They come across children cutting trees and stealing forest resources. (Invasive and others saved).

They all run away and get businessmen to do the same. But he stays back and decides to talk to them.

Talks revealed that tribals need clean water & food. mostly a provision and shelter. (They invade into the forest for the same)

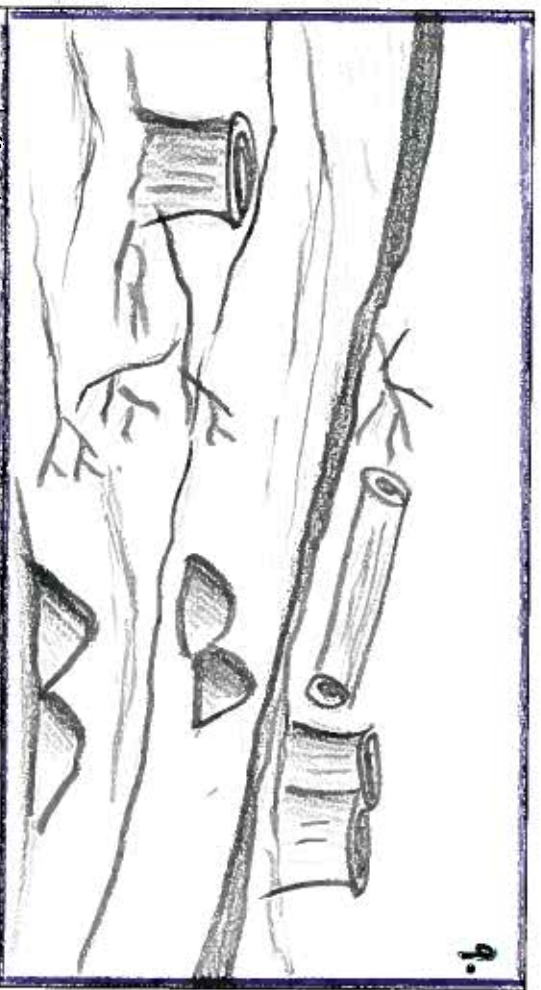

He visualized trees being chopped for wood & logs being killed for their skin and bones and so on... (Mandars deepy)

9. If this continues, all natural resources will be lost (sovereignty, barren and animals destroyed)

11. NGo comes to help. Adopts the tribal group (Bodhisht) and educates them to understand the importance of protecting the biodiversity and forest conservation strategies.

10. Panchajanya wants to solve this problem. He approached a NGo (their work for conservation and education) put the stage.

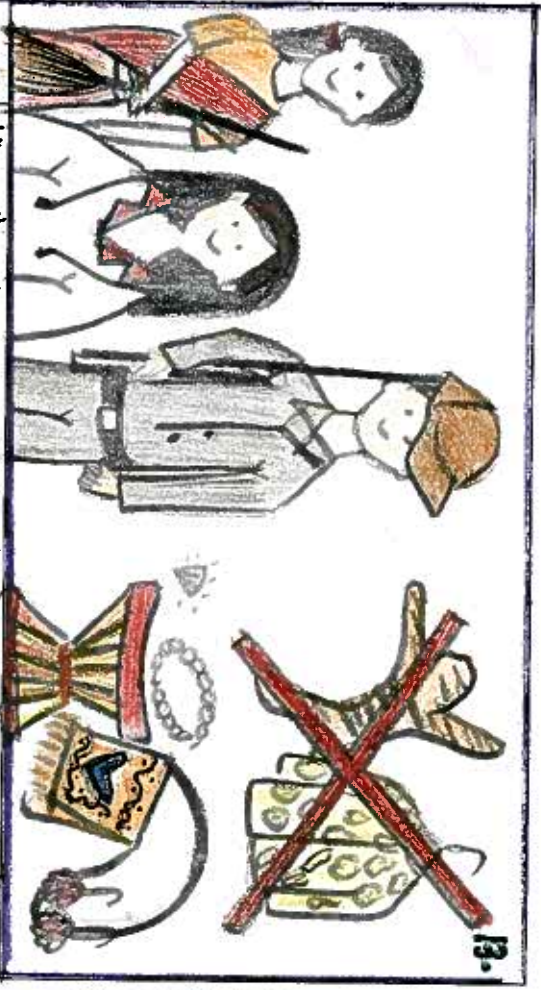

12. Panchajanya along with the NGo workers go around to create awareness among the tribals.

After getting educated, new fashions for livelihood created. Tribal crafts given encouraging environment. Animal skin and products banned.

Sensory comes back to life. The water is sparkling, the trees are green and everything looks beautiful (birds chirping)

Tobias happy with improved housing and lifestyle. Thus, quality of life improved immensely.

Parthivmonth's celebrated. His visit to the sanctuary is now successful. He thanks the Neo and congratulate the sensory workers and boards.
