is there a monitoring programme at the property directed towards management needs and/or towards improving the understanding of the Outstanding Universal Value?

There is a small amount of monitoring, but it is not planned

## 10.2 - Is necessary information available in order to define key indicators for measuring the state of conservation and are they used in monitoring how the Outstanding Universal Value of the property is being maintained?

Information on the values of the World Heritage property is sufficient to define key indicators, but this has not been done

#### 10.3 - Are key indicators defined and in place for the following principal aspects of the property?

	Extend of indicators	Not applicable	No indicators	Indicators have been defined but are not yet in use	Indicators are in place and in use since the last Periodic Reporting cycle
10.3.1	State of conservation			×	
10.3.2	Effectiveness of the management system				X
10.3.3	Character of governance		×		
10.3.4	Appropriate synergy with other conservation designations		×		
10.3.5	Contribution to sustainable development		×		
10.3.6	Capacity development		×		

#### 10.4 - Please provide information on relevant key indicators adopted at the property

#### 10.5 - Please rate the level of involvement in monitoring of the following groups:

World Heritage managers/coordinators and staff	Good
Local/municipal authorities	Good
Local communities	Fair
Indigenous peoples	Fair
Landowners	Fair
Women	Good
Researchers	Good
Tourism industry	Good
Local businesses and industry	Good
NGOs	Good
Other specific groups	Not applicable
If you selected 'Other specific groups', please specify	

### 10.6 - Has the State Party implemented relevant recommendations arising from the World Heritage Committee?

No relevant Committee recommendations to implement

#### 10.7 - Please provide comments relevant to the implementation of recommendations from the World Heritage Committee.

### 10.8 - Comments, conclusions and/or recommendations related to Monitoring

### 11. Identification of Priority Management Needs

#### 11.1 - Identification of Priority Management Needs

Summary - Man	agemen	t Needs comple	eted	

#### 12.3. Conclusions on the State of Conservation of the Property

12.3.1 - Following the analysis undertaken for this report, what is the current state of Authenticity of the World Heritage property?

The Authenticity of the World Heritage property has been preserved

12.3.2 - Following the analysis undertaken for this report, what is the current state of Integrity of the World Heritage property?

The Integrity of the World Heritage property is intact

## 12.3.3 - Following the analysis undertaken for this report, what is the current state of the World Heritage property's Outstanding Universal Value?

The World Heritage property's Outstanding Universal Value has been maintained.

Los Alerces National Park 31 of 34

#### 12.3.4 - What is the current state of the property's other values?

Other important cultural and/or natural values and the state of conservation of the World Heritage property are intact

#### 12.3.5 - Comments. conclusions and/or recommendations related to the state of conservation of the property.

#### 13. Impact of World Heritage Status

#### 13.1 - Please rate the impacts of World Heritage status of the property in relation to the following areas

Conservation	Very positive
Research and monitoring	Positive
Management effectiveness	Positive
Quality of life for local communities and indigenous peoples	Positive
Recognition	Very positive
Education	Positive
Infrastructure development	Positive
Funding for the property	No impact
International cooperation	No impact
Political support for conservation	Positive
Legal/Policy framework	Very positive
Advocacy	Positive
Institutional coordination	Positive
Security	Positive
Gender equality	Positive
Provision of ecosystem services/ benefits to local communities	Positive
Social inclusion and equity, and improvement of opportunities for all, irrespective of age, sex, disability, ethnicity, origin, religion, or economic or other status	Positive
Fostering inclusive local economic development and enhancing livelihood	Very positive
Contributing to conflict prevention, including respect for cultural diversity within and around heritage properties	Positive
Other	Not applicable
If 'Other', please specify	

#### 13.2 - Comments, conclusions and/or recommendations related to World Heritage status and its impacts

- 14. Good Practice in the Implementation of the World Heritage Convention
- 14.1 Example of good practice in World Heritage protection, identification, conservation or management at the property level
- 14.2 Define which topics are covered by this example of best practice at the property level

Sustainable Development
State of Conservation

- 15. Assessment of the Periodic Reporting Exercise
- 15.1. Relevance of Periodic Reporting
- 15.1.1 Has the Periodic Reporting process improved the understanding of the following?

The concept of Outstanding Universal Value

The property's Outstanding Universal Value

## 15.1.2 - Please rate the follow-up to conclusions and recommendations from previous Periodic Reporting exercise by the following entities

State Party	No follow-up
